The Virgin Encyclopedia of Sixties Music Colin Larkin, 1997 The aim of this book is to provide a complete handbook of information and opinion about the history of the music of the 1960s There are over 1000 entries on the bands musicians songwriters producers and record labels of this decade everyone who had any significant impact on the development of rock and pop music From the Beatles led British invasion of America to the States own pop figures such as the Beach Boys from the rise of Motown and Atlantic to the arrival of psychedelia this encyclopaedia aims to answer any query about any aspect of 60s music As well as the giants of the decade the book also includes those artists who flourished briefly such as Scott McKenzie and Annette Funicello

Edward MacDowell's European Piano Music Paul Bertagnolli, 2024-09-10 *Edward MacDowell's European Piano Music* is a critical study of the piano music that MacDowell composed during his European sojourn 1876-1888 steeped in reception history and with a special emphasis of programmaticism The book expands current knowledge of MacDowell's childhood in four of the chapters based on his previously uninvestigated sheet music collection thereby achieving a better balance among the stages of MacDowell's life than is evident in most books of the life and works variety Prolific contemporaneous music criticism meticulously preserved in MacDowell's scrapbooks is likewise undervalued in the MacDowell literature but it furnishes penetrating observations about the expressive and programmatic content of numerous compositions especially as it was revealed to critics when MacDowell performed his own works Lastly the book offers explanations for why MacDowell immersed himself in European culture for decades and then at a crucial juncture in his career embraced diverse American heritages and worked toward a conception of a pluralistic music that was

American in a creative sense The book s content and methodology would appeal most directly to specialists within the broad fields of musicology and music theory particularly within American art music and its composers nineteenth century music program music reception history and piano literature **The Living Age** ,1886 Boot and Shoe Recorder ,1897
