Trade in the Ancient Sahara and Beyond D. J.

Mattingly, V. Leitch, C. N. Duckworth, A. Cuénod, M. Sterry, F. Cole, 2017-11-30 Saharan trade has been much debated in modern times but the main focus of interest remains the medieval and early modern periods for which more abundant written sources survive The pre Islamic origins of Trans Saharan trade have been hotly contested over the years mainly due to a lack of evidence Many of the key commodities of trade are largely invisible archaeologically being either of high value like gold and ivory or organic like slaves and textiles or consumable commodities like salt However new research on the Libyan people known as the Garamantes and on their trading partners in the Sudan and Mediterranean Africa requires us to revise our views substantially In this volume experts re assess the evidence for a range of goods including beads textiles metalwork and glass and use it to paint a much more dynamic picture demonstrating that the pre Islamic Sahara was a more connected region than previously thought **The Nationality and Statelessness of Nomadic Peoples Under**

**International Law** Heather Jean Alexander, 2025 Despite the universal right to nationality many nomadic peoples struggle to claim this fundamental status International law offers solutions to combat statelessness like birth registration but do they work for nomadic peoples The Nationality and Statelessness of Nomadic Peoples Under International Law delves into the nationality challenges faced by four communities former Bedouin in Kuwait Tuareg in Mali Fulani in Côte d'Ivoire and Sama Dilaut Bajau Laut in Malaysia Drawing on diverse sources from across disciplines as well as original field research the book traces the roots of nomadic statelessness from colonization to the present Through a rigorous legal analysis the book evaluates how effectively international law addresses these underlying issues and safeguards the right to nationality for those whose lifestyles transcend borders and conventional nation state structures Finally the book proposes reforms to international law to better address the needs of nomadic peoples regarding nationality and citizenship **The Concise**

from The Garland Encyclopedia of World Music Volume 1 Africa 1997 Revised and updated the essays offer detailed regional studies of the different musical cultures of Africa and examine the ways in which music helps to define the identity of this particular area Part One provides an in depth introduction to Africa Part Two focuses on issues and processes such as notation and oral tradition dance in communal life and intellectual property Part Three focuses on the different regions countries and cultures of Africa with selected regional case studies The second edition has been expanded to include exciting new scholarship that has been conducted since the first edition was published Questions for Critical Thinking at the end of each major section guide and focus attention on what musical and cultural issues arise when one studies the music of Africa issues that might not occur in the study of other musics of the world An accompanying audio compact disc offers musical examples of some of the music of Africa

**The Concise Garland Encyclopedia of World Music: Africa ; South America, Mexico, Central America, and the Caribbean ; The United States and Canada ; Europe ; Oceania** Ellen Koskoff,2008 The critical importance of past for the present of music histories in local and global forms asserts itself The history of world music as each chapter makes clear is one of critical moments and paradigm shifts *Evil in Africa* William C. Olsen,Walter E. A. van Beek,2015-08-30 William C Olsen Walter E A van Beek and the contributors to this volume seek to understand how Africans have confronted evil around them Grouped around notions of evil as a cognitive or experiential problem evil as malevolent process and evil as an inversion of justice these essays investigate what can be accepted and what must be condemned in order to evaluate being and morality in African cultural and social contexts These studies of evil entanglements take local and national histories and identities into account including state politics and civil war religious practices Islam gender and modernity *Reconfiguring Slavery* Benedetta Rossi,2016-02-26 A fascinating collection that advances a renewed conceptual framework for understanding slavery in West Africa today instead of retracing the end of West African slavery this work highlights the preliminary contours of its recent reconfigurations **Terrorism and Counter-Terrorism in Africa** H. Solomon,2015-05-12 Traditional counter terrorism approaches with their emphasis on the military are failing This is seen in the fact that there is an average of three terrorist attacks per day in Africa This study calls for more holistic solutions with an emphasis on development and better governance to curb the scourge of terrorism

*Human Ecology* Daniel G. Bates,Judith Tucker,2010-03-29 This book arose from the need to develop accessible research based case study material which addresses contemporary issues and problems in the rapidly evolving field of human ecology Academic political and indeed public interest in the environmental sciences is on the rise This is no doubt spurred by media coverage of climate change and global warming and attendant natural disasters such as unusual drought and flood conditions toxic dust storms pollution of air and water and the like But there is also a growing intellectual awareness of the social causes of anthropogenic environmental impacts political vectors in determining conservation outcomes and the role of local representations of ecological knowledge in resource management and sustainable yield production This is reflected in the

rapid increase of ecology courses being taught at leading universities in the fast growing developing countries much as was the case a decade or two ago in Europe and North America The research presented here is all taken from recent issues of Human Ecology An Interdisciplinary Journal Since the journal itself is a leading forum for contemporary research the articles we have selected represent a cross section of work which brings the perspectives of human ecology to bear on current problems being faced around the world The chapters are organized in such a way to facilitate the use of this volume either to teach a course or to introduce an informed reader to the field

**The Politics of Reproductive Ritual** Jeffery M. Paige, Karen Ericksen Paige, 2023-04-28 A welcome addition They argue that rituals of reproduction in preindustrial societies are essentially political In these societies they say men need to control the reproductive power of women in order to establish political power where there is no law or central government ritual is used as a way of gaining control The type of ritual will vary they conclude according to the economic base of the society for those who are interested in the subject this book is indispensable Its thesis is challenging and the documentation is excellent Paige and Paige have made an essential contribution to a long debate and their theory is sure to stir new and lively controversy Science Digest This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981

**Historical Dictionary of Niger** Abdourahmane Idrissa, Rahmane Idrissa, Samuel Decalo, 2012-06 Sitting on the cusp between Mediterranean and sub Saharan Africa Niger is in many ways a remarkable place blending in the harsh Sahelian environment a great diversity of cultures and lifestyles to make up a poor but resilient nation The country was established in the early 20th century in what used to be the busy crossroad of exchanges between the kingdoms and empires of West Africa and the Arab Islamic world The resulting melting pot is a blend of Western Sudanic cultures manifest in particular in its food music and dance as well as in the enduring rituals and practices of animist religions along with a good deal of Arab culture imported through the Islamic religion and a dash of French culture The fourth edition of the Historical Dictionary of Niger covers the history of the peoples of the Republic of Niger from medieval times to the present This is done through a chronology an introductory essay and an extensive bibliography The dictionary section has over 700 cross referenced entries covering elements of pre colonial and colonial history recent politics cinema literature religion economics and finance This book is an excellent access point for students researchers and anyone wanting to know more about Niger

*Secessionism in*

*African Politics* Lotje de Vries, Pierre Englebert, Mareike Schomerus, 2018-08-20 Secessionism perseveres as a complex political phenomenon in Africa yet often a more in depth analysis is overshadowed by the aspirational simplicity of pursuing a new state Using historical and contemporary approaches this edited volume offers the most exhaustive collection of empirical studies of African secessionism to date The respected expert contributors put salient and lesser known cases into comparative perspective covering Biafra Katanga Eritrea and South Sudan alongside Barotseland Cabinda and the Comoros among others Suggesting that African secessionism can be understood through the categories of aspiration grievance performance and disenchantment the book s analytical framework promises to be a building block for future studies of the topic
