prism through which Green's fiction from his earliest published short stories as an Eton schoolboy through to his last dialogic novels of the 1950s can be seen as a coherent subtle and humorous critique of the tension between class style and realism in the first half of the twentieth century. The study extends on going critical recognition that Green's work is central to the development of the novel from the twenties to the fifties acting as a vital bridge between late modernist inter war post war and postmodernist fiction. The overarching contention is that the shifting and destabilizing nature of Green's oeuvre sets up a predicament similar to that confronted by theorists of the everyday. Consequently each chapter acknowledges the indeterminacy of the writing whether it be the non singular functioning or malfunctioning of the name the open ended purposefully ambiguous nature of its symbols the shifting cinematic nature of Green's prose style the sensitive but resolutely unsentimental depictions of the working classes and the aristocracy in the inter war period the impact of war and its inconsistent irruptions into daily life or the ways in which moments or events are rapidly subsumed back into the flux of the everyday their impact left uncertain. Critics have historically offered up singular readings of Green's work or focused on the poetic or recreative qualities of certain works particularly those of the 1940s. Green's writing is undoubtedly poetic and extraordinary but this book also pays attention to the clichéd meta textual and uneventful aspects of his fiction.

Translating Style Tim Parks, 2014-06-03 Arising from a dissatisfaction with blandly general or abstrusely theoretical approaches to translation this book sets out to show through detailed and lively analysis what it really means to translate literary style. Combining linguistic and lit crit approaches it proceeds through a series of interconnected chapters to analyse translations of the works of D H Lawrence Virginia Woolf James Joyce Samuel Beckett Henry Green and Barbara Pym. Each chapter thus becomes an illuminating critical essay on the author concerned showing how divergences between original and translation tend to be of a different kind for each author depending on the nature of his or her inspiration. This new and thoroughly revised edition introduces a system of back translation that now makes Tim Parks highly praised book reader friendly even for those with little or no Italian. An entirely new final chapter considers the profound effects that globalization and the search for an immediate international readership is having on both literary translation and literature itself.

Modernism and the Aristocracy Adam Parkes, 2023-06-14 During a modern age that saw the expansion of its democracy the fading of its empire and two world wars Britain's hereditary aristocracy was pushed from the centre to the margins of the nation's affairs. Widely remarked on by commentators at the time this radical redrawing of the social and political map provoked a newly intensified fascination with the aristocracy among modern writers. Undone by history the British aristocracy and its Anglo Irish cousins were remade by literary modernism. *Modernism and the Aristocracy* Monsters of English Privilege is about the results of that remaking. The book traces the literary consequences of the modernist preoccupation with aristocracy in the works of Elizabeth Bowen Ford Madox Ford Aldous Huxley D H Lawrence Evelyn Waugh Rebecca West and others writing in Britain and Ireland in the first half of the twentieth century. Combining an

historical focus on the decades between the two world wars with close attention to the verbal textures and formal structures of literary texts Adam Parkes asks What did the decline of the British aristocracy do for modernist writers What imaginative and creative opportunities did the historical fate of the aristocracy precipitate in writers of the new democratic age Exploring a range of feelings affects and attitudes that modernist authors associated with the aristocracy in the interwar period from stupidity boredom and nostalgia to sophistication cruelty and kindness the book also asks what impact this subject matter has on the form and style of modernist texts and why the results have appealed to readers then and now In tackling such questions Parkes argues for a reawakening of curiosity about connections between class status and literature in the modernist period

The Extinct Scene Thomas S. Davis, 2015-12-08 In 1935 the English writer Stephen Spender wrote that the historical pressures of his era should turn the reader's and writer's attention outwards from himself to the world Combining historical formalist and archival approaches Thomas S Davis examines late modernism's decisive turn toward everyday life locating in the heightened scrutiny of details textures and experiences an intimate attempt to conceptualize geopolitical disorder *The Extinct Scene* reads a range of mid century texts films and phenomena that reflect the decline of the British Empire and seismic shifts in the global political order Davis follows the rise of documentary film culture and the British Documentary Film Movement especially the work of John Grierson Humphrey Jennings and Basil Wright He then considers the influence of late modernist periodical culture on social attitudes and customs and presents original analyses of novels by Virginia Woolf Christopher Isherwood and Colin MacInnes the interwar travel narratives of W H Auden Christopher Isherwood and George Orwell the wartime gothic fiction of Elizabeth Bowen the poetry of H D the sketches of Henry Moore and the postimperial Anglophone Caribbean works of Vic Reid Sam Selvon and George Lamming By considering this group of writers and artists Davis recasts late modernism as an art of scale by detailing the particulars of everyday life these figures could better project large scale geopolitical events and crises

