## Passing On:

**The Passing-On Problem in Damages and Restitution under EU Law** Magnus Strand, Ignacio García-Perrote Martínez, 2023-12-11 Passing on occurs when harm or loss incurred by a business is passed on to burden that business's customers or the next level of the supply chain In this thoroughly revised and updated second edition the authors provide the only available comprehensive examination of passing on in damages and restitution under EU law The analysis covers a broad range of contexts including competition damages and the repayment of charges

**The Defence of Passing On** Michael Rush, 2006-07-11 The identity and existence of a loss based defence in the law of unjust enrichment is disputed Widely known as passing on but better identified as disimpoverishment this defence has generated confusion and disagreement across and within England Australia Canada and the United States of America This book seeks to address these problems in three ways First by providing a solution to the defence's terminological problems and presenting a coherent picture of the current state of the law Secondly by examining whether a defendant's unjust enrichment can be said to have come at the expense of a claimant when a third party has borne the cost of that enrichment Put another way whether awards of restitution are or should be restricted by the value of a claimant's loss And finally by analyzing the reasons in favour of accepting or rejecting a loss based defence in the law of unjust enrichment Numerous scholarly textbooks and law journals have devoted space to these issues This work however has tended to focus narrowly on either particular cases or sets of issues This book seeks to address this deficiency by collating and providing total coverage of the controversies and questions pertaining to a loss based defence in the law of unjust enrichment This work will be essential reading for anyone interested in the law of restitution and in its relationship with other areas of private law

**Passing on the Faith** Merton P. Strommen, Dick Hardel, 2008 From the Introduction This book is about passing on the faith from generation to generation throughout the milestones of a person's life Faith is created and nurtured by the Holy Spirit through the Gospels The vision underlying the RADICAL model was developed in light of the theological principle that faith is formed by the Holy Spirit through personal trusted relationships often but not always in our own homes A youth and family ministry for the 21st century connects all the generations in the total ministry of the congregation and through the cross of Christ recognizes the work of the Holy Spirit shaping faith in all the circles of relationships This revised edition expands on the authors original model in an all new chapter on the circle of creation This edition has also been updated throughout in light of new ideas and research that have emerged during the past decade
