David to Delacroix Dorothy Johnson, 2011-02-14 In this beautifully illustrated study of intellectual and art history Dorothy Johnson explores the representation of classical myths by renowned French artists in the late eighteenth and early nineteenth centuries demonstrating the extraordinary influence of the natural sciences and psychology on artistic depiction of myth Highlighting the work of major painters such as David Girodet Gerard Ingres and Delacroix and sculptors such as Houdon and Pajou David to Delacroix reveals how these artists offered innovative reinterpretations of myth while incorporating contemporaneous and revolutionary discoveries in the disciplines of anatomy biology physiology psychology and medicine The interplay among these disciplines Johnson argues led to a reexamination by visual artists of the historical and intellectual structures of myth its social and psychological dimensions and its construction as a vital means of understanding the self and the individual's role in society This confluence is studied in depth for the first time here and each chapter includes rich examples chosen from the vast number of mythological representations of the period While focused on mythical subjects French Romantic artists Johnson argues were creating increasingly modern modes of interpreting and meditating on culture and the human condition **The Age of Watteau, Chardin, and Fragonard** Musée des beaux-arts du Canada (Ottawa), Colin B. Bailey, Thomas Gaehtgens, Philip Conisbee, Thomas W. Gaehtgens, National Gallery of Canada, Gemäldegalerie (Berlin, Germany), 2003-01-01 Leading scholars shed light on the development of genre painting in this heavily illustrated volume *The Mobile Image from Watteau to Boucher* David Pullins, 2024-08-13 This book provides a new way of thinking about eighteenth century French art and visual culture by prioritizing production over reception Abandoning the ideologically driven discourse that distinguished fine from decorative art between the 1690s and 1770s *The Mobile Image* reveals how the two have been inextricably bound from the earliest stages of artistic instruction through the daily life of painters workshops In this study author David Pullins defines artisanal and artistic means of learning seeing and making through a system of mobile images motifs that were effectively engineered for mobility and designed never to be definitive always awaiting replication and circulation He examines the careers of Antoine Watteau Jean Baptiste Oudry and François Boucher situating them against a much broader cast of actors such as printmakers publishers anonymous studio assistants and architects among others to place eighteenth century painting within a wider context of media and making

Cultivated Power Elizabeth Hyde, 2005-03-07 *Cultivated Power* explores the collection cultivation and display of flowers in early modern France at the historical moment when flowering plants many of which were becoming known in Europe for the first time piqued the curiosity of European gardeners and botanists merchants and ministers dukes and kings Elizabeth

Hyde reveals how flowers became uniquely capable of revealing the curiosity reason and taste of those elite men who engaged in their cultivation The cultural and increasingly political value of such qualities was not lost on royal panegyrists who seized upon the new meanings of flowers in celebrating the glory of Louis XIV Using previously unexplored archival sources Hyde recovers the extent of floral plantations in the gardens of Versailles and the sophisticated system of nurseries created to fulfill the demands of the king s gardeners She further examines how the successful cultivation of those flowers made it possible for Louis XIV to demonstrate that his reign was a golden era surpassing even that of antiquity Cultivated Power expands our knowledge of flowers in European history beyond the Dutch tulip mania and restores our understanding of the importance of flowers in the French classical garden The book also develops a fuller perspective on the roles of gender rank and material goods in the age of the baroque Using flowers to analyze the movement of culture in early modern society Cultivated Power ultimately highlights the influence of curious florists on the taste of the king and the extension of the cultural into the realm of the political

The Learned Draftsman Édouard Kopp, 2017-01-10 The celebrated French artist Edme Bouchardon 1698 1762 is primarily known as a sculptor today but his contemporaries widely lauded him as a draftsman as well Talented highly innovative and deeply invested in the medium Bouchardon made an important contribution to the European art and culture of his time and in particular to the history of drawing Around two thousand of his drawings survive most of which bear no relation conceptual or practical to his sculpture yet remarkably little scholarly attention has been paid to this aspect of his oeuvre This is the first book length work devoted to the artist s draftsmanship since 1910 Ambitious in scope this volume offers a compelling narrative that effectively covers four decades of Bouchardon s activity as a draftsman from his departure for Rome in 1723 as an aspiring student to his death in Paris in 1762 by which time he was one of the most renowned artists in Europe His accomplished and dynamic style is analyzed and copiously illustrated in a series of five interrelated chapters that serve as case studies each of which focuses on a coherent group of drawings from a particular period of Bouchardon s career
