Rempson, 2016-03-12 The African American Male School Adaptability Crisis AMSAC cannot be solved by the school alone It is a race problem which can only be solved if we black males provide the leadership in tackling our three major demons which now mainly account for the problem IQ lag fatherless families crime AMSAC had its origin about 100 years ago when after the death of Washington DuBois gained ascendancy in our African American Garden of Eden and replaced Washington's brains property and character gospel with a civil rights agenda That agenda has led to a civil rights fixation and our second bondage Victimology wherein being the victim has become part of our core identity and made us psychological slaves Rather than being proud and self-reliant disproportionately we have come to see ourselves as victims who are entitled to system help and special treatment This bondage and it is a bondage vitiates our manhood and the energy and drive required to pursue the adaptation pathway paved by Washington but demonized by DuBois Return to that pathway and we can confront and conquer AMSAC and our three major demons Guided by history and the research evidence this book details how Its 20 chapters make for long reading but just by reading the first and last chapters you can get the message The motto of the proposed evidence-based experimental program the African American Male Career Pathway Program AMCAP A special appeal is made to black athletes and entertainers to help propagate this motto and support the proposed high school student clubs Student AMCAPs in its implementation

The Power of Love and Democracy in the Philosophies of Martin Luther King, Jr. and Cornel West Timothy L. Lake,2025-09-18 This book locates an ethic of love as central to the democratic philosophies of Martin Luther King Jr and Cornel West While much has been written about King s moral vision social activism and theology there has been no book length treatment of the implications of his thinking to democratic theory

Additionally Cornel West is the leading African American public intellectual of our time but the range of his cultural criticism and academic scholarship obscures his intellectual and social projects This project synthesizes West's vast corpus and places him within the modern African American intellectual tradition he shares with Du Bois King Maulana Karenga the creator of Kwanza and others Deeply grounded in the African American intellectual and philosophical traditions in which King and West are rooted as well as the Western mainstream political philosophical traditions in which they were educated this book offers a penetrating interpretation and comparative analysis of their thought on the ideals of democracy and of their critiques of American democracy It also reflects on the nature and values of democracy exploring how love is inseparable from justice in a democratic society
