Bilingualism and Bilingual Deaf Education Marc Marschark, Gladys Tang, Harry Knoors, 2014-06-02 In *Bilingualism and Bilingual Deaf Education* volume editors Marc Marschark Gladys Tang and Harry Knoors bring together diverse issues and evidence in two related domains bilingualism among deaf learners in sign language and the written spoken vernacular and bilingual deaf education The volume examines each issue with regard to language acquisition language functioning social emotional functioning and academic outcomes It considers bilingualism and bilingual deaf education within the contexts of mainstream education of deaf and hard of hearing students in regular schools placement in special schools and programs for the deaf and co enrollment programs which are designed to give deaf students the best of both educational worlds The volume offers both literature reviews and new findings across disciplines from neuropsychology to child development and from linguistics to cognitive psychology With a focus on evidence based practice contributors consider recent investigations into bilingualism and bilingual programming in different educational contexts and in different countries that may have different models of using spoken and signed languages as well as different cultural expectations The 18 chapters establish shared understandings of what are meant by bilingualism bilingual education and co enrollment programming examine their foundations and outcomes and chart directions for future research in this multidisciplinary area Chapters are divided into three sections Linguistic Cognitive and Social Foundations Education and Bilingual Education and Co Enrollment Settings Chapters in each section pay particular attention to causal and outcome factors related to the acquisition and use of these two languages by deaf learners of different ages The impact of bilingualism and bilingual deaf education in these domains is considered through quantitative and qualitative investigations bringing into focus not only common educational psychological and linguistic variables but also expectations and reactions of the stakeholders in bilingual programming parents teachers schools and the deaf and hearing students themselves [Indigenous Philosophies of Education Around the World](#) John Petrovic, Roxanne M. Mitchell, 2018-01-12 This volume explores conceptualizations of indigeneity and the ways that indigenous philosophies can and should inform educational policy and practice Beginning with questions and philosophies of indigeneity itself the volume then covers the indigenous philosophies and practices of a range of communities including Sami Maori Walpiri Navajo and Kokama peoples Chapter authors examine how these different ideals can inform and create meaningful educational experiences for communities that reflect indigenous ways of life By applying them in informing a philosophy of education that is particular and relevant to a given indigenous community this study aims to help policy makers and educational practitioners create meaningful educational experiences **Working with Deaf Children** Pamela Knight, Ruth Swanwick, 2013-10-23 This book is essential and accessible reading for all teachers and professionals who are working with sign bilingual deaf children It considers the background and theory underpinning current developments in sign bilingual education and the implications for policy and developing classroom practice Practical teaching

strategies are suggested and evaluated The authors draw on their own experience of working in sign bilingual settings as well as current good practice and relevant research This book is the first UK book that describes sign bilingual education beyond policy It is also the first book to support sign bilingual practice dealing with current educational issues The authors draw together relevant research and practice in sign bilingual education and present practical strategies for teachers

The Handbook of Language Assessment Across Modalities Tobias Haug,Wolfgang Mann,Ute Knoch,2021-12-21 The identification of language problems and subsequent evaluation of interventions depend in part on the availability of useful and psychometrically robust assessments to determine the nature and severity of their problems and monitor progress The purpose of these assessments may be to measure a child s language proficiency that is how they perform relative to other children and whether they have the language level expected and needed for schooling or they may have a specifically clinical purpose to identify the occurrence and nature of a disorder The purpose of assessment is key to the aspects of language targeted in an assessment and the methods used to target these In the case of spoken English there are many language assessments ranging from broad language tests to more narrowly focused measures reflecting the complexity of the language system and its use The Path to Language Danielle Bouvet,1990 Discussing Bilingualism in Deaf Children Charlotte Enns,Jonathan Henner,Lynn McQuarrie,2021-03-31 This collection unites expert scholars in a comprehensive survey of critical topics in bilingual deaf education Drawing on the work of Dr Robert Hoffmeister chapters explore the concept that a strong first language is critical to later learning and literacy development In thought provoking essays authors discuss the theoretical underpinnings of bilingual deaf education teaching strategies for deaf students and the unique challenges of signed language assessment Essential for anyone looking to expand their understanding of bilingualism and deafness this volume reflects Dr Hoffmeister s impact on the field while demonstrating the ultimate resilience of human language and literacy systems **The Routledge Handbook of Language Policy and Planning** Michele Gazzola,François Grin,Linda Cardinal,Kathleen Heugh,2023-09-28 The Routledge Handbook of Language Policy and Planning is a comprehensive and authoritative survey including original contributions from leading senior scholars and rising stars to provide a basis for future research in language policy and planning in international national regional and local contexts The Handbook approaches language policy as public policy that can be studied through the policy cycle framework It offers a systematic and research informed view of actual processes and methods of design implementation and evaluation With a substantial introduction 38 chapters and an extensive bibliography this Handbook is an indispensable resource for all decision makers students and researchers of language policy and planning within linguistics and cognate disciplines such as public policy economics political science sociology and education **The Path to Language** Danielle Bouvet,1990 The author uses strong theoretical and practical arguments to show that deaf children can and should acquire language just as hearing children do provided they experience the same conditions all children need in order to learn to speak For deaf children Sign
