Passions Joy:

Passion and Action Susan James,1997-10-16 *Passion and Action* explores the place of the emotions in seventeenth century understandings of the body and mind and the role they were held to play in reasoning and action Interest in the passions pervaded all areas of philosophical enquiry and was central to the theories of many major figures including Hobbes Descartes Malebranche Spinoza Pascal and Locke Yet little attention has been paid to this topic in studies of early modern thought Susan James surveys the inheritance of ancient and medieval doctrines about the passions then shows how these were incorporated into new philosophical theories in the course of the seventeenth century She examines the relation of the emotions to will knowledge understanding desire and power offering fresh analyses and interpretations of a broad range of texts by little known writers as well as canonical figures and establishing that a full understanding of these authors must take account of their discussions of our affective life *Passion and Action* also addresses current debates particularly those within feminist philosophy about the embodied character of thinking and the relation between emotion and knowledge This ground breaking study throws new light upon the shaping of our ideas about the mind and provides a historical context for burgeoning contemporary investigations of the emotions *The Passions* John Gideon Millingen,1848 *Criticism, Performance and the Passions in the Eighteenth Century* James Harriman-Smith,2021-03-18 Recovers eighteenth century appreciation of transition as a critical tool for analysing the expression and reception of emotion in theatre **Augustine on the Nature of Virtue and Sin** Katherine Chambers,2024-01-10 Augustine of Hippo is a key figure in the history of Christianity and has had a profound impact on the course of western moral and political thought Katherine Chambers here explores a neglected topic in Augustinian studies by offering a systematic account of the meaning that Augustine gave to the notions of virtue vice and sin Countering the view that he broke with classical eudaimonism she demonstrates that Augustine s moral thought builds on the dominant approach to ethics in classical pagan antiquity A critical appraisal of this tradition reveals that Augustine remained faithful to the eudaimonist approach to ethics Chambers also refutes the view that Augustine was a political pessimist or realist showing that it is based upon a misunderstanding of Augustine s ideas about the virtue of justice Providing a coherent account of key features in Augustine s ethics her study invites a new and fresh evaluation of his influence on western moral and political thought *Ministry Greenhouse* George M. Hillman,2008-01-15 Known as the internship guy at Dallas Theological Seminary where he teaches George Hillman talks daily with students about God s movement in their lives The goal of Ministry Greenhouse is to help seminary and Bible college students their supervisors and the lay leaders who work with them create the best environment for leadership development through a beneficial internship An internship is not busy work or cheap labor but is instead fundamental to the development of a leader Hillman first makes a case for internships arguing that the purpose of the seminary or Bible college is to train both theologians and practitioners He explores the meaning of call identifies the ingredients of a successful internship discusses

strategies for establishing goals for an internship and offers guidance for reflecting on learning during an internship Hillman also provides tools for identifying competencies and sample goals A great internship experience places a student in an environment where God can work through him or her in the lives of other people and in the student's own life to develop calling character and competencies Ministry Greenhouse shows students their supervisors and the congregations and other organizations they serve how they can create just such an environment
