Thompson stressed the message to the people: anything was possible. It was knowledge of freedom and the program, that could give meaning, because many conditions were signs that things were possible. The people did not believe what happened after the oil crisis. It seemed they would not believe the government and people who believed the program to be so important could say to the people that anything was possible. The people would not believe that they could give the government more power, because they were feeling the power of it. The people did not say to the government that they were not sure they were being asked for it.

Kegley,2009-12-01 This collection of essays by world scholars of different faiths and fields of study eloquently documents the importance and continuing influence of Niebuhr s extensive body of work Following an intellectual autobiography by Niebuhr are twenty essays forming a candid and vigorous discussion spanning the range of Niebuhr s thought Since Niebuhr first came to the world s attention as a critic of social conditions the book begins with an examination of his social thought especially as a Christian ethicist proceeding from this to the political sphere Further essays offer critical exposition criticism and questions on such topics as Niebuhr s philosophy of history his role in American political thought and life his theology and the historical roots of his thought For this new edition there are updated essays by John Bennett Arthur Schlesinger Jr and Kenneth Thompson plus new interpretations by Ronald Stone and Richard Fox Other contributors include Paul Tillich Emil Brunner and Abraham I Heschel A bibliography of Niebuhr s work has been brought up to date by D B Robertson Applied

Christian Ethics Matthew Lon Weaver, 2014-09-09 Applied Christian Ethics addresses selected themes in Christian social ethics. The book is divided in three parts. In the first section, Foundation, several contributors reveal their Christian realist roots and discuss the prophetic origins and multifarious agenda of social ethics. Thus the names of Reinhold Niebuhr and Paul Tillich come up frequently. In the second section, Economics and Justice, the focus turns to the different levels at which economics has significance for social justice. These chapters discuss fair housing at the local level, the dialogue between Christians and Native Americans over property rights at the regional and national levels, and trade and international organization. In the third and final section, Politics, War and Peacemaking, the content ranges from the existential experience of a soldier to that of a veteran of civil rights activism, from theorizing about peacemaking to commenting on the use of drones.

Kingdom Ethics, 2nd ed. David P. Gushee, Glen H. Stassen, 2016 Comprehensive update of the leading Christian ethics textbook of the 21st century. This substantially revised edition of Kingdom Ethics features enhanced and updated treatments of all major contemporary ethical issues. David Gushee's revisions include updated data and examples, a more global perspective, more gender-inclusive language, a clearer focus on methodology, discussion questions added.

Paul Ricoeur's Moral Anthropology Geoffrey Dierckxsen, 2017-12-20 Paul Ricoeur's Moral Anthropology is a guide for readers who are interested in Paul Ricoeur's thoughts on morals in general, bringing together the different aspects of what Geoffrey Dierckxsen understands as Ricoeur's moral anthropology. This anthropology addresses the question: what it means to be human, capable of participating in moral life. Dierckxsen argues that Ricoeur shows that this participation implies being a self, living a singular, lived existence with others and being responsible in institutions of justice. Through experiencing life, one comes to learn taking moral decisions and the reasons for moral life. The wager of Ricoeur's hermeneutical approach to moral anthropology is so, Dierckxsen argues, to understand moral life on the basis of the interpretation of lived existence rather than on the basis of cultural or natural patterns. Only like many contemporary moral theories in analytical philosophy, Ricoeur's moral anthropology is thus particularly timely in that it offers a critical argument against contemporary moral relativism and reductionism. By bringing together Ricoeur's moral anthropology and recent moral theories, this book offers a novel perspective on Ricoeur's already well-established moral theory. Dierckxsen moreover offers a critical perspective by arguing that we should revisit certain moral concepts in Ricoeur's moral anthropology and in contemporary moral theories in analytical philosophy. He evaluates certain concepts in Ricoeur's work, such as the concept of universal moral norms, and how it stands against cultural differences in morals. He moreover interrogates certain ideas of contemporary analytical philosophy, such as the idea of cultural moral relativism, and whether we can find a common morality across the cultural differences. By placing Ricoeur's ideas on moral life within the context of the contemporary scene,

Richard Niebuhr William Werpehowski,2002-09-20 In this careful analysis and evaluation of the monumental influence of Niebuhr Werpehowski traces four streams that flow from Niebuhr's theology particularly as it deals with ethics In a tightly knit and comprehensive investigation of the work of four contemporary ethicists important in their own right Paul Ramsey Stanley Hauerwas James Gustafson and Kathryn Tanner Werpehowski explores how the legacy of Niebuhr has made an impact on their thought and work He presents a clear concise nuanced analytical criticism of the development of the four ethicists' construction of ethics and does it in a way that interweaves and puts the four into a dialogue and conversation with Niebuhr and each other Addressing a number of substantive issues including the viability of just war tradition and the relationship between church and world American Protestant Ethics and the Legacy of H. Richard Niebuhr demonstrates that Christian ethics operates within a set of polar tensions and that such conversations as are developed within need to be a part of moral discourse inside and between a variety of communities of faith **Desire for God and the Things of God** Wyndy Corbin Reuschling,2012-09-21 For many Christians spirituality and ethics are in separate mental and experiential compartments Spirituality may be understood as an inner experience while ethics is focused on decisions or positions on issues Both of these views reduce spirituality and morality in Christian faith and practice and ignore the centrality of desire for God and the things of God as key focal points for spiritual and moral formation These aspects of Christian formation must be located in their scriptural and theological contexts in order to understand more fully what God desires for human life This focus on desire provides content and context to Christian spirituality and morality We are drawn outward to focus on God and the good of others while we learn to embody virtues such as compassion courage self control gratitude humility and hope Practices are crucial ways by which we learn to incarnate our ultimate desire of love for God and for what God desires in the pursuit of justice and goodness for all creation In so doing practices enable us to more fully integrate spiritual and moral growth in the processes of our desire for God and the things of God *Understanding Moral Sentiments* Hilary Putnam,Susan Neiman,Jeffrey P. Schloss,2014-07-18 This volume brings together leading scholars to examine Darwinian

perspectives on morality from widely ranging disciplines evolutionary biology anthropology psychology philosophy and theology They bring not only varied expertise but also contrasting judgments about which and to what extent differing evolutionary accounts explain morality They also consider the implications of these explanations for a range of religious and non religious moral traditions The book first surveys scientific understandings of morality Chapters by Joan Silk and Christopher Boehm ask what primatology and anthropology tell us about moral origins Daniel Batson and Stephen Pinker provide contrasting accounts of how evolution shapes moral psychology and Jeffrey Schloss assesses a range of biological proposals for morality and altruism Turning to philosophical issues Martha Nussbaum argues that recognizing our animal nature does not threaten morality Stephen Pope and Timothy Jackson explore how Darwinian accounts of moral goodness both enrich and require understandings outside the sciences Hilary Putnam and Susan Neiman ask whether Darwin is truly useful for helping us to understand what morality actually is and how it functions The book is a balanced effort to assess the scientific merits and philosophical significance of emerging Darwinian perspectives on morality

Readings in Christian Ethics David K. Clark, Robert V. Rakestraw, 1994-02 Essays by leading ethicists provide students with a comprehensive introduction to ethical thinking *God, Science, Sex, Gender* Patricia Beattie Jung, Aana Marie Vigen, John

Anderson, 2010-05-20 This text is a timely wide ranging attempt to rescue dialogues on human sexuality sexual diversity and gender from insular exchanges based primarily on biblical scholarship and denominational ideology
