### **The Politics of South African Cricket** Jon

Gemmell, 2004-03-31 The Politics of South African Cricket analyses the relationship between politics and sport in particular cricket in South Africa South African Cricket embraces an ethos that is symbolic of a wider held belief system and as such has distinctive political connotations in the region Sport in South Africa is certainly influenced by forces beyond the playing field but politics too can be influenced by the social and economic force of sport Focusing on the sports boycott as a political strategy Jon Gemmell analyses the relationship between sport and politics through a historical analysis of South African cricket He employs case studies to explore the relationship between politics and South African cricket and argues convincingly that cricket assisted the reform process by undermining the legitimacy of the apartheid regime

**Africa's Islamic Experiences- History, Culture, and Politics** Ali A. Mazrui, Patrick M. Dikirr, Jr. Robert Ostergard, Michael Toler, Paul Macharia, 2012-06 Africa's Islamic Experiences History Culture and Politics Edited by Ali A. Mazrui Patrick M. Dikirr Robert Ostergard Jr Michael Toler Paul Macharia This volume is rich in historic surprises about the fortunes of Islam in African experience Islam first arrived in Africa while the Prophet Muhammad the Founder of the religion was still alive Ethiopia provided asylum to early Arab Muslims on the run from persecution by fellow Arabs in pre Islamic Mecca Today Nigeria has more Muslims than any Arab country including Egypt This volume explores not just Islam's impact upon Africa but also Africa's impact on Muslim history The book explores the geographical expansion of the religion the revival of ancient Muslim rituals and the politicization and radicalization of Islam in both colonial and pre colonial Africa Is Islam compatible with democracy Can African Islam peacefully coexist with Christianity How has Islam in Africa influenced architecture Literature race relations gender relation and cultural interpenetrations between Arabs and Black Africans In this era of globalization is Islam a positive vanguard force or a trigger

for parochialism and backward looking nostalgia In this era of terrorism and counter terrorism can Islam be mobilized as a force for stability or has the religion been irretrievably hijacked by its own worst radicals This volume does not try to answer all the questions but it helps to lay the basic groundwork for understanding Islam much better in this new age Mobilizing Zanzibari Women C. Decker,2014-11-05 The experiences of African women in the era before independence remain a woefully understudied facet of African history This innovative and carefully argued study thus adds tremendously to our understanding of colonial history by focusing on women s education professionalization and political mobilization in the East African islands of Zanzibar **Fashioning Africa** Jean Allman,2004-09-09 There is a close connection between the clothes we wear and our political expression In Fashioning Africa an international group of anthropologists historians and art historians bring rich and diverse perspectives to this fascinating topic The Politics of Problem Definition David A. Rochefort,Roger W. Cobb,1994 At the nexus of politics and policy development lies persistent conflict over where problems come from what they signify and based on the answers to those questions what kinds of solutions should be sought Policy researchers call this process problem definition Written for both scholars and students this book explains how and why social issues come to be defined in different ways how these definitions are expressed in the world of politics and what consequences these definitions have for government action and agenda setting dynamics The authors demonstrate in two theoretical chapters and seven provocative case studies how problem definition affects policymaking for high profile social issues like AIDS drugs and sexual harassment as well as for problems like traffic congestion plant closings agricultural tax benefits and air transportation By examining the way social problems are framed for political discussion the authors illuminate the unique impact of beliefs values ideas and language on the public policymaking process and its outcomes In so doing they establish a common vocabulary for the study of problem definition review and critique the insights of existing work on the topic and identify directions for future research **Performance and Politics in Tanzania** Laura Edmondson,2007-07-20 In Performance and Politics in Tanzania Laura Edmondson examines how politics social values and gender are expressed on stage Now a disappearing tradition Tanzanian popular theatre integrates comic sketches acrobatics melodrama song and dance to produce lively commentaries on what it means to be Tanzanian These dynamic shows invite improvisation and spontaneous and raucous audience participation as they explore popular sentiments Edmondson asserts that these performances overturn the boundary between official and popular art and offer a new way of thinking about African popular culture She discusses how the blurring of state agendas and local desires presents a charged environment for the exploration of Tanzanian political and social realities What is the meaning of democracy and who gets to define it Who is in power and how is power exposed or concealed What is the role of tradition in a postsocialist state How will the future of the nation be negotiated This engaging book provides important insight into the complexity of popular forms of expression during a time of political and social change in East Africa **War of Words, War of Stones** Jonathon Glassman,2011-02-21

