In this book, Sierra shares her experiences and insights on a variety of topics including: The challenges of being a teenager with a disability, The importance of education and self-advocacy, The power of friendship and family, The importance of setting goals and dreams, The challenges and rewards of living an independent life. Sierra's story is a powerful reminder that we should never give up on our dreams no matter what challenges we face. She is a role model for all of us and her story will inspire you to achieve your full potential. This book is a must-read for anyone who is interested in the disability experience. Against the Grain Bradley B. Walters, 2008 To rise to the increasingly urgent challenge of understanding the relationship between human beings and the environment, scholars need to step back and re-evaluate their basic premises about how current explanations should shape the form and content of their research. *Against the Grain* addresses a variety of topics in the field of human ecology, including ecological anthropology, evolutionary psychology, environmental history, and geography, and challenges scholars to re-think the adequacy of their methods and assumptions. Andrew P. Vayda concludes the volume with a critical commentary on these issues and more widely on the subject of explanation. The result is an extremely useful and provocative primer for thinking about re-evaluating and rectifying scholarly research.
