*The Death of the Income Tax* Daniel S. Goldberg, 2013-04-23 The Death of the Income Tax explains how the current income tax is needlessly complex contains perverse incentives against saving and investment fails to use modern technology to ease compliance and collection burdens and is subject to micromanaging and mismanaging by Congress Daniel Goldberg proposes that the solution to the problems of the current income tax is completely replacing it with a progressive consumption tax collected electronically at the point of sale      *Revising the Corporate Income Tax* Robert Lucke, 1985

The Impact on Individuals and Families of Replacing the Federal Income Tax United States. Congress. House. Committee on Ways and Means, 1998      *Vienna & Chicago, Friends or Foes?* Mark Skousen, 2016-03-01 Is the bridge between the Austrian and Chicago schools coming together or moving apart In Vienna and Chicago Friends or Foes economist and author Mark Skousen debates the Austrian and Chicago schools of free market economics which differ in monetary policy business cycle government policy and methodology Both have played a successful role in advancing classic free market economics and countering the critics of capitalism during crucial times and the battle of ideas But which of the two is correct in its theories

Assessing Tax Reform Henry Aaron, Harvey Galper, 2010-12-01 Reform of the United States tax system has become a central political issue Assessing Tax Reform is a concise nontechnical book to help general readers and students understand the tax reform issues Congress is now debating Henry Aaron and Harvey Galper lay out the major alternative proposals and analyze principles of taxation that can be used for judging them They explore the issues surrounding a move to a comprehensive income tax a cash flow tax and the value added tax or other consumption based taxes They show the conflicts and opportunities resulting from large current government deficits and the move for tax reform In addition to clarifying the problems that must be solved if large scale long term reform is to be achieved the authors describe alternative strategies for increasing revenues quickly They also present their own program for a fair efficient and less complex tax structure They conclude with an examination of the political pitfalls that continue to make any major improvements in the tax system hard to enact      *Taxing Ourselves* Joel Slemrod, Jon M. Bakija, 2004 The third edition of a popular guide to the key issues in tax reform providing detailed discussion of the current system and alternative proposals an overview of principles that should govern tax policy and a voter's guide to the tax policy debate      Progressive Consumption Taxation Robert Carroll, Alan D. Viard, 2012 The authors observe that consumption taxation is superior to income taxation because it does not penalize saving and investment and propose that the U S income tax system be completely replaced by a progressive consumption tax They argue that the X tax developed by the late David Bradford offers the best form of progressive consumption taxation for the United States and outline concrete proposals for the X tax's treatment of numerous specific

economic issues      *Revising the Individual Income Tax* Cynthia F. Gensheimer, 1983      **The Taxation of Income from Business and Capital in Colombia** Charles E. McLure, 1990 Over the years Colombian tax officials have received the benefit of first class advice of leading foreign scholars In return these scholars and indeed everyone concerned with development policy have gained a great deal both from the unusual willingness of Colombians to consider new ideas in detail and then after full public discussion drawing on the work of these experts to design a made in Colombia solution The book s most important contribution however is undoubtedly with respect to consumption taxes No one anywhere has thought through with such care just how the so called simplified alternative tax essentially a direct personal consumption tax combined with a cash flow corporate tax might work in the real world Since such taxes are increasingly being considered if not adopted all over the world in developing and developed countries alike for this reason alone this book should be high on the reading list of all those concerned with the design and implementation of efficient and equitable direct tax systems From the Foreword by Richard M Bird      **Tax Reform in Developing Countries** Malcolm Gillis, 1989 This volume presents the work of experts on the tax reform in several developing countries from the restructuring of the economy of post war Japan to the 1986 reforms in Jamaica This study is based on the conference convened by the Center for International Development Research of the Institute of Policy Sciences at Duke University in April 1988      **First in Series on Tax Code Simplification** United States.
