**Margaret Atwood's fairy-tale sexual politics** Sharon Rose Wilson, 1993

**Religious Politics Plaguing the 21st Century** Mike Morra, 2013-07 This book is about evil To assume that all heinous crime is committed by the mentally ill is a 20th century myth not unlike the Medieval myth that alleged that sin causes physical disease Most all heinous crime as in the Tucson massacre the Islamic bombings and the urban murder rate are caused by the evil possessed not the emotionally unstable In the Biblical account Mark 5 1 20 Jesus handled the issue of the evil possessed as compared and contrasted to the mentally ill During the first half of the 20th

century 100 million innocent men women and children were executed slaughtered and murdered en masse by the godless leaderships of Euro Asia These dictators were atheists not mentally deranged By choice they became obsessed with the forcefield of socio political wickedness Accordingly the 21st century state of mind finds itself dealing with the immorality of the lunacy of evil as a spiritual reality not rationalizing it away with 20th century s psychobabble of alleged societal injustice

**Putting Liberalism in Its Place** Paul W. Kahn,2009-01-10 In this wide ranging interdisciplinary work Paul W Kahn argues that political order is founded not on contract but on sacrifice Because liberalism is blind to sacrifice it is unable to explain how the modern state has brought us to both the rule of law and the edge of nuclear annihilation We can understand this modern condition only by recognizing that any political community even a liberal one is bound together by faith love and identity Putting Liberalism in Its Place draws on philosophy cultural theory American constitutional law religious and literary studies and political psychology to advance political theory It makes original contributions in all these fields Not since Charles Taylor s The Sources of the Self has there been such an ambitious and sweeping examination of the deep structure of the modern conception of the self Kahn shows that only when we move beyond liberalism s categories of reason and interest to a Judeo Christian concept of love can we comprehend the modern self Love is the foundation of a world of objective meaning one form of which is the political community Arguing from these insights Kahn offers a new reading of the liberalism communitarian debate a genealogy of American liberalism an exploration of the romantic and the pornographic a

new theory of the will and a refoundation of political theory on the possibility of sacrifice Approaching politics from the perspective of sacrifice allows us to understand the character of twentieth century politics which combined progress in the rule of law with massive slaughter for the state Equally important this work speaks to the most important political conflicts in the world today It explains why American response to September 11 has taken the form of war and why for the most part Europeans have been reluctant to follow the Americans in their pursuit of a violent sacrificial politics Kahn shows us that the United States has maintained a vibrant politics of modernity while Europe is moving into a postmodern form of the political that has turned away from the idea of sacrifice Together with its companion volume Out of Eden Putting Liberalism in Its Place finally answers Clifford Geertz's call for a political theology of modernity

**The Politics of Being Mortal** Alfred G. Killilea, 2021-09-15 While much has been written in recent years on death and dying there has been little treatment of how people cope with death in the absence of religious belief and virtually no examination of the potential political repercussions of a wider acceptance of mortality in American society Alfred Killilea s strikingly original book revolves around a central irony though the subject of death has been largely shunned in American culture lest it rob life of meaning and contentment confronting death may be crucial to enable us as individuals and as a society to affirm life even to survive in this nuclear age Killilea argues that the denial of death has fostered a disavowal of limits in general and that a greater awareness of our mortality would provide a much needed catalyst for change in our political response to narcissism and nuclearism He traces how from John Locke to the present a politics and an economics based on growth for the sake of growth have required an avoidance of human vulnerability Our confrontation with mortality Killilea argues would goad us to question our roles as mere acquirers and to take more seriously the need for equality and community in our society In charting how we can come to terms with death and how profoundly our attitudes toward death affect our attitudes toward politics Killilea vides lucid and authoritative commentaries on such provocative thinkers as Earnest Becker Robert Jay Lifton Michael Novak Daniel Bell Christopher Lasch and Jonathan Schell Scholars in many fields as well as interested lay readers will find the treatment of these issues and thinkers compelling This easily accessible book is an urgent reminder that the most valuable spur to the examined life extolled by Socrates is the knowledge that we will die
