Love Intimacy From Birth To Death:

ENDLESS LOVE, ROMANCE , AND INTIMACY Bukunya Siraje, As a society we are embarrassed by love We treat it as if it were an obscenity We reluctantly admit to it Even saying the word makes us stumble and blush Love is the most important thing in our lives a passion for which we would fight or die and yet we re reluctant to linger over its names Without a supple vocabulary we can t even talk or think about it directly As the title **ENDLESS LOVE ROMANCE AND intimacy** indicates we want to live in a culture where love can flourish We yearn to end the lovelessness that is so pervasive in our society This book tells us how to return to love **ENDLESS LOVE ROMANCE AND intimacy** provides radical new ways to think about the art of loving offering a hopeful joyous vision of love s transformative power it lets us know what we must do to love again Gathering love s wisdom it lets us know what we must do to be touched by love s grace **THERE ARE NOT** many public discussions of love in our culture right now At best popular culture is the one domain in which our longing for love is talked about Movies music magazines and books are the place where we turn to hear our yearnings for love expressed Yet the talk is not the life affirming discourse of the sixties and seventies which urged us to believe All you need is love Nowadays the most popular messages are those that declare the meaninglessness of love its irrelevance A glaring ex ample of this cultural shift was the tremendous popularity of Tina Turner s song with the title boldly declaring What s Love Got to Do with it I was saddened and appalled when I interviewed a well known female rapper at least twenty years my junior who when asked about love responded with biting sarcasm Love what s that have never had any love in my life Youth culture today is cynical about love And that cynicism has come from their pervasive feeling that love can not be found Expressing this concern in When All You ve ever Wanted isn t Enough Harold Kushner writes lam afraid that we may be raising a generation of young people who will grow up afraid to love afraid to give them selves completely to another person because they will have seen how much it hurts to take the risk of loving and have it not work out am afraid that they will grow up looking for intimacy without risk for pleasure without significant emotional investment They will be so fearful of the pain of disappointment that they will forgo the possibilities of love and joy Young people are cynical about love Ultimately cynicism is the great mask of the disappointed and betrayed heart When I travel around the nation giving lectures about ending racism and sexism audiences especially young listeners become agitated when I speak about the place of love in any movement for social justice

The Death Penalty, Volume II Jacques Derrida, 2017-05-31 In the first volume of his extraordinary analysis of the death penalty Jacques Derrida began a journey toward an ambitious end the first truly philosophical argument against the death penalty Exploring an impressive breadth of thought he traced a deeply entrenched logic throughout the whole of Western philosophy that has justified the state s right to take a life He also marked literature as a crucial place where this logic has been most effectively challenged In this second and final volume Derrida builds on these analyses toward a definitive argument against capital punishment Of central importance in this second volume is Kant s explicit justification of the death penalty in the *Metaphysics of Morals* Thoroughly deconstructing Kant s position which holds the death penalty as exemplary of the eye for an eye Talionic law Derrida exposes numerous damning contradictions and exceptions Keeping the current death penalty in the United States in view he further explores the anesthesial logic he analyzed in volume one addressing the themes of cruelty and pain through texts by Robespierre and Freud reading Heidegger and in a fascinating improvised final session the nineteenth century Spanish Catholic thinker Donoso Cort s Ultimately Derrida shows that the rationality of the death penalty as represented by Kant involves an imposition of knowledge and calculability on a fundamental condition of non knowledge that we don t otherwise know what or when our

deaths will be In this way the death penalty acts out a phantasm of mastery over one s own death Derrida s thoughts arrive at a particular moment in history when the death penalty in the United States is the closest it has ever been to abolition and yet when the arguments on all sides are as confused as ever His powerful analysis will prove to be a paramount contribution to this debate as well as a lasting entry in his celebrated oeuvre

Amatoria Jason Potter,2022-01-04 Amatoria is partly a disclosure partly a veil and partly a revelation incorporating the poetic discovery of God as experienced by the living and the dying alike Man knows nothing of death and love until he is clothed in such yet God is always willing to facilitate the transport of life out of one and into the other Amatoria is sublime in its obscurity It has been well said that the devil led the author a little way farther up in the medulla of the brain But it is enough to know that in the self indulgent disorder of the 21st century God still kills the old way

Demystifying Death and Life After Rajendra Tiwari,2025-07-30 The fear of death is only due to ignorance Whoever knows this secret removes the veil of the unknown and becomes enlightened with the light of knowledge The content described in the book is not imaginary on the contrary it is replete with actual experiences Attempt has been made to gather some knowledge and to get acquainted with death and its process Whether there is extreme unbearable discomfort at the last stage has been answered As a result of interviews with the spirits one message repeatedly received that is Mend your ways otherwise there are problems at the time and after death The purpose of this book is to know what we should do so that death is a pleasant experience Quotes of the principle of Karmayoga as mentioned in Shrimad Bhagwat Geeta have also been described

