Deadend to Nigerian Development Okwudibia Nnoli, 1993 The balance of power between an individual and the state they live in is the key to any country's political process Concepts of citizenship reciprocity of rights and citizen's duties intertwine in the struggle for assertion With its largely collective citizenship the civil society in Africa is alive and vibrant But in the face of continuing global recession the present phase of the African crisis is expected to sharpen contradictions within the continent's states New paradigms have to be sought to explain the formations and realities The ten chapters in this book all written by African scholars question the western ethnocentric model of development and look at the wide diversity of African experience From the Ormo cosmic framework and street begging in Nigeria through the role of labour and the part played by wage demands in the African crisis this volume is a major contribution to the debate on Africa's future *The Effect of Religion on the Political Process* Femi Ajayi, 2009-03 Nigerians are troubled about the capability of political institutions in Nigeria to curb religious threats thus maintaining security with minimum damage in preventing the occurrence of religious eruptions The study examines the debate on institutionalizing the Islamic Law referred to as Sharia at the Federal level The book ascertains the impact of religion and ethnicity on the Nigerian political institutions especially the Executive arm of the Government The study examines the 1977 and 1988 Sharia debates at the Constituent Assemblies Specific issues were addressed in the book such as the Organization of Islamic Conference Federal Government appointments religious pilgrimages the use of Arabic on Nigerian currencies public holidays work free Friday and the religious leaders which affected the peaceful coexistence among Nigerians since the 1977 Sharia debate at the Constituent Assembly The findings revealed that Nigerians were discontented with their political leaders over the use of religion in the public places In addition to that some Nigerian religious leaders infiltrated intra and interreligious conflicts in Nigeria However the prospect of Nigeria as a nation lies with the leadership and followership The study concludes that people's mentality determines the type

of leaders they want which is responsible for Nigeria's self-inflicted problems

The Struggles of Post-Independence Nigeria Ucheoma Nwagbara, 2022-02-01 In *The Struggles of Post-Independence Nigeria* Ucheoma Nwagbara argues that despite Nigeria's oil wealth and arable agricultural land Nigerians are not any better today than they were before independence. Nwagbara examines Nigeria's struggles with corruption, reckless government spending, poverty, inequality, crime, and violent insurgency to show how successive Nigerian leadership has failed to utilize the country's enormous natural and human resources to improve citizens' lives, eradicate poverty, and deliver broadly shared prosperity, especially to the middle class and the poor. Through his analysis, Nwagbara demonstrates that the nationalist ideals of dedicated and accountable leadership behind the struggle for independence in Nigeria have been betrayed as the emergent post-colonial leadership cared only for personal survival and gain. Despite these failures, Nwagbara reveals that Nigeria may still have a chance to improve and recover if Nigerians unite and demand real change through political and social activism.

Nationalism and African Intellectuals Toyin Falola, 2004 An examination of the attempt by Western-educated African intellectuals to create a better Africa through connecting nationalism to knowledge from the anti-colonial movement to the present day. This book is about how African intellectuals, influenced primarily by nationalism, have addressed the inter-related issues of power, identity, politics, self-assertion, and autonomy for themselves and their continent from the mid-nineteenth century onward. Their major goal was to create a better Africa by connecting nationalism to knowledge. The results have been mixed, from the glorious euphoria of the success of anti-colonial movements to the depressing circumstances of the African condition as we enter a new millennium. As the intellectual elite is a creation of the Western formal school system, the ideas it generated are also connected to the larger world of scholarship. This world is in turn shaped by European contacts with Africa from the fifteenth century onward, the politics of the Cold War, and the subsequent collapse of the Soviet Union. In essence, Africa and its elite cannot be fully understood without also considering the West and changing global politics. Neither can the academic and media contributions by non-Africans be ignored, as these also affect the ways that Africans think about themselves and their continent. *Nationalism and African Intellectuals* examines intellectuals' ambivalent relationships with the colonial apparatus and subsequent nation-state formations, the contradictions manifested within pan-Africanism and nationalism, and the relation of academic institutions and intellectual production to the state during the nationalism period and beyond. Toyin Falola is the Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas at Austin.

