Unconscious Fantasies and the Relational World Danielle Knafo, Kenneth Feiner, 2013-05-13 What is the role of unconscious fantasies in psychological development in psychopathology and in the arts In *Unconscious Fantasies and the Relational World* Danielle Knafo and Kenneth Feiner return to these interlinked questions with a specific goal in mind a contemporary appreciation of fantasy in its multiform relational contexts To this end they provide detailed examinations of primal scene family romance and castration fantasies respectively Each category of fantasy is pushed beyond its classical psychoanalytic meaning by attending to the child's ubiquitous concerns about sexual difference and feelings of incompleteness her perception of the parental relationship and the multiple shifting identifications that grow out of this relationship Evocative clinical examples illuminate the manner in which patients and analysts play out these three core fantasies They are balanced by chapters that explore the generative side of these same fantasies in the arts David Lynch's film *Blue Velvet* provides an artistic rendering of the primal scene Jerzy Kosinski's life and work illustrates the family romance and French multimedia artist Orlan's carnal art recreates the trauma of castration *Unconscious Fantasies and the Relational World* is a tightly woven study of broad and basic questions It is in equal measure a contemporary re-visioning of the grounds of fantasy formation a relationally informed guide to clinical techniques for dealing with unconscious fantasy and an examination of the generative potential of unconscious fantasy in the arts Out of the authors broadening and broad-minded sensibility emerges an illuminating study of the manifold ways in which unconscious fantasies shape lives and enrich clinical work

Being There in the Age of Trump Barbara Tepa Lupack, 2020-08-20 Jerzy Kosinski's *Being There* published in 1970 and adapted to film in 1979 was prescient in its vision of a simple man without discernible talent or political experience whose knowledge of the world comes almost exclusively from television Yet his very shallowness establishes him as a TV celebrity and propels him to the pinnacle of American government Both an incisive satire and a clarion call to resist the collectivizing force of the media that influences American life and shapes distorts and ultimately corrupts politics and culture *Being There* offered a trenchant comment on the nature of being in the modern world of power And it critiqued the tendency of Americans to seek mindless distraction rather than engagement and to find profundity in banal slogans and slick visuals Issued a half century ago Kosinski's warning not to let hollow imagery trump our good sense and become our new reality is even more urgent today The first book-length examination of Kosinski in more than a decade *Being There in the Age of Trump* goes beyond conventional literary and film analysis to a larger interdisciplinary and cultural study of a work still timely and popular

