Hoover, 1992-07-01 Written by veterans of the Vietnam War and participants in the organized opposition to it this book examines how the activities of America s most important a mi war movement affected the lives of its citizens and its government Relying on oral histories and recently available archival material the authors consider the movement s strategies and tactics its leaders and its rank and file and describe the difficulties encountered by peace activists in their efforts to build politically effective organizations What emerges from this collection is that the millions of Americans who fought against the government s policies in Southeast Asia participated in one of the most potent and complex oppositional movements in modern history *Passionate Politics* Charlotte Bunch, 1987-06-15 Essays discuss feminism reform lesbianism education the media and the status of women around

the world      **Theorizing Black Feminisms** Abena P. A. Busia, Stanlie M. James, 2005-06-28 A strong collection of essays in a field hungry for texts Provides theoretical basis for a developing subject International authors from US Ghana Uganda Sierra Leone and Nigeria Deals with important current issues AIDS in Africa and the US reproductive rights the Anita Hill Clarence Thomas controversy Four colour cover      **Modernising Sexualities** Natalia Gerodetti, 2005 Using the unification of the Swiss Criminal Code as an investigative framework this book argues that sexualities and nation are intertwined through ideas and discourses about boundaries their maintenance and their reproduction which impact on practices of inclusion and exclusion      **The Cambridge Companion to Women Composers** Matthew Head, Susan Wollenberg, 2024-05-30 Moving beyond narratives of female suppression and exploring the critical potential of a diverse distinguished repertoire this Companion transforms received understanding of women composers Organised thematically and ranging beyond elite Western genres it explores the work of diverse female composers from medieval to modern times besides the familiar headline names The book's prologue traces the development of scholarship on women composers over the past five decades and the category of woman composer itself The chapters that follow reveal scenes of flourishing creativity technical innovation and often fleeting recognition challenging long held notions around invisibility and neglect and dismissing clichés about women composers and their work Leading scholars trace shifting ideas about composers and compositional processes contributing to a wider understanding of how composers have functioned in history and making this volume essential reading for all students of musical history In an epilogue three contemporary composers reflect on their careers and identities      **The boundaries of international law** Hilary Charlesworth, Christine Chinkin, 2022-04-19 In the first book length treatment of the application of feminist theories of international law Charlesworth and Chinkin argue that the absence of women in the development of international law has produced a narrow and inadequate jurisprudence that has legitimated the unequal position of women worldwide rather than confronting it The boundaries of international law provides a feminist perspective on the structure processes and substance of international law shedding new light on treaty law the concept of statehood and the right of self determination the role of international institutions and the law of human rights Concluding with a consideration of whether the inclusion of women in the jurisdiction of international war crimes tribunals represents a significant shift in the boundaries of international law the book encourages a dramatic rethinking of the discipline of international law With a new introduction that reflects on the profound changes in international law since the book's first publication in 2000 this provocative volume is essential reading for scholars practitioners and students alike

**Women's Studies Index** , 1989      **New Directions in Print Culture Studies** Jesse W. Schwartz, Daniel Worden, 2022-06-16 New Directions in Print Culture Studies features new methods and approaches to cultural and literary history that draw on periodicals print culture and material culture thus revising and rewriting what we think we know about the aesthetic cultural and social history of transnational America The unifying questions posed and answered in this book are

methodological How can we make material archival objects meaningful How can we engage and contest dominant conceptions of aesthetic historical and literary periods How can we present archival material in ways that make it accessible to other scholars and students What theoretical commitments does a focus on material objects entail New Directions in Print Culture Studies brings together leading scholars to address the methodological historical and theoretical commitments that emerge from studying how periodicals books images and ideas circulated from the 19th century to the present Reaching beyond national boundaries the essays in this book focus on the different materials and archives we can use to rewrite literary history in ways that highlight not a canon of major literary works but instead the networks dialogues and tensions that define print cultures in various moments and movements *Women in Antiquity* Sarah Milledge Nelson,2007-03-01

Archaeology is one of our most powerful sources of new information about the past about the lives of our ancient and not so ancient ancestors The contributors to *Women in Antiquity* consider the theoretical problems involved in discerning what the archaeological evidence tells us about gender roles in antiquity The book includes chapters on the history of gender research historical texts mortuary analysis household remains hierarchy and ethnoarchaeology with each chapter teasing out the inherent difficulty in interpreting ancient evidence as well as the promise of new understanding *Women in Antiquity* offers a fresh accessible account of how we might grasp the ways in which sexual roles and identities shaped the past **Carryin' On in the Lesbian and Gay South** John Howard,1997 To date lesbian and gay history has focused largely on the East and West coasts and on urban settings such as New York and San Francisco The American South on the other hand identified with religion traditional gender roles and cultural conservatism has escaped attention Southerners celebrate their past lesbians and gays celebrate their new found visibility historians celebrate the South yet rarely have the three crossed paths John Howard s groundbreaking anthology casts its net widely examining lesbian and gay experiences in Mississippi South Carolina Georgia Florida Louisiana and Tennessee James Schnur by virtue of a Freedom of Information Act query sheds light on the sinister machinations of the Johns Committee whose clandestine duty it was to ferret out suspected homosexuals during the McCarthy years In his essay on the great Southern writer William Alexander Percy William Armstrong Percy provides tangible evidence that Southern citizens historians and archivists have long sought to repress or obscure certain individuals within what C Vann Woodward described as the perverse section Moving chronologically through America s past from the antebellum and postbellum periods through the Jim Crow era and the Cold War to the present this volume introduces an important new framework to the field of lesbian and gay history that of regional history **1968 and Global Cinema** Christina Gerhardt,Sara Saljoughi,2018-10-17 The volume is ideal for graduate and undergraduate courses on the long sixties political cinema 1968 and new waves in art history cultural studies and film and media studies Not in This Family Heather Murray,2012-02-10 Many Americans hold fast to the notion that gay men and women more often than not have been ostracized from disapproving families *Not in This Family* challenges this myth and shows how kinship ties were an