Privatization and Foreign Investments in Nigeria Lawrence Okechukwu Azubuike, 2009 Nigeria's political economy has straddled the ideological divide between socialism and capitalism. The country produces oil, and at some point in its existence it embarked on robust state involvement in the economy. This was marked by the acquisition or establishment of numerous state enterprises. Over the years, the performance of these enterprises was found to be dismal, and as part of the overall reform of the economy, Nigeria has joined the global trend

toward reduction in direct state ownership of enterprises Indeed it has embarked on massive divestment of state interests in once publicly owned firms Besides the universal rationale of efficiency one of the objectives of the privatization exercise in Nigeria is the attraction and retention of foreign investments This work examines the direct and indirect linkage between the government's divestiture of its interests in firms on the one hand and foreign investments in the country on the other hand The book is divided into seven chapters Chapter 1 reviews the political and economic history of Nigeria to set the background and context that necessitated the introduction of the reform package of which privatization is just an aspect Chapter 2 is a discussion of various natures of state involvement in an economy This ranges from mere regulation to active participation The chapter discusses the competing conceptual and ideological theories and tries to situate the Nigerian experience within the broader conceptual dichotomies of capitalism socialism and the via media of mixed economy Chapter 3 is an examination of the meaning and rationales for privatization of state owned enterprises generally and the Nigerian attempts in particular Nigeria's privatization program is an ongoing exercise Yet two distinct attempts are identifiable one which started in 1988 and the reinvigoration of the exercise albeit with new constitutive frameworks in 1999 Thus Chapters 4 and 5 review the legal and institutional frameworks for these two exercises Chapter 6 deals with foreign investments in Nigeria The discussion encapsulates the pros and cons of foreign investments especially in Nigeria Chapter 7 explores the direct and indirect linkages between the privatization program in Nigeria and foreign investments in the country This is particularly apposite because one of the touted objectives of the privatization exercise is the attraction of foreign investments A conclusion follows The work finds that although foreign investments appear to have been indirectly boosted by the privatization exercise foreign investors initially did not show interest in direct acquisition of the shares and other interests being relinquished by the government but that that attitude has been changing gradually Nigeria Julius

Ihonvbere, 2024-11-01 Nigeria is in a long standing crisis Military rule has suffocated civil society and has entrenched a culture of repression corruption and official irresponsibility The reign of Ibrahim Babangida has resulted in near total economic disaster for the country The situation is so bad as Julius Ihonvbere shows that Nigerians are now saying that the days of colonialism were better In this major new study Ihonvbere searches out the sources of Nigeria's predicament He finds them in the country's historical experience and the consequences of that experience since gaining political independence Nigeria has become a society in which its citizens live in fear and its youth emigrate to other countries It is now impossible to survive in the country without belonging to a certain religion living in a particular region having connections with top military officers and being involved with some form of corruption Even involvement in drug pushing or extrajudicial murder is no longer considered a crime but a circumstance of life Such conditions have encouraged the emergence of several popular organizations New alliances of students workers women youths intellectuals professionals and the unemployed transcend ethnic regional and religious differences For the author it is at this emerging level of struggle and

interaction that the future of Nigeria lies This work examines several critical but often overlooked or underresearched aspects of Nigeria s political economy Ihonvbere analyzes in detail Nigeria s foreign policy its economic crisis the military the decay of its educational system and democratization He pays particular attention to the paradoxical connection between IMF World Bank supervised structural adjustment and the struggle for democracy His book will be of interest to experts hi socioeconomic development foreign policy analysts students of military science and scholars of African politics and history

Decolonizing Independence Lynn Schler,2022-10-01 Even before it gained independence in 1960 the process of nation building in Nigeria was plagued by regional ethnic and class conflict Decolonizing Independence Statecraft in Nigeria s First Republic and Israeli Interventions examines how many of the leading figures of what would become Nigeria s First Republic 1963 1966 formed relations with Israel to help navigate the challenges of statecraft and development As Nigeria transitioned to independence the dealings between its political elite and Israeli diplomats helped advance the ideological aspirations economic ventures development schemes and political agendas that defined the era Moving beyond the familiar history of Nigeria s struggle with former colonizer Britain Decolonizing Independence uses Israeli Nigerian diplomatic relations to provide a novel window into the political cultures ideologies and leadership strategies that shaped statecraft in Nigeria Tracing the events and dynamics that increasingly ensnared Israel in the smoldering political landscape of the First Republic this volume sheds light on the postcolonial imaginaries of the Nigerian elite as they attempted to lead a divided nation through the process of decolonization

The Crippled Giant Eghosa E.
