Patents. Hearings...on S. 2303....April 13, 14, 15, 16, and 17, 1942. (77-2) United States U.S. Congress. Senate. Committee on patents,1942 **Patents** United States. Congress. Senate. Committee on Patents,1942 *Daniel Bell and the Decline of Intellectual Radicalism* Howard Brick,1986 What causes a generation of intellectuals to switch its political allegiances in particular to move from the opposition to the mainstream In U S history it is the experience of the Old Left intellectuals who swung from avowal of socialism or Communism in the 1930s to apology for American liberalism in the 1950s that raises this question pointedly In this highly original and broadsweeping study Howard Brick focuses on the career

of Daniel Bell as an illustrative case of political transformation combining intellectual history biography and the history of sociology to explain Bell's emerging thought in terms of the tensions between socialists and sociological theory. The resulting work will be of compelling interest to Marxists and American intellectual historians to sociologists and to all students of twentieth century American thought and culture. Daniel Bell's route to political reconciliation was a tortuous one. While it is common wisdom to cite World War II as the force that welded national unity and brought Depression era radicals to an appreciation of democratic institutions, the war actually turned the young Bell to the left. Opposing the centralized power of American business and military elites at war's end, Bell shared the new radicalism that infused Dwight MacDonald's *Politics Magazine* and motivated C. Wright Mills' early work. Nonetheless, by the early 1950s Bell had declared the demise of American socialism and endorsed the welfare reforms of the Fair Deal. Brick's study finds, however, that the new radicalism of the mid 1940s helped to shape Bell's mature perspective, giving it a richness and critical edge often unrecognized. Brick finds that the heritage of modernism as manifested in social theory knit together the process of political transformation, combining disdain for the false promises of liberal progress, estrangement from society at large, and reconciliation with a reality perceived to be full of unconquerable tensions. Brick locates the foundations of Bell's mature social theory in the historical context of his early work, particularly in the political concessions made by the social democratic movement in the face of the Cold War to the reconstruction of capitalist order in the West. The crucial turning point in World politics, as in Bell's thinking, can be located in the years 1947-49. After that point, the different strands of Bell's thinking came together to represent the contradictions in the perspective of a social democrat trapped by the iron cage of capitalism, who saw in his political accommodation both the road to progress and the rupture of his hopes. This peculiar paradigm, shaped by the experiences of deradicalization, lies at the heart of Daniel Bell's social theory, Brick finds. At the present critical point in American history, as a new generation of leftist intellectuals undergoes a process similar to that of Bell's generation, Brick's work will be especially important in

understanding the historical phenomenon of deradicalization. **Hitler's Spy** James Hayward, 2014-01-30. Originally published as *Double Agent Snow*, Hitler's Spy is the paperback edition which tells of how, on the eve of the outbreak of the Second World War, the double agent Arthur Owens, codenamed SNOW, is summoned to Berlin and appointed Hitler's chief spy in Britain. Days later, he finds himself in Wandsworth prison, betrayed by the wife he traded for a younger model and forced to transmit false wireless messages for MI5 to earn his freedom and avoid the hangman's noose. A vain and devious anti-hero with no moral compass, Owen's motives were status, money, and women. He mixed fact with fiction constantly and at times insisted that he was a true patriot undertaking hazardous secret missions for his mother country; at other times, Owens saw himself as a daring rogue agent outwitting British Intelligence and loyal only to the Fatherland. Yet in 1944, as Allied troops stormed the beaches of Normandy on D Day, Hitler was caught unawares, tricked into expecting the invasion across the Pas de Calais in a strategic deception played out by Owens and the double cross agents of MI5. For all his flaws, Agent Snow

became the traitor who saved his country Based on recently de classified MI5 files and previously unpublished sources Hitler s Spyis the story of a secret Battle of Britain fought by Snow and his opposing spymasters Thomas Tar Robertson of MI5 and Nikolaus Ritter of the Abwehr as well as the tragic love triangle between Owens his wife Irene and his mistress Lily Funnell The evocative fast paced narrative moves from seedy south London pubs to North Sea trawlers from chic Baltic spa resorts to Dartmoor gaol populated by a colourful rogue s gallery of double cross agents *Scientific and Technical Mobilization, Hearing, Before a Subcommittee ..., S. 702 ..., March 30, 1943* United States. Congress. Senate. Committee on Military Affairs,1943 **Hitler's Table Talk 1941-1944** Trevor-Roper Trevor-Roper,2007-12-15 New material adds value to this classic edition with an introduction by historian Gerhard L Weinberg **From Pearl Harbor to Hiroshima** Saki Dockrill,2016-07-27 The most significant issue that Dockrill addresses is that of how Japan views the war in retrospect a question which not only tells us a lot about how events were seen in Japan in 1941 but is also a matter still of importance in contemporary East Asian politics Antony Best London School of Economics This multi authored work edited by Saki Dockrill is an original unique and controversial interpretation of the Second World War in Asia and the Pacific Dr Dockrill the author of Britain s Policy for West German Rearmament has skilfully converted the proceedings of an international conference held in London into a stimulating and readable account of the Pacific War This is a valuable contribution to our knowledge of the subject **Scientific and Technical Mobilization** United States. Congress. Senate. Committee on Military Affairs,1943
