Martin,2009-07 The Holy Bible Containing the Old and the New Testaments: The later prophets (1861) ,1858 2 Corinthians MacArthur New Testament Commentary John MacArthur,2003-11-01 Second Corinthians is the most personal of Paul s letters providing unique insight into his heart for God and his motivation in ministry With his credibility under attack Paul reluctantly defended himself for the sake of the gospel In doing so he offers a perspective that will encourage every believer especially when enduring the hardships of ministry Join John MacArthur as he explains each verse in a way that is both doctrinally precise and intensely practical **2 Corinthians Revisited** James E. Smith, Ph.D., *The Art of Living Chinese Proverbs and Wisdom* Hong Yingming,2020-06-16 This book offers a contemporary look at the popular 400 year old text Vegetable Roots Discourse Ming Dynasty scholar and philosopher Hong Yingming wrote many books but only Vegetable Roots Discourse has survived into the 21st century remaining a widely studied text in China Japan and Korea In it Yingming offers 360 observations and proverbs about life human nature heaven earth and more These witty and timeless sentiments derive from Yingming s own informal compilation of thoughts as well as the understandings of Buddhism Daoism Taoism and Confucianism In *The Art of Living Chinese Proverbs and Wisdom* Professor Wu Yansheng and Dr Ding Liangyan have provided original commentaries for each of the 360 snippets of wisdom These help readers to expand their understanding of the meaning behind the original text whilst demonstrating its significance in a contemporary context The Septuagint South of Alexandria ,2022-08-22 This volume tackles topics relevant to the study of the Septuagint and related fields of research such as the historical context of the Greek translations and texts their anthropology theology language and reception as well as the comparison of the Septuagint with other ancient translations and texts of its intellectual environment The authors make contributions to the study of the texts themselves their themes and theories in modern research on the ancient artefacts **Creation in Paul and Philo** Jonathan D. Worthington,2011 God s creative activity in the beginning is important to many aspects of Paul s theology Jonathan Worthington explores Paul s protology by analyzing his interpretation of scripture concerning creation mainly the beginning of Genesis By examining Paul s exegetical manoeuvres within 1 2 Corinthians and Romans and by comparing these with the contemporary but more detailed treatments of the same texts by Philo of Alexandria in his formal commentary on Genesis 1 2 *De Opificio Mundi* the author uncovers an approach to creation that is fundamental to both ancient interpreters Paul s interpretation of creation like Philo s in his commentary contains three interwoven aspects the beginning of the world the beginning of humanity and God s intentions before the beginning Recognizing this basic hermeneutical interplay between the Beginning and the Before facilitates a more appropriate comparison between Paul and Philo as well as a more adequate treatment of difficult and debated passages in both
