**Kant's Deontological Eudaemonism** Jeanine M. Grenberg,2022-07-28 In this book Professor Jeanine Grenberg defends the idea that Kant s virtue theory is best understood as a system of eudaemonism indeed as a distinctive form of eudaemonism that makes it preferable to other forms of it a system of what she calls Deontological Eudaemonism In Deontological Eudaemonism one achieves happiness both rationally conceived as non felt pleasure in the virtually unimpeded harmonious activity of one s will and choice and empirically conceived as pleasurable fulfilment of one s desires only via authentic commitment to and fulfilment of what is demanded of all rational beings making persons as such one s end in all things To tell this story of Deontological Eudaemonism Grenberg first defends the notion that Kant s deontological approach to ethics is simultaneously and indeed foundationally and most basically teleological She then shows that the realization of an aptitude for the virtuous fulfilment of one s obligatory ends provides the solid basis for simultaneous realization of happiness both rationally and empirically conceived Along the way she argues both that Kant s notion of happiness rationally conceived is essentially identical to Aristotle s conception of happiness as unimpeded activity and that his notion of happiness empirically conceived is best realized via an unwavering commitment to the fulfilment of one s obligatory ends

**The Belief in Intuition** Adriana Alfaro Altamirano,2021-04-23 Within the Western tradition it was the philosophers Henri Bergson and Max Scheler who laid out and explored the nonrational power of intuition at work in human beings that plays a key role in orienting their thinking and action within the world As author Adriana Alfaro Altamirano notes Bergon s and Scheler s philosophical explorations which paralleled similar developments by other modernist writers artists and political actors of the early

twentieth century can yield fruitful insights into the ideas and passions that animate politics in our own time The Belief in Intuition shows that intuition as Bergson and Scheler understood it leads first and foremost to a conception of freedom that is especially suited for dealing with hierarchy uncertainty and alterity Such a conception of freedom is grounded in a sense of individuality that remains true to its inner multiplicity thus providing a distinct contrast to and critique of the liberal notion of the self Focusing on the complex inner lives that drive human action as Bergson and Scheler did leads us to appreciate the moral and empirical limits of liberal devices that mean to regulate our actions from the outside Such devices like the law may not only carry pernicious effects for freedom but more troublingly oftentimes erase their traces concealing the very ways in which they are detrimental to a richer experience of subjectivity According to Alfaro Altamirano Bergson s and Scheler s conception of intuition and personal authority puts contemporary discussions about populism in a different light It shows that liberalism would only at its own peril deny the anthropological moral and political importance of the bearers of charismatic authority Personal authority thus understood relies on a dense but elusive notion of personality for which personal authority is not only consistent with freedom but even contributes to it in decisive ways     *The Trouble With Passion* Cheryl Hall, 2013-01-22 Political theorists have long argued that passion has no place in the political realm where reason reigns supreme But is this dichotomy between reason and passion sustainable Does it underestimate the indispensable role of passion in a fully democratic society Drawing upon Plato Rousseau and contemporary feminist theorists Cheryl Hall argues that passion is an essential component of a just political community and that the need to educate passion together with reason is paramount *Trouble with Passion* provides a compelling defense of the crucial place of passion in politics
