The lost gold mine of Juan Mondragón Melaquías Romero, 1990-03 One of the most fascinating folktales of New Mexico concerns a gold mine believed to lie near Truchas Peaks north of Santa Fe Initially discovered by Spanish explorers the mine is said to have been worked by three secretive German immigrants who took its location to their graves Some years later so the story goes the mine was rediscovered by a poor herder named Juan Mondragon who died at the hand of his adulterous wife before he could make its location known Land of Disenchantment Michael L.

Trujillo, 2010-03-16 New Mexico's Española Valley is situated in the northern part of the state between the fabled Sangre de Cristo and Jemez Mountains Many of the Valley's communities have roots in the Spanish and Mexican periods of colonization while the Native American Pueblos of Ohkay Owingeh and Santa Clara are far older The Valley's residents include a large Native American population an influential Anglo or non Hispanic white minority and a growing Mexican immigrant community In spite of the varied populace native New Mexican Latinos or Nuevomexicanos remain the majority and retain control of area politics In this experimental ethnography Michael Trujillo presents a vision of Española that addresses its denigration by neighbors and some of its residents because it represents the antithesis of the positive narrative of New Mexico Contradicting the popular notion of New Mexico as the Land of Enchantment a fusion of race landscape architecture and food into a romanticized commodity Trujillo probes beneath the surface to reveal the causes of social dysfunction brought about by colonization and the transition from a pastoral to an urban economy

Storytelling on the Northern Irish Border Ray Cashman, 2011-09-23 A folklorist explores the storytelling traditions of a small Irish town where local character anecdotes build community across sectarian divides More than quaint local color folklore is a crucial part of life in Aghyaran a mixed Catholic Protestant border community in Northern Ireland Neighbors socialize during wakes and ceilis informal nighttime gatherings without regard to religious ethnic or political affiliation The witty sometimes raucous stories swapped on these occasions offer a window into Aghyaran residents' views of self and other in the wake of decades of violent conflict Through anecdotes about local characters participants explore the nature of community and identity in ways that transcend Catholic or Protestant sectarian histories Ray Cashman analyzes local character anecdotes in detail and argues that while politicians may take credit for the peace process in Northern Ireland no political progress would be possible without ordinary people using shared resources of storytelling and socializing to imagine and maintain community

"So Wise Were Our Elders" John Holmes McDowell, 2014-07-15 So wise were our elders Thus exclaims Mariano

Chicunque himself an elder expressing in a single phrase the thrust of the mythic narrative tradition he simultaneously presents and represents in his storytelling A remarkable body of mythology is documented for the first time in this volume

John Homes McDowell's study revolves around thirty two mythic narratives of the Kams Indians who live in the Sibundoy Valley of the Colombian Andes collected by the author from several renowned Kams storytellers. Each myth is given in the native language with parallel English translations that seek to capture the flavor of the original performances. Textual annotation and commentary assess the grounding of the myths in the language and culture of the Kams indigenous community. Introductory chapters describe the process of transcription and translation and highlight important characteristics of the collection. McDowell stresses the collaborative nature of the enterprise which benefits from the shared vision of the ethnographer and of indigenous consultants who were involved in every step of the process. The narratives are portrayed as a residual mythology in transit toward folktale but still evocative of a traditional cosmos. The myths are much more than inert literary objects and under McDowell's scrupulous analysis they emerge as a storehouse of narrative potential whose performances still have meaning in Kams society and culture today. So Wise Were Our Elders is a companion volume to McDowell's Sayings of the Ancestors. The Spiritual Life of the Subundoy Indians 1989

Handbook of Interview Research Jaber F. Gubrium, James A. Holstein, 2002. The Handbook of Interview Research is the most ambitious attempt yet at examining the place of the interview in contemporary society. Interviewing is the predominant mode of research in the social sciences. It's also the stock in trade of information seekers in organizations and institutions of all kinds as well as in the mass media. Across the board interviews provide today's leading window on the world of experience. The Handbook offers a comprehensive examination of the interview at the cutting edge of information technology. Drawing upon leading experts from a wide range of professional disciplines this book addresses conceptual and technical challenges that confront both academic researchers and interviewers with more applied goals. From interview theory to the nuts and bolts of the interview process the coverage is impressively broad and authoritative. The Handbook of Interview Research is both encyclopedic and thematic. As an encyclopedia it provides extensive discussions of the methodological issues now surrounding interview practice offering a multi faceted assessment of what has become the method of choice for obtaining personal information in today's society. But the Handbook also is a story which spins a particular tale of interviewing one that moves from the commonly recognized individual interview to what is called the interview society. The gist of the presentation is that we can no longer regard the interview as simply an instrument for gathering data but must now also view it an integral part of society.
