Passionate Sociology:

Passionate Sociology Ann Game, Andrew Metcalfe, 1996-06-20 Offering a major challenge to established textbooks and pointing to inspiring new ways of approaching sociology this book presents a notable shift in introductory sociology Too often the subject is taught as a dry and detached system of thought and practice Passion is regarded as something to avoid or to treat with inherent suspicion By asking questions about sociology and its relation to passion the authors seek to revitalize the subject The book introduces and develops a number of themes such as identity knowledge magic desire power and everyday life It argues that students should analyze these themes through practices including reading writing speaking storytelling and organizing The authors aim to introduce students to sociology by a controlled engagement with practical sociological ideas and ways of seeing In this way they hope that readers will participate in the creative possibilities of sociology

Passionate Sociology Ann Game, 1996 What is passionate sociology Does sociology merit passion Too often sociology is taught as a detached system of thought and practice Passion is regarded as something to be avoided or treated with suspicion Now at last we have a book that frankly argues for passion as being necessary for sociology The text is not simply about passionate sociology it demonstrates passionate sociology

Passionate Politics Jeff

Goodwin, James M. Jasper, Francesca Polletta, 2009-03-09 Emotions are back Once at the center of the study of politics emotions have receded into the shadows during the past three decades with no place in the rationalistic structural and organizational models that dominate academic political analysis With this new collection of essays Jeff Goodwin James M Jasper and Francesca Polletta reverse this trend reincorporating emotions such as anger indignation fear disgust joy and love into research on politics and social protest The tools of cultural analysis are especially useful for probing the role of emotions in politics the editors and contributors to Passionate Politics argue Moral outrage the shame of spoiled collective identities or

the joy of imagining a new and better society are not automatic responses to events Rather they are related to moral institutions felt obligations and rights and information about expected effects all of which are culturally and historically variable With its look at the history of emotions in social thought examination of the internal dynamics of protest groups and exploration of the emotional dynamics that arise from interactions and conflicts among political factions and individuals *Passionate Politics* will lead the way toward an overdue reconsideration of the role of emotions in social movements and politics generally Contributors Rebecca Anne Allahyari Edwin Amenta Collin Barker Mabel Berezin Craig Calhoun Randall Collins Frank Dobbin Jeff Goodwin Deborah B Gould Julian McAllister Groves James M Jasper Anne Kane Theodore D Kemper Sharon Erickson Nepstad Steven Pfaff Francesca Polletta Christian Smith Arlene Stein Nancy Whittier Elisabeth Jean Wood Michael P Young

The Passionate Society Lisa Hill, 2006-01-13 Adam Ferguson 1723 1816 was a major figure of the Scottish Enlightenment whose thought was in many respects original and distinctive This book is a study of his ideas and of the intellectual forces that shaped them Though somewhat overlooked in the nineteenth century Ferguson was rescued from obscurity in the first half of the twentieth century by scholars interested in the origins of sociology and early critiques of modernity Ferguson s interest in the mechanics of social life and especially social change led him to many groundbreaking insights In fact he is sometimes identified as the Father of Modern Sociology In addition to exploring whether or not he merits this title this study examines the whole of Ferguson s thought as a system and includes his moral and faculty psychology historiography theology politics and social science Ferguson is distinguished by his deep appreciation of the complexity of the human condition his study of society is based on the belief that it is not only reason but the unseen unplanned sub rational and visceral forces that keep the human universe in motion Ferguson s appreciation of this fact and his ability to make social science of it is his major achievement

The Ethnological Imagination Fuyuki Kurasawa, 2004 Fuyuki Kurasawa unearths what he terms the ethnological imagination a substantial countercurrent of thought that interprets and contests Western modernity s existing social order through comparison and contrast to a non Western other Kurasawa traces and critiques the writings of some of the key architects of this way of thinking Jean Jacques Rousseau Karl Marx Max Weber Emile Durkheim Claude Levi Strauss and Michel Foucault In the work of these thinkers Kurasawa finds little justification for two of the most prevalent claims about social theory the wholesale postmodern dismissal of the social theoretical enterprise

because of its supposedly intractable ethnocentrism and imperialism or on the other hand the traditionalist and historicist revival of a canon stripped of its intercultural foundations Kurasawa's book defends a cultural perspective that eschews both the false universalism of end of history scenarios and the radical particularism embodied in the vision of the clash of civilizations It contends that the ethnological imagination can invigorate critical social theory by informing its response to an increasingly multicultural world a response that calls for a reconsideration of the identity and boundaries of the West The Lost Ethnographies Robin James Smith, Sara Delamont, 2019-01-07 This volume explores ethnographic projects that were planned but never happened and reports on the methodological lessons researchers can learn as well as how they can gain fresh energy and social science insight from apparent rejection

Marx, A French Passion Jean-Numa Ducange, Anthony Burlaud, 2023-02-27 Despite the collapse of Soviet style socialism the spectre of Marx still haunts the French imagination This is no accident in a country whose intellectual life and political history have long been marked by his multiple presences This volume offers a historical and sociological insight into the way his thought has been received in the French context from his own lifetime to the present Analysing Marx's place and influence in the French intellectual political and artistic debate across the political spectrum and even in the French speaking colonial world it helps us understand the uses and misuses of an oeuvre of paramount importance

A Passion for Society Iain Wilkinson, Arthur Kleinman, 2016-01-26 What does human suffering mean for society And how has this meaning changed from the past to the present In what ways does the problem of suffering serve to inspire us to care for others How does our response to suffering reveal our moral and social conditions In this trenchant work Arthur Kleinman a renowned figure in medical anthropology and Iain Wilkinson an award winning sociologist team up to offer some answers to these profound questions A Passion for Society investigates the historical development and current state of social science with a focus on how this development has been shaped in response to problems of social suffering Following a line of criticism offered by key social theorists and cultural commentators who themselves were unhappy with the professionalization of social science Wilkinson and Kleinman provide a critical

commentary on how studies of society have moved from an original concern with social suffering and its amelioration to dispassionate inquiries. The authors demonstrate how social action through caring for others is revitalizing and remaking the discipline of social science and they examine the potential for achieving greater understanding through a moral commitment to the practice of care for others. In this deeply considered work, Wilkinson and Kleinman argue for an engaged social science that connects critical thought with social action that seeks to learn through caregiving and that operates with a commitment to establish and sustain humane forms of society. Passion, Craft, and Method in Comparative Politics Gerardo L. Munck, Richard Snyder, 2007-07-02. In the first collection of interviews with the most prominent scholars in comparative politics since World War II, Gerardo L. Munck and Richard Snyder trace key developments in the field during the twentieth century. Organized around a broad set of themes: intellectual formation and training; major works and ideas; the craft and tools of research; colleagues, collaborators, and students; and the past and future of comparative politics, these in-depth interviews offer unique and candid reflections that bring the research process to life and shed light on the human dimension of scholarship. Giving voice to scholars who practice their craft in different ways yet share a passion for knowledge about global politics, Passion, Craft, and Method in Comparative Politics offers a wealth of insights into contemporary debates about the state of knowledge in comparative politics and the future of the field.
