The neglect is of two kinds. Firstly, there are the indulgent people who have neglected the body. They have no experience of life other than eating, drinking, and wearing clothes. They have neglected the body, misused it, foolishly wasted it; they have ruined their instrument, their veena. If a musical instrument, for example, a veena, is ruined, music cannot arise out of it. Music is an altogether different thing from the veena; music is one thing, the veena is another, but without the veena, music cannot arise. The Conservator, 1906

The Gifts of the Small Church Jason Byassee, 2010. Why the small to mid-sized church remains God's best means to make disciples of Jesus Christ. *Marriage, a History* Stephanie Coontz, 2006-02-28. Just when the clamor over traditional marriage couldn't get any louder, along comes this groundbreaking book to ask: What tradition? In *Marriage, a History*, historian and marriage expert Stephanie Coontz takes readers from the marital intrigues of ancient Babylon to the torments of Victorian lovers to demonstrate how recent the idea of marrying for love is, and how absurd it would have seemed to most of our ancestors. It was when marriage moved into the emotional sphere in the nineteenth century, she argues, that it suffered as an institution, just as it began to thrive as a personal relationship. This enlightening and hugely entertaining book brings intelligence, perspective, and wit to today's marital debate. Philosophy of Love, Sex, and Marriage Raja Halwani, 2010-05-26. How is love different from lust or infatuation? Do love and marriage really go together like a horse and carriage? Does sex have any necessary connection to either? And how important are love, sex, and marriage to a well-lived life? In this lively, lucid, and comprehensive textbook, Raja Halwani pursues the philosophical questions inherent in these three important aspects of human relationships, exploring the nature, uses, and ethics of romantic love, sexuality, and marriage. The book is structured in three parts. Love begins by examining how romantic love differs from other types of love, such as friendship and parental love. It asks which properties of love are essential, whether people have a choice in whom they love, and whether lovers have moral obligations to one another that differ from those they owe to others. Sex demonstrates the difficulty in defining sex and the sexual, and examines what constitutes good and bad sex in terms of pleasure, naturalness, and moral permissibility. It offers theoretical and applied ethical approaches to a wide range of sexual phenomena. Marriage traces the history of the institution and describes the various forms in which marriage exists and the reasons why people marry. It also surveys accounts of why people should or should not marry and introduces the main arguments for and against gay marriage. Features include suggestions for further reading, an online eResource site with downloadable discussion questions, a clear jargon-free writing style.
