Home Is the Hunter Hans M. Carlson, 2009-05-01 The James Bay Cree lived in relative isolation until 1970 when Northern Quebec was swept up in the political and cultural changes of the Quiet Revolution The ensuing years have brought immense change for the Cree who now live with the consequences of Quebec s massive development of hydroelectricity timber and mineral resources in the North Home Is the Hunter presents the historical environmental and cultural context from which this recent story grows Hans Carlson shows how the Cree view their lands as their home their garden and their memory of themselves as a people By investigating the Cree s relationship with the land and their three hundred years of contact with outsiders the author illuminates the process of cultural negotiation at the foundation of ongoing political and environmental debates This book is more than a story of dam building and industrial logging in northern Quebec It offers a way of thinking about indigenous peoples struggles for rights and environmental justice in Canada and elsewhere

Each year the Acadia Trails Forever project brings more trails up to the rehabilitation standards set forth in the cultural landscape report. Previously neglected features such as iron work, granite steps, bog bridges, log stringers, water bars, rock drains, Bates style cairns, and other historic features are carefully redone or added, complementing Acadia's natural splendor.