animating force in gay culture politics and consciousness throughout the latter half of the twentieth century Historian Heather Murray gives voice to gays and their parents through an extensive use of introspective writings particularly personal correspondence and diaries as well as through published memoirs fiction poetry song lyrics movies and visual and print media Starting in the late 1940s and 1950s *Not in This Family* covers the entire postwar period including the gay liberation and lesbian feminist movements of the 1960s and 1970s the establishment of PFLAG Parents Families and Friends of Lesbians and Gays and the AIDS crisis of the 1980s and 1990s Ending her story with an examination of contemporary coming out rituals Murray shows how the personal that was once private became political and finally public In exploring the intimate reciprocal relationship of gay children and their parents *Not in This Family* also chronicles larger cultural shifts in privacy discretion and public revelation and the very purpose of family relations Murray shows that private bedrooms and consumer culture social movements and psychological fashions all had a part to play in transforming the modern family *Handbook of Gender in Archaeology* Sarah M. Nelson, 2006 First reference work to explore the research on gender in archaeology

*Feminist Theory* Wendy K. Kolmar, Frances Bartkowski, 2005 This comprehensive reader represents the history intellectual breadth and diversity of feminist theory An historical framework organizes a great wealth of selections 103 in all with an entirely new concluding Part VII that covers 1995-2002 ***The Archaeology of Household Activities*** Penelope Allison, 2013-05-13 This pioneering collection engages with recent research in different areas of the archaeological discipline to bring together case studies of the household material culture from later prehistoric and classical periods The book provides a comprehensive and accessible study for students into the material records of past households aiding wider understanding of our own domestic development *Sisters in the Mirror* Elora Shehabuddin, 2021-08-24 A must read CHOICE Outstanding Academic Title 2022 Holds up a mirror to the unifying braided futures underlying so called Western and Muslim feminism that are both undermined by the power of capital the world trade order and cynical geopolitics 2023 Association for Asian Studies Coomaraswamy Book Prize A crystal clear account of the entangled history of Western and Muslim feminisms Western feminists pundits and policymakers tend to portray the Muslim world as the last and most difficult frontier of global feminism Challenging this view Elora Shehabuddin presents a unique and engaging history of feminism as a story of colonial and postcolonial interactions between Western and Muslim societies Muslim women like other women around the world have been engaged in their own struggles for generations as individuals and in groups that include but also extend beyond their religious identity and religious practices The modern and globally enmeshed Muslim world they navigate has often been at the weaker end of disparities of wealth and power of processes of colonization and policies of war economic sanctions and Western feminist outreach Importantly Muslims have long constructed their own ideas about women's and men's lives in the West with implications for how they articulate their feminist dreams for their own societies Stretching from the eighteenth century Enlightenment era to the War on Terror present *Sisters in the Mirror* shows how

changes in women's lives and feminist strategies have consistently reflected wider changes in national and global politics and economics Muslim women like non Muslim women in various colonized societies and non white and poor women in the West have found themselves having to negotiate their demands for rights within other forms of struggle for national independence or against occupation racism and economic inequality Through stories of both well known and relatively unknown figures Shehabuddin recounts instances of conflict alongside those of empathy collaboration and solidarity across this extended period *Sisters in the Mirror* is organized around stories of encounters between women and men from South Asia Britain and the United States that led them as if they were looking in a mirror to pause and reconsider norms in their own society including cherished ideas about women's roles and rights These intertwined stories confirm that nowhere in either Western or Muslim societies has material change in girls and women's lives come easily or without protracted struggle

*The Religious Left in Modern America* Leilah Danielson, Marian Mollin, Doug Rossinow, 2018-05-15 This edited collection of exciting new scholarship provides comprehensive coverage of the broad sweep of twentieth century religious activism on the American left The volume covers a diversity of perspectives including Protestant Catholic and Jewish history and important essays on African American Latino and women's spirituality Taken together these essays offer a comparative and long term perspective on religious groups and social movements often studied in isolation and fully integrate faith based action into the history of progressive social movements and politics in the modern United States It becomes clear that throughout the twentieth century religious faith has served as a powerful motivator and generator for activism not just as on the right where observers regularly link religion and politics but on the left This volume will appeal to historians of modern American politics religion and social movements religious studies scholars and contemporary activists

*Feminist Writers*, 1996 Concise discussions of the lives and principal works of feminist writers from all time periods written by subject experts
