Passion Society:

The Passionate Society Lisa Hill, 2006-01-13 Adam Ferguson 1723 1816 was a major figure of the Scottish Enlightenment whose thought was in many respects original and distinctive This book is a study of his ideas and of the intellectual forces that shaped them Though somewhat overlooked in the nineteenth century Ferguson was rescued from obscurity in the first half of the twentieth century by scholars interested in the origins of sociology and early critiques of modernity Ferguson s interest in the mechanics of social life and especially social change led him to many groundbreaking insights In fact he is sometimes identified as the Father of Modern Sociology In addition to exploring whether or not he merits this title this study examines the whole of Ferguson s thought as a system and includes his moral and faculty psychology historiography theology politics and social science Ferguson is distinguished by his deep appreciation of the complexity of the human condition his study of society is based on the belief that it is not only reason but the unseen unplanned sub rational and visceral forces that keep the human universe in motion Ferguson s appreciation of this fact and his ability to make social science of it is his major achievement

The Psychology of Passion Dr Robert J. Vallerand, 2015-05-01 Winner of the 2017 APA William James Book Award The concept of passion is one we regularly use to describe our interests and yet there is no broad theory that can explain the development and consequences of passion for activities across people s lives In *The Psychology of Passion* Robert J Vallerand presents the first such theory providing a complete presentation of the Dualistic Model of Passion and the empirical evidence that supports it Vallerand conceives of two types of passion harmonious passion which remains under the person s control and obsessive passion which controls the person While the first typically leads to adaptive behaviors the obsessive form of passion leads to less adaptive and at times maladaptive behaviors Vallerand highlights the effects of these two types of passion on a number of psychological phenomena such as cognition emotions performance relationships aggression and violence He also discusses the development of passion and reviews a range of literature on passion for activities

Bodies in Society Margaret R. Miles, 2008-08-01 Education is about learning to think Much of what we call thinking however is a hodge podge of repetitious self talk opinion and cutting and pasting of second hand ideas Moreover thinking in the present has often been alien to scholars who were tempted to think abstractly But life and thought belong

together and require each other as Plotinus pointed out many centuries ago The object of contemplation is living and life and the two together are one Ennead 3 8 8 Presently many women and men in the academic world are thinking concretely within the context of their own lives and with acknowledged accountability to broader communities with whom they think and to whom they are answerable The essays in this volume consider Christianity as an aspect of North American culture bringing the critical tools of the academy to thinking about some of the perplexing and pressing problems of contemporary public life Three interactive and interdependent themes traverse these essays gender the effects of media culture and institutions Each of these themes has been central to Margaret Miles's work for thirty years Each understands corporeality as fundamental both to subjectivity and society Miles finds that Christianity critically appropriated provides ideas and methods for thinking concretely about life in North American society

Louis Schneider, 2023-03-31 The writings of Bernard Mandeville mark an important transition between enlightenment social philosophy and modern science Born in Holland in 1670 and educated as a physician Mandeville spent the greater part of his working life in England where he died in 1733 In some respects Mandeville can be compared to Voltaire Mandeville's junior by twenty four years Mandeville had the knack of making controversies volcanic and of arousing heated debate about any topic on which he chose to comment and he chose to comment on virtually everything He was especially¹ interested in social evolution morality and society prostitution and romantic love crime and its deterrence and in social aspects of religion His views on these and countless other topics cohere in his continual fascination with the consequences of social and economic actions that run counter to anticipations and intentions and in the paradoxical or ironic cast that such outcomes often have In *Paradox and Society* Louis Schneider is the first to offer a full consideration of Mandeville as a sociologist Schneider offers an intellectual and characterological portrait of Mandeville examining his writings and reactions to him over time Schneider goes on to review Mandeville's theory of human nature and explores his hotly contested notion of the paradox of private vices and public benefits that the arousal of desires is a necessary precondition for the stimulation of social and economic development Social action outside the marketplace and Mandeville's problematic theory of social evolution are next considered The volume ends with an examination of paradox irony and satire in society In this detailed analysis of one of the world's most controversial social critics Schneider shows us that Mandeville offers a vision of human society that is of enduring significance He challenges the reader to consider how that vision might operate in today's world *Handbook of Eudaimonic Well-Being* Joar Vittersø, 2016-10-18 This handbook presents the most comprehensive account of eudaimonic well being to date It brings together theoretical insights and empirical updates presented by leading scholars and young researchers The handbook examines philosophical and historical approaches to the study of happy lives and good societies and it critically looks at conceptual controversies related to eudaimonia and well being It identifies the elements of happiness in a variety of areas such as emotions health wisdom self determination internal motivation personal growth genetics work leisure heroism and many more It then places eudaimonic well being in the larger context of society addressing social elements The most remarkable outcome of the book is arguably its large scale relevance reminding us that the more we know about the good way of living the more we are in a position to build a society that can be supportive and offer opportunities for such a way of living for all of its citizens *Networks, Poetics and Multilingual Society in the Early Modern Baltic Sea Region*, 2024-09-23 The literarisation of the early modern Baltic Sea region was a long and complex process with varying trajectories for different vernacular languages This volume highlights the interaction of local social and cultural settings with wider political and confessional contexts Using rarely examined materials such as prints court protocols letters and

manuscripts in Latin and a range of vernacular languages including Estonian Finnish German Ingrian Karelian Latvian Lenape Sami languages and Swedish the thirteen authors chart the social and literary developments of the area Wide networks of learned men and officials but also the number of native speakers in the clergy defined the ways the poetic resources of transnational and local literary and oral cultures benefited the nascent literatures Contributors include Eeva Liisa Bastman Kati Kallio Suvi Pivi Koski Ulla Koskinen Miia Kuha Anu Lahtinen Tuija Laine Tuomas M S Lehtonen Ilkka Leskel Aivar P Idvee Sanna Raninen Kristiina Ross Taarna Valtonen and Kristi Viiding

