Teresa Godwin Phelps, 2010-11-24 Following periods of mass atrocity and oppression states are faced with a question of critical importance in the transition to democracy how to offer redress to victims of the old regime without perpetuating cycles of revenge Traditionally balance has been restored through arrests trials and punishment but in the last three decades more than twenty countries have opted to have a truth commission investigate the crimes of the prior regime and publish a report about the investigation often incorporating accounts from victims Although many praise the work of truth commissions for empowering and healing through words rather than violence some condemn the practice as a poor substitute for traditional justice achieved through trials and punishment There has been until now little analysis of the unarticulated claim that underlies the truth commissions very existence that language in this case narrative stories can substitute for violence Acknowledging revenge as a real and deep human need Shattered Voices explores the benefits and problems inherent when a fragile country seeks to heal its victims without risking its own future In developing a theory about the role of language in retribution Teresa Godwin Phelps takes an interdisciplinary approach delving into sources from Greek tragedy to Hamlet from Kant to contemporary theories about retribution from the Babylonian law codes to the South African Truth and Reconciliation Report She argues that given the historical and psychological evidence about revenge starting afresh by drawing a bright line between past crimes and a new government is both unrealistic and unwise When grievous harm happens a rebalancing is bound to occur whether it is orderly and lawful or disorderly and unlawful Shattered Voices contends that language is requisite to any adequate balancing and that a solution is viable only if it provides an atmosphere in which storytelling and subsequent dialogue can flourish In the developing culture of ubiquitous truth reports Phelps argues that we must become attentive to the form these reports take the narrative structure the use of victims stories and the way a political message is conveyed to the citizens of the emerging democracy By looking concretely at the work and responsibilities of truth commissions Shattered Voices offers an important and thoughtful analysis of the efficacy of the ways human rights abuses are addressed

Prize Fight Morton Meyers, M.D., 2012-06-05 We often think of scientists as dispassionate and detached nobly laboring without any expectation of reward But scientific research is much more complicated and messy than this ideal and scientists can be torn by jealousy impelled by a need for recognition and subject to human vulnerability and fallibility In Prize Fight Emeritus Chair at SUNY School of Medicine Morton Meyers pulls back the

curtain to reveal the dark side of scientific discovery From allegations of stolen authorship to fabricated results and elaborate hoaxes he shows us how too often brilliant minds are reduced to petty jealousies and promising careers cut short by disputes over authorship or fudged data Prize Fight is a dramatic look at some of the most notable discoveries in science in recent years from the discovery of insulin which led to decades of infighting and even violence to why the 2003 Nobel Prize in Medicine exposed how often scientific objectivity is imperiled

The Passionate Muse Keith Oatley,2012-03-01 The emotions a character feels Hamlet's vengefulness when he realizes his uncle has killed his father Anna Karenina's despair when she feels she can no longer sustain her life Marcel's joy when he tastes a piece of madeleine cake are vital aspects of the experience of fiction As Keith Oatley points out it's not just the emotions of literary characters such as these in which we are interested If we didn't ourselves experience emotions we wouldn't go to the play or watch the film or read the book In *The Passionate Muse* Oatley who is both a prize winning novelist and a distinguished research psychologist offers a hybrid book that alternates sections of an original short story *One Another* with chapters that illuminate the psychology of emotion and fiction Oatley not only provides insight into how people engage in stories he also illuminates the value of emotion and the importance of stories for our psychological well being Indeed he offers evidence that the more fiction we read the better is our understandings of others Through fiction we come to know more about the emotions of others and ourselves
