*Passport to Liberty* Jan Sammer, 1992-07-01 Presents citations from thirty eight great Americans including presidents statesmen writers and agitators as well as the Declaration of Independence the U S Constitution and the Emancipation Proclamation Peace and Prosperity in an Age of Incivility William Eric Davis, 2006 Peace and Prosperity in an Age of Incivility presents a comprehensive theory about peace and prosperity It asserts that three core political values liberty order and equality must be allocated by societies through law and policy This book shows that the optimal allocation is pure balance Balance of values provides the origin of the democratic peace the observation that democracies rarely fight each other and when they do it is brief does not escalate and quickly results in a diplomatic resolution By building on simple forms of spatial and game theories this stunning analysis shows that the democratic peace is a Nash equilibrium where no player has an incentive to deviate from the solution given the choices of other players Democracy because it fosters compromise drives the political values of liberty order and equality to intersect in perfect or at least relative balance Maximum peace and prosperity is the consequence of balancing critical values A nation s level of peace and prosperity while perhaps not great will be no greater than when these core values are in balance nd prosperity while perhaps not great will be no greater than when these core values are in balance nd prosperity while perhaps not great will be no greater than when these core values are in balance