Selected Letters on Politics and Society Alexis

de Tocqueville, 1985 Correspondence by the eminent nineteenth century French historian documents his political views his careers as a writer and politician and his complex personality Amazon com **Alexis de Tocqueville: Selected Letters on Politics and Society** Alexis de Tocqueville, 2023-11-10 This title opens a new window into the life and thought of Alexis de Tocqueville presenting him as not only a political thinker but also a person deeply shaped by the tensions and ideals of his time Known for Democracy in America Tocqueville's insights into American democracy have often overshadowed his reflections on French society friendship and personal struggles This compilation of letters many unpublished in English before spans his political career his friendships and his inner conflicts revealing his ongoing battle between intellectual ideals and the harsh realities of the political landscape His letters bring to light a Tocqueville who was both drawn to political action and increasingly disillusioned by the self-serving nature of his era's middle class Tocqueville's correspondence reveals a figure influenced by both Enlightenment rationalism and Romanticism's emphasis on feeling and individuality While often critical of Romantic melancholy he was himself plagued by existential doubt and frustration over the limited impact of his political actions He viewed society's growing emphasis on materialism and self-interest as symptoms of a broader decline leaving him torn between admiration for civic virtues and disappointment in the era's lack of ambition Religion and friendship emerge as stabilizing forces in his life with his close bond with Gustave de Beaumont standing out as a source of both comfort and challenge The letters show how Tocqueville's personal relationships and ethical convictions shaped his intellectual pursuits and his concerns for France's future The editors Roger Boesche and James Toupin present these letters with careful translation and thorough contextual notes giving readers both the historical background and access to Tocqueville's unique literary style The work provides readers with a portrait of a man wrestling with the challenges of his age caught between democratic ideals and the evolving reality of French society For modern readers these letters illuminate how Tocqueville's personal struggles informed his enduring political insights highlighting his belief in community and civic duty as essential defenses against tyranny This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer-reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985 **Global Civil Society 2012** Hertie School of, 2012-04-18 Activists and academics look back over ten years of politics from below and ask whether it is merely the critical gaze upon the concept that has changed or whether there is something genuinely new about the way in which civil society is now operating **The European Magazine and London Review, by the Philological Society of London**, 1822 *The Trouble With Passion* Cheryl Hall, 2013-01-22 Political theorists have long argued that passion has no place in the political realm where reason reigns supreme But is this dichotomy between reason and passion sustainable Does it underestimate the indispensable role of passion in a fully democratic society Drawing upon Plato Rousseau and contemporary feminist theorists

Cheryl Hall argues that passion is an essential component of a just political community and that the need to educate passion together with reason is paramount. *Trouble with Passion* provides a compelling defense of the crucial place of passion in politics. "Agency, Visuality and Society at the Chartreuse de Champmol" Sherry C.M. Lindquist, 2017-07-05. Grounded in archival sources, this interdisciplinary study explores the profound historical significance of the mausoleum of the Valois Dukes of Burgundy at the Chartreuse de Champmol. Although the monument is well known as the site of pivotal works of art by Claus Sluter, Melchior Broederlam, Jean de Beaumetz, and others, until now art historians have not considered how these works functioned at the center of a complex social matrix. Sherry Lindquist here considers the sacred subjects of the various sculptures and paintings not merely as devotional tools or theological statements but as profoundly influential social instruments that negotiated complex interactions of power. Lindquist's sophisticated discussion coordinates analysis of primary sources with the most up-to-date scholarship in the field of art history, not only with respect to late medieval Burgundian art but also to more theoretical questions pertaining to reception. Marriage and Family in a Changing Society James M. Henslin, 1992. Baroque Piety: Religion, Society, and Music in Leipzig, 1650-1750 Tanya Kevorkian, 2017-07-05. Drawing upon a rich array of sources from archives in Leipzig, Dresden, and Halle, Tanya Kevorkian illuminates culture in Leipzig before and during J.S. Bach's time in the city. Working with these sources, she has been able to reconstruct the contexts of Baroque and Pietist cultures at key periods in their development much more specifically than has been done previously. Kevorkian shows that high Baroque culture emerged through a combination of traditional frameworks and practices and an infusion of change that set in after 1680. Among other forms of change, new secular arenas appeared, influencing church music and provoking reactions from Pietists who developed alternative meeting, networking, and liturgical styles. The book focuses on the everyday practices and active roles of audiences in public religious life. It examines music performance and reception from the perspectives of both ordinary people and elites. Church services are studied in detail, providing a broad sense of how people behaved and listened to the music. Kevorkian also reconstructs the world of patronage and power of city councillors and clerics as they interacted with other Leipzig inhabitants, thereby illuminating the working environment of J.S. Bach, Telemann, and other musicians. In addition, Kevorkian reconstructs the social history of Pietists in Leipzig from 1688 to the 1730s.