The Origins of Dislike Amit Chaudhuri, 2018-09-20 Strategic thinking for a writer articulates itself as dislike and as allegiance In this wonderfully rich and diverse collection of essays Amit Chaudhuri explores the way in which writers understand and promote their own work in antithesis to writers and movements that have gone before Chaudhuri's criticism disproves and questions several assumptions that a serious and original artist cannot think critically in a way that matters that criticism can't be imaginative and creative work contain radical argumentation that a writer reflecting on their own position and practice cannot be more

than a testimony of their work but open up how we think of literary history and reading Illuminating new ways of thinking about Western and non Western traditions prejudices and preconceptions Chaudhuri shows us again that he takes nothing as a given literary tradition the prevalent definitions of writing and culture and the way the market determines the way culture and language express themselves He asks us to look again at what we mean by the modern and how it might be possible to think of the literary today

Colonial Odysseys David Adams, 2018-08-06 Works such as Joseph Conrad's *Heart of Darkness* and Lord Jim Virginia Woolf's *The Voyage Out* E M Forster's *A Passage to India* and Evelyn Waugh's *A Handful of Dust* explore the relationship between Britain and its colonies when the British Empire was at its height David Adams observes that because of their structure and specific literary allusions they also demand to be read in relation to the epic tradition The elegantly written and powerfully argued *Colonial Odysseys* focuses on narratives published in English between 1890 and 1940 in which protagonists journey from the familiar world of Europe to alien colonial worlds The underlying concerns of these narratives Adams discovers are often less political or literary than metaphysical in each of these fictions a major character dies as a result of the journey inviting reflection on the negation of existence Repeatedly imaginative encounters with distant uncanny colonies produce familiar insular presentations of life as an odyssey with death as the home port Expanding postcolonial and Marxist theories by drawing on the philosophy of Hans Blumenberg Adams finds in this preoccupation with mortality a symptom of the failure of secular culture to give meaning to death This concern in his view shapes the ways modernist narratives reinforce or critique imperial culture the authors project onto British imperial experience their anxieties about the individual's relation to the absolute

MacDermott,2009 Literary modernism and its aftermath saw few more enigmatic practitioners than Henry Green Green was a remarkably innovative and experimental novelist while also being a keenly perceptive observer of the turbulent times in which he wrote With his writing spanning the high point of modernism in the 1920s the turn towards greater social and political engagement in the 1930s and the search for new beginnings in the post war period Green s texts reflect some of the most important literary developments of the twentieth century This book takes a fresh approach to Green one that places his work firmly in its contemporary critical context By exploring the insights of two of the most formative critics of the period T S Eliot and F R Leavis the book explores how Green was able to bring about creative tension between the competing claims of formal innovation and social engagement Through new explanations and evaluations of the texts the author demonstrates the depth and originality of Green s achievement in tangible and specific form The book also explores the particularly productive relationship between creative and critical endeavours that flourished in this landmark literary period **A Short Media**

History of English Literature Ingo Berensmeyer,2022-08-01 This book explores the history of literature as a history of changing media and modes of communication from manuscript to print from the codex to the computer and from paper to digital platforms It argues that literature has evolved and continues to evolve in sync with material forms and formats that engage our senses in multiple ways Because literary experiences are embedded in and enabled by media the book focuses on literature as a changing combination of material and immaterial features The principal agents of this history are no longer genres authors and texts but configurations of media and technologies In telling the story of these combinations from prehistory to the present Ingo Berensmeyer distinguishes between three successive dominants of media usage that have shaped literary history performance representation and connection Using English literature as a test case for a long view of media history this book combines an unusual bird s eye view across periods with illuminating readings of key texts It will prove an invaluable resource for teaching and for independent study in English or comparative literature and media studies