Getting Intimate Linn Sandberg,2011-04-08 This thesis focuses on the intersections of masculinity old age and sexuality from the perspectives of old men themselves how they understand and experience sex and sexuality in later life The study uses qualitative in depth interviews and body diaries an exploratory method that asked men write about their bodies in everyday life Twenty two men born between 1922 and 1942 participated in the study The aim of the thesis is two fold firstly to study sexual subjectivities of old men how old men articulate and make meaning around sexuality in later life Secondly the study aims to explore theoretically what a male body may become in relation to ageing in what ways the ageing male body could be a site for rethinking masculinity and the male body This aim was inspired by feminist theories in dialogue with the Deleuzian concept becoming Similarly to gender age is understood to take shape and become intelligible in social and cultural contexts Furthermore the thesis stresses the significance of the specificities of the ageing body to the shaping of masculinity sexuality and subjectivity The body is therefore discussed as an open materiality beyond the binaries of culture and nature materiality This thesis discusses the concepts intimacy and touch as central to how old men s sexual subjectivities take shape allowing for alternative conceptualisations of sexuality beyond erection and intercourse Intimacy and touch are understood and discussed in several different ways By orienting themselves to touch and intimacy the old men emerged as more mature unselfish and with more serene sexual desires This also involved them distancing themselves from the younger man other men whom they perceived as more selfish inconsiderate and with

stronger sexual desires Intimacy and touch could in this respect be understood as resources for shaping desirable heterosexual masculinity An orientation to intimacy and touch enabled old men to appear as neither asexual nor as dirty old men But the study also suggests that a turn to intimacy and touch may open up possibilities for rethinking and reconfiguring sexuality masculinity and the male body The ageing body then need not be understood as an obstacle but as an enabling site that provides opportunities for intimacy and touch Moreover the thesis presents affirmative old age as an alternative conceptualisation of old age beyond both the discourses of successful ageing and the discourses of old age as negativity and decline As a theory of difference and bodily specificity affirmative old age may be of interest for further feminist theorising

Fifty More Sonnets on Love, Life, Death, Rebirth, Honor, Humor and MORE Larry Lynn, 2010-11-10 This collection represents efforts to persuade any reader that the sonnet does not have to be a form impossible to emulate nor too difficult to understand It should be looked upon as a challenge to fit a universe of emotions into a particular framework simple in its limitations but as complex in its potential as the great writers before had made them through the brilliance of their individual genius Themes are as different as the experiences of the writer from day to day from birth to death and all the time in between The language need not be lofty nor does it need to reach down to the vulgar It can borrow from the past and delve into that of the future It can keep the rhyme schemes of those who made them famous or it may create new ones for any reason or none at all If sonnets are not worth reading they would never have been made Sex, Money, Happiness, and Death Manfred F.R. Kets de Vries, 2016-01-18 The four main tenets of life are explored in this unique new book that examines the issues that touch each executive or for that matter people in general Based on his experiences as a psychoanalyst professor and leadership coach the author explores how Sex Money Happiness and Death affect our work and our lives in general **Life, Death, and Subjectivity** Stan van Hooft, 2004-01-01 This book presents an exploration of concepts central to health care practice In exploring such concepts as Subjectivity Life Personhood and Death in deep philosophical terms the book aims to draw out the ethical demands that arise when we encounter these phenomena and also the moral resources of health care workers for meeting those demands The series Values in Bioethics makes available original philosophical books in all areas of bioethics including medical and nursing ethics health care ethics research ethics environmental ethics and global bioethics America, 1915 *The Transforming Fire of Divine Love* John H. Armstrong, 2025-03-01 Most Bible readers know God is love 1 John 4 8 16 And most have heard the words of John 3 16 God so loved the world perhaps the best known verse in the entire Bible But few readers realize that these are perhaps the most daring verses in all the Scripture Why They tell us who God is and why we can trust him Yet very few Christians realize how much of what they believe about the nature of God is rooted in ideas foreign to divine love How did this happen What can be done to change how we can relate to the God who is perfect and inexhaustible love John Armstrong shares a deeply personal story of his long slow journey to know and experience God as a compassionate and loving Father As a pastor trained in evangelical theology he

came to know and experience the teaching of the whole church about God thus the story he tells will inform how you can know the God who is amazing love This readable primer will help you develop a doctrine that can free you from guilt fear and many misconceptions we have about God You will see that what you believe about God will truly affect everything else you believe *Pilgrimage of Love* Joy Ann McDougall,2005-10-13 This book engages one of the liveliest theological debates at the turn of the twenty first century the significance of the doctrine of the Trinity to the Christian concept of God and to its life of faith **Being in Christ** Hans Burger,2009-01-01 Being in Christ is a central theme in the message of the gospel It is central for understanding the relation of Christian believers and the church with Jesus Christ their Lord It determines the identity of a Christian It is helpful for understanding the presence of Christ and his salvation in the present It can be developed as an element of a theological ontology Finally it is a theme with a great integrating power In this book the theme being in Christ is analyzed in different perspectives The attention is focused on the reality of being in Christ its ontological implications First two representatives of the Reformed tradition are investigated the English Puritan John Owen and the Dutch Neo Calvinist Herman Bavinck Second a reconstruction of the Pauline and Johannine perspectives on being in Christ is provided Third the theme is examined in the work of the English ethicist Oliver O Donovan and the German Swiss theologian Ingolf U Dalferth In the final chapter the author gives his own systematic theological proposal of a concept of being in Christ

Life and Death in Freud and Heidegger Havi Carel,2006-01-01 Life and Death in Freud and Heidegger argues that mortality is a fundamental structuring element in human life The ordinary view of life and death regards them as dichotomous and separate This book explains why this view is unsatisfactory and presents a new model of the relationship between life and death that sees them as interlinked Using Heidegger s concept of being towards death and Freud s notion of the death drive it demonstrates the extensive influence death has on everyday life and gives an account of its structural and existential significance By bringing the two perspectives together this book presents a reading of death that establishes its significance for life creates a meeting point for philosophical and psychoanalytical perspectives and examines the problems and strengths of each It then puts forth a unified view based on the strengths of each position and overcoming the problems of each Finally it works out the ethical consequences of this view This volume is of interest for philosophers mental health practitioners and those working in the field of death studies