The Essay Film Timothy Corrigan,2011-08 Why have certain kinds of documentary and non narrative films emerged as the most interesting exciting and provocative movies made in the last twenty years Ranging from the films of Ross McElwee Bright Leaves and Agnes Varda The Gleaners and I to those of Abbas Kiarostami Close Up and Ari Folman Waltz with Bashir such films have intrigued viewers who at the same time have struggled to categorize them Sometimes described as personal documentaries or diary films these eclectic works are rather best understood as cinematic variations on the essay So argues Tim Corrigan in this stimulating and necessary new book Since Michel de Montaigne essays have been seen as a lively literary category and yet despite the work of pioneers like Chris Marker seldom discussed as a cinematic tradition The Essay Film offering a thoughtful account of the long rapport between literature and film as well as novel interpretations and theoretical models provides the ideas that will change this *Beyond Suspicion* Marc Chenetier,1996-01-29 Selected by Choice magazine as an Outstanding Academic Book for 1996 *How to Pass National 5 English, Second Edition* David Swinney,2018-04-09 Exam Board SQA Level National 5 Subject English First Teaching September 2017 First Exam Summer 2018 This book contains all the advice and support you need to revise successfully for your National 5 exam It combines an overview of the course syllabus with advice from a top expert on how to improve exam performance so you have the best chance of success Refresh your knowledge with complete course notes Prepare for the exam with top tips and hints on revision technique Get your best grade with advice on how to gain those vital extra marks *Autofiction in English* Hywel Dix,2018-06-04 This innovative volume establishes autofiction as a new and dynamic area of theoretical research in English Since the term was coined by Serge Doubrovsky autofiction has become established as a recognizable genre within the French literary pantheon Yet unlike other areas of French theory English language discussion of autofiction has been relatively limited until now Starting out by exploring the characteristic features and definitions of autofiction from a conceptual standpoint the collection identifies a number of cultural historical and theoretical contexts in which the emergence of autofiction in English can be understood In the process it identifies what is new and distinctive about Anglophone forms of autofiction when compared to its French equivalents These include a preoccupation with the conditions of authorship writing after trauma and a heightened degree of authorial self reflexivity beyond that typically associated with postmodernism By concluding that there is such a field as autofiction in English it provides for the first time detailed analysis of the major works in that field and a concise historical overview of its emergence It thus opens up new avenues in life writing and authorship research *Library Journal* ,1997 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately *Going South* Debra L. Neo-Marxism and Post-Keynesian Economics Ludo Cuyvers, 2022-06-08 Piero Sraffa and Joan Robinson both iconic Cambridge economists were highly influenced by the economic theory of Karl Marx and integrated important elements of Marx's economic system into their theories This book argues based on published and unpublished documents that the work of Sraffa and Robinson can in fact be considered as essentially post Keynesian neo Marxist The first part of the book reviews the intellectual development of several key thinkers to this neo Marxist current in economic thought Kalecki Steindl Baran and Sweezy Part One and Part Two separately examine Robinson and Sraffa's works and questions how they fit into this specific neo Marxist current either building on it in Robinson's case or following another direction in Sraffa's case Part Three observes Robinson's theory of economic growth and its relationship to the views of Marx and Kalecki Overall Cuyvers demonstrates how their thought processes share characteristics with neo Marxist key ideological ideas such as stating or implying the labour theory of value as either redundant or wrong emphasising the role of class struggle in the distribution of income and rejecting Marx's falling rate of profits Following on from ideas briefly introduced in Cuyvers's *Economic Ideas of Marx's Capital* 2017 this book will particularly appeal to readers interested in the history of economic thought the work of Sraffa Robinson and Marx post Keynesian economics and neo Marxism **All Those Strangers** Douglas Field, 2015 Adored by many appalling to some baffling still to others few authors defy any single critical narrative to the confounding extent that James Baldwin manages Was he a black or queer writer Was he a religious or secular writer Was he a spokesman for the civil rights movement or a champion of the individual His critics as disparate as his readership endlessly wrestle with paradoxes not just in his work but also in the life of a man who described himself as all those strangers called Jimmy Baldwin and who declared that all theories are suspect Viewing Baldwin through a cultural historical lens alongside a more traditional literary critical approach *All Those Strangers* examines how his fiction and nonfiction shaped and responded to key political and cultural developments in the United States from the 1940s to the 1980s Showing how external forces molded Baldwin's personal political and psychological development Douglas Field breaks through the established critical difficulties caused by Baldwin's geographical ideological and artistic multiplicity by analyzing his life and work against the radically transformative politics of his time The book explores under researched areas in Baldwin's life and work including his relationship to the Left his FBI files and the significance of Africa in his writing while also contributing to wider discussions about postwar US

culture Field deftly navigates key twentieth century themes the Cold War African American literary history conflicts between spirituality and organized religion and transnationalism to bring a number of isolated subjects into dialogue with each other By exploring the paradoxes in Baldwin s development as a writer rather than trying to fix his life and work into a single framework *All Those Strangers* contradicts the accepted critical paradigm that Baldwin s life and work are too ambiguous to make sense of By studying him as an individual and an artist in flux Field reveals the manifold ways in which Baldwin s work develops and coheres

Money, Trains, and Guillotines William Marotti,2013-03-27 During the 1960s a group of young artists in Japan challenged official forms of politics and daily life through interventionist art practices William Marotti situates this phenomenon in the historical and political contexts of Japan after the Second World War and the international activism of the 1960s The Japanese government renewed its Cold War partnership with the United States in 1960 defeating protests against a new security treaty through parliamentary action and the use of riot police Afterward the government promoted a depoliticized everyday world of high growth and consumption creating a sanitized national image to present in the Tokyo Olympics of 1964 Artists were first to challenge this new political mythology Marotti examines their political art and the state s aggressive response to it He reveals the challenge mounted in projects such as Akasegawa Genpei s 1 000 yen prints a group performance on the busy Yamanote train line and a plan for a giant guillotine in the Imperial Plaza Focusing on the annual Yomiuri Ind pendant exhibition he demonstrates how artists came together in a playful but powerful critical art triggering judicial and police response *Money Trains and Guillotines* expands our understanding of the role of art in the international 1960s and of the dynamics of art and policing in Japan

Through Kosinski's Lenses Mary Lazar,2007 *Through Kosinski s Lenses Identity Sex and Violence* is a critical examination of the literary work of Jerzy Kosinski 1933 1991 Once a source of international controversy Kosinski now deserves to be studied for his artistic products not his biography Kosinski s work explores a world in flux and defies theoretical labels His books offer an intelligent yet veiled examination of moral political and economic systems via stories that remain popular intriguing and disturbing This analysis focuses on three of Kosinski s thematic lenses identity sex and violence Also featured are materials from the author s interviews with noted Kosinski scholars and friends most importantly with his widow Mrs Katherina von Fraunhofer Kosinski
