**Selling the Korean War** Steven Casey, 2008-03-21 The Korean War occupies a unique place in American history and foreign policy Because it followed closely after World War II and ushered in a new era of military action as the first hot conflict of the cold war the Korean War was marketed as an entirely new kind of military campaign But how were the war weary American people convinced that the limited objectives of the Korean War were of paramount importance to

the nation In this ground breaking book Steven Casey deftly analyzes the Truman and Eisenhower administrations determined efforts to shape public discourse about the war influence media coverage of the conflict and gain political support for their overall approach to waging the Cold War while also trying to avoid inciting a hysteria that would make it difficult to localize the conflict The first in depth study of Truman s and Eisenhower s efforts to garner and sustain support for the war *Selling the Korean War* weaves a lucid tale of the interactions between the president and government officials journalists and public opinion that ultimately produced the twentieth century concept of limited war It has been popularly thought that the public is instinctively hostile towards any war fought for less than total victory but Casey shows that limited wars place major constraints on what the government can say and do He also demonstrates how the Truman administration skillfully rededicated and redefined the war as it dragged on with mounting casualties Using a rich array of previously untapped archival resources including official government documents and the papers of leading congressmen newspaper editors and war correspondents Casey s work promises to be the definitive word on the relationship between presidents and public opinion during America s forgotten war     Faith and Slavery in the Presbyterian Diaspora William Harrison

Taylor,Peter C. Messer,2016-01-28 *Faith and Slavery in the Presbyterian Diaspora* considers how in areas as diverse as the New Hebrides Scotland the United States and East Central Africa men s and women s shared Presbyterian faith conditioned their interpretations of and interactions with the institution of chattel slavery The chapters highlight how Presbyterians reactions to slavery which ranged from abolitionism to indifference to support reflected their considered application of the principles of the Reformed Tradition to the institution Consequently this collection reveals how the particular ways in which Presbyterians framed the Reformed Tradition made slavery an especially problematic and fraught issue for adherents to the faith *Faith and Slavery* by situating slavery at the nexus of Presbyterian theology and practice offers a fresh perspective on the relationship between religion and slavery It reverses the all too common assumption that religion primarily served to buttress existing views on slavery by illustrating how groups and individuals reactions to slavery emerged from their understanding of the Presbyterian faith The collection s geographic reach encompassing the experiences of people from Europe Africa America and the Pacific filtered through the lens of Presbyterianism also highlights the global dimensions of slavery and the debates surrounding it The institution and the challenges it presented *Faith and Slavery* stresses reflected less the peculiar conditions of a particular place and time than the broader human condition as people attempt to understand and shape their world     State of Paralysis John Elsom,2019-04-25

We have not been driven into Brexit at the point of a gun or out of economic necessity but purely for cultural reasons *State of Paralysis* explores the climate of opinion in Britain that has led to more than seventy years of indecision about our relationship with our continental neighbours and our role on the world s stage The post war years saw many dramatic changes the arrival of weapons of mass destruction the nuclear industries space travel civil rights global warming the Internet the digitalisation of behaviour and the loss of Empire The aim

of the European Union was to keep the peace on the continent and to face these global problems But has it done so Have we in Britain been able to adjust to the demands of the new world or are we clinging on to a past that can never be recovered John Elsom describes the political impasse in parliament and the country over the terms of Brexit to analyse what these motives were how they were obtained and where their consequences may lead He approaches these issues from the view of a political and cultural commentator who has seen at first hand many of the changes that have affected all our lives **Free Soil** Joseph G. Rayback, 2021-10-21 The presidential election of 1848 known as the Free Soil election marked the emergence of antislavery sentiment as a determining political force on a national scale In this book Joseph G Rayback provides the first comprehensive history of the campaign and the election documenting his analysis with contemporary letters and newspaper accounts The progress of the campaign is examined in light of the Free Soil movement agitation for Free Soil candidates and platforms at the national conventions proved ineffective and the nominations of Zachary Taylor and Lewis Cass completed the major parties alienation of the various antislavery groups Thwarted in their attempts to capture the national parties the Free Soilers formed a massive coalition which met in Buffalo and formally created the Free Soil party nominating their own candidate ex President Martin Van Buren The Whigs and the Democrats forced by the new party to take a position on the touchy slavery question attempted to use Free Soil to elect their candidates in the North by claiming it in the South by disclaiming it Rayback concludes that the Free Soil election was one of the most significant in American history a turning point in national politics that marked the end of the Jacksonian Era Although Taylor was elected president Van Buren took about ten percent of the popular vote away from the Whigs and the Democrats It was the first presidential election in which a third party made substantial inroads on major party loyalties one in which the electorate indicated a desire for a moderate solution to the problem of slavery extension a solution that was attempted by the Thirty first Congress with its Compromise of 1850 **John Lothrop Motley** Oliver Wendell Holmes, 1878 **Masters of Achievement** Henry Woldmar Ruoff, 1910
