The Ethics of Conceptualization Matthieu Queloz,2025-01-31 Philosophy strives to give us a firmer hold on our concepts But what about their hold on us Why place ourselves under the sway of a concept and grant it the authority to shape our

thought and conduct Another conceptualization would carry different implications What makes one way of thinking better than another The Ethics of Conceptualization develops a framework for concept appraisal Its guiding idea is that to question the authority of concepts is to ask for reasons of a special kind reasons for concept use which tell us which concepts to adopt adhere to or abandon thereby shoring up or undercutting the reasons for action and belief that guide our deliberations Traditionally reasons for concept use have been sought either in timeless rational foundations or in concepts inherent virtues such as precision and consistency Against this the book advances two main claims that we find reasons for concept use in the conceptual needs we discover when we critically distance ourselves from a concept by viewing it from the autoethnographic stance and that sometimes concepts that conflict or exhibit other vices such as vagueness or superficiality are just what we need By considering which concepts we need rather than which are absolutely best we can reconcile ourselves to the contingency of our concepts determine the proper place of efforts to tidy up thought and adjudicate between competing conceptions of things even things as contested as liberty or free will A needs based approach separates helpful clarification from hobbling tidy mindedness and authoritative definition from conceptual gerrymandering This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations **A Charmed Life** Trevor