The Swahili coast of Africa is often described as a paragon of transnational culture and racial fluidity Yet during a brief period in the 1960s Zanzibar became deeply divided along racial lines as intellectuals and activists engaged in bitter debates about their nation's future ignited a deadly conflict that spread across the island War of Words War of Stones explores how violently enforced racial boundaries arose from Zanzibar's entangled history Jonathon Glassman challenges explanations that assume racial thinking in the colonial world reflected only Western ideas He shows how Africans crafted competing ways of categorizing race from local tradition and engagement with the Atlantic and Indian Ocean worlds *Sports in African History, Politics, and Identity Formation* Michael J. Gennaro, Saheed Aderinto, 2019-04-01 Sports in African History Politics and Identity Formation explores how sports can render a key to unlocking complex social political economic and gendered relations across Africa and the Diaspora Sports hold significant value and have an intricate relationship with many components of African societies throughout history For many Africans sports are a way of life a site of cultural heroes a way out of poverty and social mobility and a site for leisurely play This book focuses on the many ways in which sports uniquely reflect changing cultural trends at diverse levels of African societies The contributors detail various sports such as football cricket ping pong and rugby across the continent to show how sports lay at the heart of the discourse of nationalism self-fashioning gender and masculinity leisure and play challenges of underdevelopment and ideas of progress Bringing together the newest and most innovative scholarship on African sports this book will be of interest to students and scholars of contemporary Africa African history culture and society and sports history and politics **African Soccerscapes** Peter Alegi, 2010-02-14 From Accra and Algiers to Zanzibar and Zululand Africans have wrested control of soccer from the hands of Europeans and through the rise of different playing styles the rituals of spectatorship and the presence of magicians and healers have turned soccer into a distinctively African activity African Soccerscapes explores how Africans adopted soccer for their own reasons and on their own terms Soccer was a rare form of national culture in postcolonial Africa where stadiums and clubhouses became arenas in which Africans challenged colonial power and expressed a commitment to racial equality and self-determination New nations staged matches as part of their independence celebrations and joined the world body FIFA The Confédération africaine de football democratized the global game through anti-apartheid sanctions and increased the number of African teams in the World Cup finals In this compact highly readable book Alegi shows that the result of this success has been the departure of huge numbers of players to overseas clubs and the growing influence of private commercial interests on the African game But the growth of women's soccer and South Africa's hosting of the 2010 World Cup also challenge the one-dimensional notion of Africa as a backward tribal continent populated by victims of war corruption famine and disease *Culture and Politics in Early Stuart England* Kevin Sharpe, 1993 In recent years new schools of historiography and criticism have recast the political and cultural histories of Elizabethan and early Stuart England However for all the benefits of their insights most revisionist historians have too narrowly focussed on high politics

to the neglect of values and ideology and New Historicist literary scholars have displayed an insufficient grasp of chronology and historical context The contributors to this pioneering volume richly fusing these approaches apply a revisionist close attention to moments to the wide range of texts verbal and visual that critics have begun to read as representations of power and politics Excitingly broadening the range of areas and evidence for the study of politics these outstanding essays demonstrate how the study of high culture classical translations court portraits royal palaces the conduct of chivalric ceremony and low culture cheap pamphlets and scurrilous verses enable us to reconstruct the languages through which contemporaries interpreted their political environment The volume posits a reconsideration of the traditional antithetical concepts court and country verbal and visual critical and complimentary elite and popular examines the constructions of a moral and social order enacted in a wide variety of cultural practices and demonstrates how common vocabularies could in changed circumstances be combined and deployed to sustain quite different ideological positions This book opens a new agenda for the study of the politics of culture and the culture of politics in early modern England Publisher's website

