Jean Hiron, 2012-10-25 As artists we have choices There are very few rules that apply across the board We can create highly realistic paintings or perhaps more expressive paintings or paintings that have very little basis in reality including those that are totally non representational We can record color as we see it or as we d like it to be As pastel artists we have even more choices We can use a wide variety of pastels strokes surfaces and techniques to create many different looks The choices we make form the framework of our individual style our signature as artists Any subscriber to The Pastel Journal realizes how varied the medium of pastel can be For the experienced artist these articles are stimulating offering possible ways to experiment with alternative approaches For the beginner the panoply of choices can be overwhelming Painting is primarily an intuitive process But intuition is gained through study and experience Part of my impetus in writing this book has been to create a more structured approach to help those fairly new to the medium understand its many possibilities The book is aimed at all levels of pastel artists Beginners will find a wealth of helpful information and intermediate artists will gain insight into how to take their work to another level and develop a style Many advanced artists teach pastel the organization of ideas and the exercises included should be of assistance I offer a variety of suggested approaches and sometimes make up terminology to describe my experiences with the medium The instructions in the book are based on my preferences and the guidance that I offer my students The diversity of styles and techniques evident in the paintings of contributing artists should make it clear however that there are many ways to successfully work in pastel Having acknowledged the many possibilities I want to note a few musts Representational paintings must be well drawn Poor drawing skills cannot be overcome with lovely color or great technique Likewise paintings must have strong compositions regardless of whether they are realistic abstracted or non representational Values must be properly interpreted to produce strong compositions and to use pastel to its full effect And finally pastel paintings must sing Whether the applications are light and airy or rich and painterly it should be clear that the artist is in control of the medium and is using it to produce his or her desired look For years I have resisted suggestions that I write a book As a landscape painter I knew that there were more authoritative books already available And the growing popularity of pastel has led to so many resources including online blogs a biennial convention and the wonderful

Pastel Journal mentioned above What could I add to this My personal training in pastel has been from weeklong landscape workshops with some of the leading pastel painters in the country As a teacher in a community college I am not teaching a particular style nor focusing on specific subject matter Some of my students work with the landscape but others do portraits or figurative work while others prefer still life or work abstractly In dealing with this mixture I ve realized that there are different ways to approach one s use of color and this formed my first idea for creating a book Furthermore as a teacher I ve spent time experimenting with different surfaces pastel brands and techniques in order to make suggestions to students to help them find the look they want to achieve I do not teach students to paint the way I do but instead try to share my experience and help them develop their own individual style Drawing Workshop for Kids Samara Caughey,2021-02-23 Engage children s natural curiosity with this collection of 25 process driven drawing activities exploring essential art concepts and techniques In Drawing Workshop for Kids art educator Samara Caughey founder of the highly praised family centered art studio Purple Twig shares drawing invitations that support the development of creative confident children ages 7 and up For each project she includes comprehensive guidance a materials list step by step instructions suggested prompts and full color photographs of the process and finished examples Quick warm up activities using simple materials help kids loosen up and build confidence Drawing workshops offer deeper layered explorations that introduce new materials concepts and techniques These highly engaging yet low pressure projects encourage multi sensory observation and creative independence Children will have fun as they practice Creating tones by filling a page in with charcoal and then using different types of erasers to draw a still life Using their senses to understand a subject by choosing a fruit and drawing different versions of it as they eat it Interpreting foreground and background by drawing a background world with colored pencils which they glue to the bottom of a mint tin and then drawing a foreground subject which they place near the front of the tin Drawing a bird s eye view by using their imagination to draw a treasure map in pencil and watercolor Focusing on patterns by drawing colorful feathers with chalk and marker then cutting them out and pasting them to other shapes to make birds With tips for working with groups a glossary of essential terms and an overview of recommended materials this book is a complete resource for creating art with kids Whether you are a classroom teacher a homeschool instructor a camp organizer a parent or grandparent looking to engage your kids in a screen free activity or even an adult seeking ways to explore your creative side Drawing Workshop for Kids is your answer and guide to the question But what should I draw

**Art Workshop for Children** Barbara Rucci,Betsy McKenna,2016-11-01 Art Workshop for Children is not just another book of straightforward art projects The book s unique child led approach provides a framework for cultivating creative thinking and encourages the wonder that comes when children are allowed to freely explore the creative process and their materials As children work through these open ended workshops adults are guided on how to be facilitators who provide questions encourage deep thinking and help spark an excitement for discovery Children explore basic materials and

workshops that use minimal supplies and then gradually add new materials to fill the art cabinets as well as new skills and more complex workshops Most workshops are suitable to preschool aged children and each contains ideas for explorations and new twists to engage older or more experienced artists Interspersed throughout are sidebar essays that introduce perspectives on mess making imperfection the role of adult collaborative art and thoughts on the Reggio Emilia method a self guided teaching philosophy These pieces underscore the value of art making with children and support the parent teacher care giver on how to successfully lead question and navigate their children through the workshops to result in the fullest experiences
