Plaster Monuments Mari Lending, 2022-06-14

We are taught to believe in originals In art and architecture in particular original objects vouch for authenticity value and truth and require our protection and preservation The nineteenth century however saw this issue differently In a culture of reproduction plaster casts of building fragments and architectural features were sold throughout Europe and America and proudly displayed in leading museums The first comprehensive history of these full scale replicas *Plaster Monuments* examines how they were produced marketed sold and displayed and how their significance can be understood today *Plaster Monuments* unsettles conventional thinking about copies and originals As Mari Lending shows the casts were used to restore wholeness to buildings that in reality lay in ruin or to isolate specific features of monuments to illustrate what was typical of a particular building style or era Arranged in galleries and published in exhibition catalogues these often enormous objects were staged to suggest the sweep of history synthesizing structures from vastly different regions and time periods into coherent narratives While architectural plaster casts fell out of fashion after World War I Lending brings the story into the twentieth century showing how Paul Rudolph incorporated historical casts into the design for the Yale Art and Architecture building completed in 1963 Drawing from a broad archive of models exhibitions catalogues and writings from architects

explorers archaeologists curators novelists and artists Plaster Monuments tells the fascinating story of a premodernist aesthetic and presents a new way of thinking about history's artifacts **Napoleon and Grouchy** Paul L.

Dawson,2017-06-30 One of the enduring controversies of the Waterloo campaign is the conduct of Marshal Grouchy Given command of a third of Napoleons army and told to keep the Prussians from joining forces with Wellington he failed to keep Wellington and Blcher apart with the result that Napoleon was overwhelmed at Waterloo Grouchy though was not defeated He kept his force together and retreated in good order back to France Many have accused Grouchy of intentionally holding back his men and not marching to join Napoleon when the sound of the gunfire at Waterloo could clearly be heard and he has been widely blamed for Napoleons defeat Now for the first time Grouchys conduct during the Waterloo campaign is analyzed in fine detail drawing principally on French sources not previously available in English The author for example answers questions such as whether key orders did actually exist in 1815 or were they later fabrications to make Grouchy the scapegoat for Napoleons failures Did General Grard really tell Grouchy to march to the sound of the guns Why did Grouchy appear to move so slowly when speed was essential This is a subject which is generally overlooked by British historians who tend to concentrate on the actions of Wellington and Napoleon and which French historians choose not to look at too closely for fear that it might reflect badly upon their hero Napoleon Despite the mass of books written on Waterloo this is a genuinely unique contribution to this most famous campaign This book is certain to fuel debate and prompt historians to reconsider the events of June 1815 Histories of Peirene Betsey Ann Robinson,2011 The Peirene Fountain as described by

its first excavator Rufus B Richardson is the most famous fountain of Greece Here is a retrospective of a wellspring of Western civilization distinguished by its long history service to a great ancient city and early identification as the site where Pegasus landed and was tamed by the hero Bellerophon Spanning three millennia and touching a fourth Peirene developed from a nameless spring to a renowned source of inspiration from a busy landmark in Classical Corinth to a quiet churchyard and cemetery in the Byzantine era and finally from free flowing Ottoman fountains back to the streams of the source within a living ruin These histories of Peirene as a spring and as a fountain and of its watery imagery form a rich cultural narrative whose interrelations and meanings are best appreciated when studied together The author deftly describes the evolution of the Fountain of Peirene framed against the underlying landscape and its ancient medieval and modern settlement viewed from the perspective of Corinthian culture and spheres of interaction Published with the assistance of the Getty Foundation Winner of the 2011 Prose Award for Professional and Scholarly Excellence in the category of Archaeology Anthropology The Prose Awards are given annually by the Professional and Scholarly Publishing division of the American Association of Publishers **Balkan Identities** Maria Todorova,2004-04 Balkan Identities brings together historians anthropologists and literary scholars all working under the shared conviction that the only way to overcome history is to intimately understand it The contributors of Balkan Identities focus on historical memory collective national memory and the political manipulation of

national identities They refine our understanding of memory and identity in general and explore and assess the significance of particular manifestations of Balkan national identities and national memories in the region The essays in *Balkan Identities* grapple with three major problems the construction of historical memory sites of national memory and the mobilization of national identities While most essays focus on a single country e g Croatia Romania Turkey Cyprus Albania Serbia Bulgaria Greece Macedonia they are in dialogue with each other and share an opposition to rigid isolationist identities Illuminating and challenging *Balkan Identities* demonstrates the ever changing nature of a troubled and culturally vibrant region

Empire of Letters Stephanie Ann Frampton, 2019-01-03 Shedding new light on the history of the book in antiquity *Empire of Letters* tells the story of writing at Rome at the pivotal moment of transition from Republic to Empire c 55 BCE 15 CE By uniting close readings of the period's major authors with detailed analysis of material texts it argues that the physical embodiments of writing were essential to the worldviews and self fashioning of authors whose works took shape in them Whether in wooden tablets papyrus bookrolls monumental writing in stone and bronze or through the alphabet itself Roman authors both idealized and competed with writing's textual forms The academic study of the history of the book has arisen largely out of the textual abundance of the age of print focusing on the Renaissance and after But fewer than fifty fragments of classical Roman bookrolls survive and even fewer lines of poetry Understanding the history of the ancient Roman book requires us to think differently about this evidence placing it into the context of other kinds of textual forms that survive in greater numbers from the fragments of Greek papyri preserved in the garbage heaps of Egypt to the Latin graffiti still visible on the walls of the cities destroyed by Vesuvius By attending carefully to this kind of material in conjunction with the rich literary testimony of the period *Empire of Letters* exposes the importance of textuality itself to Roman authors and puts the written word back at the center of Roman literature
