Street Harassment as Everyday Violence Melinda A. Mills, 2022-08-09 In *Street Harassment as Everyday Violence* Melinda A Mills investigates women's experiences with street harassment recognizing this phenomenon as a form of everyday violence The author follows feminist scholars to consider the ways that silence can potentially if only partially protect women from verbally assaultive men who harass women in public This violence both reveals and conceals itself in the discourses of silence about and during street harassment It maps onto and reflects the web of violence that proves persistent and difficult to dismantle This work operates as an initial intervention by way of recognition of street harassment as a problem that hides in

plain sight **Goffman and Social Organization** Greg Smith, 2002-11-01 Erving Goffman is considered by many to have been one of the most important sociologists of the post war era His close observation of everyday life and his concern with the ways in which people play roles and manage the impressions they present to each other led to his pioneering creation of a new dramaturgical perspective for sociology His later analysis explored the field of deviance and many of his works in this area are now considered as sociological classics including *Asylums* *The Presentation of the Self in Everyday Life* and *Stigma* This collection brings together many of today's leading sociologists to pursue and build upon the diverse aspects of Goffman's legacy The contributors present chapters on key topics of Goffman's work Issues covered include mental illness and institutionalism the incorporation of literary intertexts in Goffman's writings Goffman's relationship to ethnomethodology the singularity of Goffman's ethnography Ranging from his critique of institutionalization to his understanding of the minute details of face to face interaction this collection reveals the richness of Goffman's own work as well as his contribution to sociology today and will be essential reading for students and academics alike **Covered in Ink** Beverly Yuen Thompson, 2015-07-24 This book provides insight into the subculture of women with tattoos Thompson visits tattoos parlors talking to female tattoo artists and the women they ink and she attends tattoo conventions and Miss Tattoo pageants where heavily tattooed women congregate to share their mutual love for the art form Thompson finds that despite the stigma and social opposition heavily tattooed women face many feel empowered by their tattoos and strongly believe they are creating a space for self expression that also presents a positive body image **Freedom and Equality** Clare Chambers, 2024-03-19 Should the state recognise gender Can a liberal state discourage traditional family structures Is women's sport compatible with equality of opportunity Should feminists defend women's freedom to choose cosmetic surgery Is genital cutting always wrong or is it only wrong for girls *Freedom and Equality* investigates the contours of feminist liberalism a philosophical approach that is appealing but elusive Its hallmark is a liberalism that prioritises equality and individual autonomy while offering a rigorous critique of using individuals choices as the measure of justice Liberalism without feminism prioritises individual choice a strategy that has played a crucial role in the liberal defence of freedom against authoritarianism and conformity However as feminism shows relying on individual choice is insufficient to render an outcome just because people often choose things that harm or disadvantage themselves From beauty norms to the gendered division of labour from marriage to religion women and men choose to arrange their lives in ways that perpetuate inequality Often these choices are made in response to social norms including unjust unequal or harmful norms It follows that relying on individual choice as a measure of justice actually leaves unjust social structures intact Any defender of autonomy and equality must be prepared to criticise individuals choices while prioritising individual choosers The essays in this collection cover a wide range of issues fundamental to liberalism to feminism and to their intersection They explore the foundational philosophical concepts of choice equality of opportunity ideology and the state and they engage directly with key political controversies including

women's sport the state recognition of gender the regulation of cosmetic and cultural surgeries and state action to secure equality in the family Clare Chambers argues that feminist liberalism is both possible and necessary It is possible because the two doctrines of feminism and liberalism are compatible their fundamental values of freedom and equality aligned But feminism is necessary because liberalism has shown that it is simply not up to the task of securing gender equality and women's liberation alone

The Form of Cities Alexander R. Cuthbert,2008-04-15 The

Form of Cities offers readers a considered theoretical introduction to the art of designing cities Demonstrates that cities are replete with symbolic values collective memory association and conflict Proposes a new theoretical understanding of urban design based in political economy Demonstrates different ways of conceptualising the city whether through aesthetics or the prism of gender for example Written in an engaging and jargon free style but retains a sophisticated interpretative edge Complements Designing Cities by the same author Blackwell 2003 *Surveillance, Crime and Social Control* Dean Wilson, Clive Norris, 2017-05-15 Post 9 11 the need for an expansion of surveillance and greater expenditure on surveillance capabilities has been argued for by government and industry to help combat terrorism This has been coupled with increasing incorporation of surveillance technologies into the routine practice of criminal justice This important collection draws together key contemporary writings to explore how the surveillance gaze has been directed in the name of crime control Key issues include theories on surveillance CCTV undercover police surveillance bodies databases and technologies and surveillance futures It will be an essential collection for law librarians and criminologists **Exploring the Body** S. Cunningham-Burley, K. Backett-Milburn, 2001-09-24 This volume explores diverse ways of researching and theorizing the body It draws together a range of empirical work on different themes each taking the body and its study as its central problematic It creatively combines contributions on disability illness scars sleep complementary medicine running as well as the lifecourse themes of childhood youth and death The different approaches to researching the body examined through these contributions include autobiography case studies interviews and participant observation *Migration and Multi-ethnic Communities* Maija Ojala-Fulwood, 2018-02-19 This book aims to shed light on a global and complex phenomenon migration In order to grasp this vast and ambiguous issue the book offers ten multi layered case studies each focussing on one aspect of migration With this selection of articles this collected volume builds a bridge between the past and the present and highlight the many sides of migration The chapters will demonstrate how the questions of controlled migration movement of labour improvement of one's life and interaction of people of different origin have puzzled us in the course of the last five hundred years License to Harass Laura Beth Nielsen, 2009-01-10 Offensive street speech racist and sexist remarks that can make its targets feel both psychologically and physically threatened is surprisingly common in our society Many argue that this speech is so detestable that it should be banned under law But is this an area covered by the First Amendment right to free speech Or should it be banned In this elegantly written book Laura Beth Nielsen pursues the answers by probing the legal consciousness of ordinary citizens Using a combination of field observations and in depth semistructured interviews she surveys one hundred men and women some of whom are routine targets of offensive speech about how such speech affects their lives Drawing on these interviews as well as an interdisciplinary body of scholarship Nielsen argues that racist and sexist speech creates reproduces and reinforces existing systems of hierarchy in public places The law works to normalize and justify offensive public interactions she concludes offering in essence a license to harass Nielsen relates the results of

her interviews to statistical surveys that measure the impact of offensive speech on the public Rather than arguing whether law is the appropriate remedy for offensive speech she allows that the benefits to democracy to community and to society of allowing such speech may very well outweigh the burdens imposed Nonetheless these burdens and the stories of the people who bear them should not remain invisible and outside the debate Social Epidemiology Lisa F.
