Okoro, 2010 Religions and Discourse explores religious language in the major world faiths from various viewpoints including semiotics pragmatics and cognitive linguistics and reflects on how it is situated within wider intellectual and cultural contexts In particular a key issue is the role of figurative speech Many fascinating metaphors originate in religion e.g. revelation as a garment apostasy as adultery loving kindness as the circumcision of the heart

**The Eucharist and World Hunger** Izunna

Okonkwo,2011-12-21 Hunger is a menace in different parts of the globe It has more unnatural than natural causes Though efforts have been made towards alleviating its causes and consequences more actions still need to be taken for its genuine alleviation and eventual eradication in the world For Joseph Grassi painful hunger is a daily occurrence that must be countered by ongoing effective programs that enter into the lives of every Christian Such position not only recognises the frequency and excruciating nature of hunger but also suggests that Christians and other religious groups have a very important role to play in order to eradicate hunger and its devastating effects This book explores the nuances of hunger its causes dimensions and approaches as well as its connection to the Eucharist It argues that hunger can be eradicated and that the Eucharist stands out as a veritable model

**A History of Divorce Law** Henry Kha,2020-11-30 The book explores the rise of civil divorce in Victorian England the subsequent operation of a fault system of divorce based solely on the ground of adultery and the eventual piecemeal repeal of the Victorian era divorce law during the Interwar years The legal history of the Matrimonial Causes Act 1857 is at the heart of the book The Act had a transformative impact on English law and society by introducing a secular judicial system of civil divorce This swept aside the old system of divorce that was only obtainable from the House of Lords and inadvertently led to the creation of the modern family justice system The book argues that only through understanding the legal doctrine in its wider cultural political religious and social context is it possible to fully analyse and assess the changes brought about by the Act The major developments included the end of any pretence of the indissolubility of marriage the statutory enshrinement of a double standard based on gender in the grounds for divorce and the growth of divorce across all spectrums of English society The Act was a product of political and legal compromise between conservative forces resisting the legal introduction of civil divorce and the reformers who demanded married women receive equal access to the grounds of divorce Changing attitudes towards divorce that began in the Edwardian period led to a gradual rejection of Victorian moral values and the repeal of the Act after 80 years of existence in the Interwar years The book will be a valuable resource for academics and researchers with an interest in legal history family law and Victorian studies

**The Diaconate in Ecumenical Perspective** Frederick C. (Fritz) Bauerschmidt, Anne Keffer, Maylann Maybee, George E. Newman, Alison Peden, Josephine (Phina) Borgeson, Rosalind Brown, Brian A. **How the Catholic Church Can Restore Our Culture** Archbishop Georg Ganswein, 2020-04-15 Prefect of the Papal Household Archbishop Georg Ganswein presents a stirring defense of Catholic theology Church tradition and the primacy of the Catholic Faith in his much anticipated American book debut *How the Catholic Church Can Restore Our Culture* As one of the most distinguished figures in the Catholic Church and the only man to have been in daily interaction with two popes simultaneously Archbishop Ganswein presents an array of profound observations about the state of the Church and its likely future in an increasingly secular society He offers a vigorous and convincing argument for the indispensability of the Catholic Church as a civilizing force in culture and how she alone can and must serve as a bulwark against the growing cultural totalitarianism seizing the West Ganswein also interprets what the expanded papacy means for the Church and explains how Pope Benedict s resignation has played a critical and necessary role in demythologizing the office of the papacy Finally he offers a framework for spiritual renewal beginning with the personal reform of priests and bishops To save the Church the archbishop explains we need clerics who prioritize and epitomize the proclamation of God s Word in their own lives and work The pastoral approach of today is important but only if it recaptures its original evangelical dimension

**The Morally**

**Divided Body** Michael Root, James J. Buckley, 2012-09-01 At the same time as Catholic and evangelical Christians have increasingly come to agree on issues that divided them during the sixteenth century reformation, they seem increasingly to disagree on issues of contemporary morality and ethics. Do such arguments doom the prospects for realistic full communion between Catholics and evangelicals? Or are such disagreements a new opportunity for Catholics and evangelicals to convert together to the triune God's word and work on the communion of saints for the world? Or should our hope be different than simple pessimism or optimism? In this volume eight authors address different aspects of these questions, hoping to move Christians a small step further toward the visible unity of the church.