**Sport, Politics, and Literature in the English Renaissance** Gregory M. Colón Semenza, 2003 This is the first book length study of the crucial relationship between sport and the political and imaginative literature of Renaissance England In the sixteenth and seventeenth centuries educators medical practitioners and military scientists were among the many contemporaries who praised sport as necessary and functional physiologically beneficial to the individual practitioner vital to the preparedness of the military and necessary to the maintenance of traditional class hierarchy Sport's significance in the period is perhaps best registered by its literal and metaphorical centrality in such popular works of literature as Shakespeare's histories Walton's *Compleat Angler* and Milton's *Samson Agonistes* as well as its prominence in ecclesiastical and secular legislation and polemics By reconstructing a cultural history of sport and investigating representations of it in contemporary prose poetry and drama the book demonstrates sport's pivotal position in the interlocking spheres of Renaissance science politics and art Gregory M. Colón Semenza is Assistant Professor of English at the University of Connecticut *The Poetics and Politics of Youth in Milton's England* Blaine Greteman, 2013-08-19 This book argues that concepts of youth and childhood were central to seventeenth century debates about political and poetic voice [The New Annual Register, Or General](#)

[Repository of History, Politics, and Literature](#), 1802 **The Politics of Reclusion** Kendall H. Brown, 1997-01-01 The Chinese themes of the Four Graybeards of Mt Shang and the Seven Sages of the Bamboo Grove figure prominently in the art of Momoyama period Japan ca 1575-1625 Kendall Brown proposes that the dense and multivalent implications of aesthetic reclusion central to these paintings made them appropriate for patrons of all classes the military who were presently in power the aristocracy who had lost power and the Buddhist priesthood who forsook power These paintings and their attendant messages thus serve as dynamic cultural agents that elucidate the fundamental paradigms of early modern Japanese society Unlike traditional art history studies which emphasize the style and history of art objects *The Politics of*

Reclusion sets out to reconstruct the possible historical context for the interpretive reception and use of Chinese hermit themes within a specific period of Japanese art. In emphasizing the political dimension of aesthetic reclusion, it introduces into the field of Japanese art history a discussion of the politics of aesthetics that characterizes recent work in the field of Japanese literature. By embedding the paintings within the contexts of politics, philosophy, religion, and even gender, this study restores the reflexive relations between the paintings and their culture and as such is one of the first extensive intellectual and social histories of Japanese art in a Western language. It is one that will appeal not only to students of art but to those interested in Japanese literature, history, and philosophy.

The Politics of Mirth Leah S. Marcus, 1989-03-23 Leah Marcus's *The Politics of Mirth: Jonson, Herrick, Milton, Marvell, and the Defense of Old Holiday Pastimes* is a fascinating study of why James and Charles promoted some types of rural sport and festival and of how certain literary texts participated in promoting or critiquing royal policy. Marcus provocatively links texts not often studied in conjunction with one another and she provides strong and detailed readings of those texts. Jean E. Howard

**Society and Politics in the Plays of Thomas Middleton** Swapan Chakravorty, 1996-05-23 A comprehensive reassessment of Middleton's cultural importance, this wide-ranging study examines both the writer's dramatic and non-dramatic texts to show how he laid bare the complicit interests at work behind assumptions about sex, morality, society, and politics in late feudal culture. Middleton's importance has long been acknowledged in the modern theatre, but academic criticism still seems distracted by questions regarding his morals and Puritanism. Swapan Chakravorty argues against the reductivism of such enquiries and demonstrates the complexity behind the texts' disengagement from received ideological premises and generic formulae. Combining close reading with lively historical analysis, *Society and Politics in the Plays of Thomas Middleton* reveals Middleton to have been a pioneer of politically self-conscious theatre. Full of insight, this study brings alive the plays' meanings by engaging with the social, political, and cultural concerns of Middleton's day.
