Paternalistic Intervention Donald VanDeVeer, 1986-01-01 **Paternalistic Intervention** Donald Vandever, 2014-07-14

Donald VanDeVeer probes the moral complexities of the question under what conditions is it permissible to intervene invasively in the lives of competent persons for example by deception force or coercive threat for their own good In a work with broad significance for law public policy professional client relations and private interactions he presents a theory of an autonomy respecting paternalism Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Friedrich Nietzsche and the Politics of the Soul* Leslie Paul Thiele, 2020-12-08 Reading Nietzsche s works as the political biography of his soul Leslie Thiele presents an original and accessible essay on the great thinker s attempt to lead a heroic life as a philosopher artist saint educator and solitary He takes as his point of departure Nietzsche s conception of the soul as a multiplicity of conflicting drives and personae and focuses on the task Nietzsche allotted himself to make a cosmos out of his chaotic inheritance This struggle to become what you are by way of a spiritual politics is demonstrated to be Nietzsche s foremost concern which fused his philosophy with his life The book offers a conversation with Nietzsche rather than a consideration of the secondary literature yet it takes to task many prevalent approaches to his work and contests especially the way we often restrict our encounter with him to conceptual analysis All deconstructionist attempts to portray him as solely concerned with the destruction of the subject and the dispersion of the self rather than its unification are called into question Often portrayed as the champion of nihilism Nietzsche here emerges as a thinker who saw his primary task as the overcoming of nihilism through the heroic struggle of individuation **The Journal of Philosophy** , 1986 *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association, 1986 List of members in v 1 **Valuing Life** John Kleinig, 2014-07-14 Abortion euthanasia capital punishment war genetic engineering and fetal experimentation environmental and animal rights these topics inspire some of today s most heated public controversies And it is fashionable to pursue these debates in terms of the negative query Under what conditions may life be disregarded or terminated John Kleinig asks a different more positive question What may be said in behalf of life Looking at the full range of appeals to life s value he considers a variety of issues Is livingness as such to be affirmed and respected Is there an ascending order of plant animal and human life Does human life possess a distinctive claim or must we discriminate between humans that do and humans that do not have claims on us Kleinig shows that assertions about valuing life camouflage a complex normative vocabulary about worth reverence sanctity dignity respect and rights And life too is subject to an assortment of

understandings Sensitive to the frameworks informing diverse appeals to life's value this comprehensive work will interest readers concerned with the environment animal rights or bioethics Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Speaking of Equality P. Westen, 2014-07-14 Aristotle noted that equality is the plea not of those who are satisfied but of those who seek change and the word has long been invoked in the name of social reform It retains its force because arguments for equality put arguments for inequality on the defensive But why is equality laudatory and inequality pejorative In this first book length analysis of the rhetorical force of equality arguments Peter Westen argues that they derive their persuasiveness largely from the kind of word that equality is rather than from the values it incorporates By focusing on ordinary language and using commonplace examples from law and morals Westen argues that equality is a single concept that lends itself to a multiplicity of conceptions by virtue of its capacity to incorporate diverse standards of comparison by reference Equality arguments draw rhetorical force in part from their tendency to mask the standards of comparison on which they are based and in so doing to confound fact with value premises with conclusions and uncontested with contested norms Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Healthy Eating Policy and Political Philosophy Anne Barnhill, Matteo Bonotti, 2022 When it comes to laws and policies that deal with food such as special taxes on sugary drinks and the banning of certain unhealthy food ingredients critics argue that these policies can be paternalistic and can limit individual autonomy over food choices In *Healthy Eating Policy and Political Philosophy A Public Reason Approach* Anne Barnhill and Matteo Bonotti show that both paternalistic justifications for healthy eating efforts and anti paternalistic arguments against them can be grounded in perfectionist views that overly prioritize some values such as autonomy and health over other values The authors therefore propose a more inclusive public reason approach to healthy eating policy that will be appealing to those who take pluralism and cultural diversity seriously by providing a framework through which different kinds of values including but not limited to autonomy and health can be factored into the public justification of healthy eating efforts

The Limits of Medical Paternalism Heta Häyry, 2002-02-07 *The Limits of Medical Paternalism* defines and morally assesses paternalistic interventions especially in the context of modern medicine and health care

Books in Series, 1876-1949 R.R. Bowker Company, 1982 Peacebuilding in Crisis Tobias Debiel, Thomas Held, Ulrich Schneckener, 2016-01-29 The 1990s saw a constant increase in international peace missions predominantly led by the United Nations whose mandates were more and more extended to implement societal and political transformations in post conflict societies However in many cases these missions did not meet the high expectations and did not acquire a sufficient legitimacy on the local level Written by leading experts in the field this edited volume brings together liberal and post liberal approaches to peacebuilding Besides challenging dominant peacebuilding paradigms the book scrutinizes how far key concepts of post liberal peacebuilding offer sound categories and new perspectives to reframe peacebuilding research It thus moves beyond the liberal post liberal divide and systematically integrates further perspectives paving the way for a new era in peacebuilding research which is theory guided but also substantiated in the empirical analysis of peacebuilding practices This book will be essential reading for postgraduate students and scholar practitioners working in the field of peacebuilding By embedding the subject area into different research perspectives the book will also be relevant for scholars who come from related backgrounds such as democracy promotion transitional justice statebuilding conflict and development research and international relations in general **In Our Best Interest** Jason Hanna, 2018-09-21 When if ever is it permissible to intervene in a person's affairs for his or her own good This in essence is the moral problem of paternalism Many consider paternalism morally objectionable In this book Jason Hanna argues boldly for an alternative pro paternalist view that

intervention is permissible so long as it serves the best interest of the person subject to it without thereby wronging others To Hanna the moral debate over paternalism is most fundamentally a debate about the weight and relevance of a certain kind of reason or rationale for intervention In arguing that paternalistic rationales provide valid and weighty reasons Hanna considers the objections that paternalism is disrespectful that it wrongly imposes values on people that it violates individual rights and that it is likely to be misapplied or abused He argues that each of these objections fails to demonstrate that there is anything distinctively problematic about paternalism Moreover he attempts to situate pro paternalism within a popular rights based moral theory Hanna shows that popular alternatives to pro paternalism confront serious problems of their own especially insofar as they attempt to distinguish permissible intervention on behalf of incompetent persons from impermissible intervention on behalf of competent adults Although the book s central aim is to defend a moral view it suggests how this view can be fruitfully applied in a number of real world contexts *The Practice of Global Citizenship* Luis Cabrera,2010-10-14 In this novel account of global citizenship Luis Cabrera argues that all individuals have a global duty to contribute directly to human rights protections and to promote rights enhancing political integration between states The Practice of Global Citizenship blends careful moral argument with compelling narratives from field research among unauthorized immigrants activists seeking to protect their rights and the Minuteman activists striving to keep them out Immigrant rights activists especially those conducting humanitarian patrols for border crossers stranded in the brutal Arizona desert are shown as embodying aspects of global citizenship Unauthorized immigrants themselves are shown to be enacting a form of global civil disobedience claiming the economic rights central to the emerging global normative charter while challenging the restrictive membership regimes that are the norm in the current global system Cabrera also examines the European Union seeing it as a crucial laboratory for studying the challenges inherent in expanding citizen membership
