Principle B, VP Ellipsis, and Interpretation in Child Grammar Rosalind Thornton, Kenneth Wexler, 1999 This is the first experimental study of Principle B with verb phrase ellipsis and properties of the interpretation of empty pronouns in ellipsis Among the universal principles are those known as the principles of the binding theory These principles constrain the range of interpretations that can be assigned to sentences containing reflexives and reciprocals pronouns and referring expressions The principle that is relevant for pronouns Principle B has provided a fertile ground for the study of linguistic development Although it has long been known that children make certain kinds of errors that appear to contradict this principle further experimental and theoretical investigation reveals that the child does know the grammatical principle but implements the pragmatic knowledge incorrectly In fact discoveries concerning children's knowledge of Principle B are among the most well known in the study of language acquisition because of the dissociation between syntactic and pragmatic knowledge binding versus reference In this book the authors deepen and extend the results of years of developmental investigation of Principle B by studying the interaction of Principle B with verb phrase ellipsis and properties of the interpretation of empty pronouns in ellipsis properties of strict and sloppy interpretation This is the first experimental study of these topics in the developmental literature The striking results show that detailed predictions from the pragmatic deficiency theory seem to be correct Many novel experimental results concern the question of how children interpret pronouns including elided pronouns and how they understand VP ellipsis The authors present the necessary theoretical background on Principle B review and critique previous accounts of children's errors and present a novel account of why children misinterpret pronouns The book will thus be of interest not only to readers interested in the development of the binding theory but to those interested in the development of interpretation and reference by children Canada Soccer Aldwyn McGill, 2011-04-11 Canada Soccer covers Canada Soccer history and reveals the thoughts of some of the top administrators and soccer players in Canada House documents, 1889 **Come on You Reds** Joshua Klope, 2018-10-06 Come on You Reds takes Toronto FC fans through the team's lowest years to how they became one of the best teams in Major League Soccer history *Boys' Life*, 1982-04 Boys

Mad Blood Stirring Daemon Fairless,2018-03-06 With a rare clarity and fearless honesty journalist Daemon Fairless tackles the horrors and compulsions of male violence from the perspective of someone who struggles with violent impulses himself creating a non fiction masterpiece with the narrative power of novels such as Fight Club and A History of Violence A man no matter how civilized is still an animal and sometimes a dangerous one Men are responsible for the lion s share of assault rape murder and warfare Conventional wisdom chalks this up to socialization that men are taught to be violent And they are But there s more to it Violence is a dangerous desire a set of powerful and inherent emotions we are loath to own up to And so there remains a hidden geography to male violence an inner ecosystem of rage dominance blood lust insecurity and bravado yet to be mapped Mad Blood Stirring is journalist Daemon Fairless s riveting first person travelogue through this territory as he seeks to understand the inner lives of violent men and ultimately himself

Italian Signs, American Streets Fred L. Gardaphé,1996 In the first major critical reading of Italian American narrative literature in two decades Fred L Gardaph presents an interpretive overview of Italian American literary history Examining works from the turn of the twentieth century to the present he develops a new perspective variously historical philosophical and cultural by which American writers of Italian descent can be read increasing the discursive power of an ethnic literature that has received too little serious critical attention Gardaph draws on Vico s concept of history as well as the work of Gramsci to establish a culture specific approach to reading Italian American literature He begins his historical reading with narratives informed by oral traditions primarily autobiography and autobiographical fiction written by immigrants From these earliest social realist narratives Gardaph traces the evolution of this literature through tales of the godfather and the mafia the reinvention of ethnicity in works by Helen Barolini Tina DeRosa and Carole Maso the move beyond ethnicity in fiction by Don DeLillo and Gilbert Sorrentino to the short fiction of Mary Caponegro which points to a new direction in Italian American writing The result is both an ethnography of Italian American narrative and a model for reading the signs that mark the self fashioning inherent in literary and cultural production Italian Signs American Streets promises to become a landmark in the understanding of literature and culture produced by Italian Americans It will be of interest not only to students critics and scholars of this ethnic experience but also to those concerned with American literature in general and the place of immigrant and ethnic literatures within that wide framework
