Low Back Pain:

Back Pain Loren Fishman, Carol Ardman, 1999 Fishman asserts that patients must become partners with doctors in naming the cause of back pain and finding a successful treatment *Physical Therapy Management of Low Back Pain* Julia Chevan, Phyllis A. Clapis, 2013 Physical Therapy Management of Low Back Pain A Case Based Approach provides a detailed review of the theory and practice of a variety of approaches to treating low back pain using a case based approach. The important features of nine major orthopaedic physical therapy approaches are explained and practical application of each approach is demonstrated via a single patient case. This controlled overview enables instructors and students to analyze, compare and contrast the options in physical therapy treatment with detailed information on intervention. *Physical Therapy Management of Low Back Pain A Case Based Approach* will give students a helpful reference point to better prepare for clinical work

Low Back Pain Bernard E. Finneson, 1980 **Low Back Pain: Recent Advances and Perspectives**

Robert J. Gatchel, 2018-04-27 This book is a printed edition of the Special Issue Low Back Pain Recent Advances And Perspectives that was published in Healthcare **Evidence-based Management of Low Back Pain** Simon Dagenais, Scott Haldeman, 2011-01-01 An interdisciplinary approach enables health care providers to work together. A logical, easy to follow organization covers information by intervention type from least invasive to most invasive. Integration of interventions provides information in a clinically useful way so it's easier to consider more than one type of treatment or intervention for low back pain and easier to see which methods should be tried first. 155 illustrations include x rays, photos and drawings. Tables and boxes summarize key information. Evidence based content allows you to make clinical decisions based on the ranking the best available scientific studies from strongest to weakest. Patient history and examination chapters help in assessing the patient's condition and in ruling out serious pathology before making decisions about specific interventions.
