Solomon,2003-01-30 The idea that we are in some significant sense responsible for our emotions is an idea that Robert Solomon has developed for almost three decades Here in a single volume he traces the development of this theory of emotions and elaborate it in detail Two themes run through his work the first presents a cognitive theory of emotions in which emotions are construed primarily as evaluative judgments The

second proposes an existentialist perspective in which he defends the idea that as we are responsible for our emotions. Indeed sometimes it even makes sense to say that we choose them. While the first claim has gained increasing currency in the literature, his claim about responsibility for emotions has continued to meet with considerable resistance and misinterpretation. The new emphasis on evolutionary biology and neurology has mistakenly reinforced the popular prejudice that emotions happen to us and are entirely beyond our control. This volume is also a kind of intellectual memoir of Solomon's own development as a thinker. The essays written in the 1980s elaborate the themes of the intentionality of emotion and the claim that emotions are judgments. In this period he is also increasingly preoccupied with how emotions vary and are identified in a variety of cultures. In the 1990s his interests evolve to consider the social and political role of emotions and theories about emotion. The final section presents his current philosophical position on the seeming passivity of the passions. Despite his own critical assessment of his earlier work, he continues to argue that in the final analysis we are responsible for our emotions and existential quality of our lives.

#### **The Passion for Happiness** Adam Potkay, 2000

Although widely perceived as inhabiting different, even opposed literary worlds, Samuel Johnson (1709-1784) and David Hume (1711-1776) shared common ground as moralists. Adam Potkay traces their central concerns to Hellenistic philosophy as conveyed by Cicero and to earlier moderns such as Addison and Mandeville. Johnson's and Hume's large and diverse bodies of writings, Potkay says, are unified by several key questions: What is happiness? What is the role of virtue in the happy life? What is the proper relationship between passion and reflection in the happy or flourishing individual? In their writings, Johnson and Hume largely agree upon what flourishing means for both human beings and the communities they inhabit. They also tell a common story about the history that led up to the enlightened age of eighteenth-century Europe. On the divisive topic of religion, these two great men of letters wrote with a decorum that characterizes the Enlightenment in Britain as compared to its French counterpart. In *The Passion for Happiness*, Adam Potkay illuminates much that philosophers and

historians do not ordinarily appreciate about Hume and that literary scholars might not recognize about Johnson **Mel Gibson's Passion and Philosophy** Jorge J. E. Gracia, 2013-11-14 Mel Gibson's *The Passion of the Christ* has become one of the most controversial films ever made and it is already a blockbuster of cinematography. Its defenders passionately regard it as one of the most moving and influential pieces of religious art ever created. But its detractors argue with comparable vehemence that the violence and gore it contains, its alleged anti-Semitism, a particular take on the Christian message and the lack of historical and Biblical accuracy make it nothing more than a kind of political propaganda. Father Thomas Rosica hailed it as one of the great masterpieces of religious art but the secular humanist Paul Kurtz thinks of it as a political weapon in the hands of the religious right. Film critics are divided in their judgment, giving the film anywhere from no stars to five stars. Regardless of what one thinks of the film, however, its impact both personal and social is beyond question. **Turn Your**
