Low Cost But Acceptable:

Minimum Income Standards and Reference Budgets Christopher Deeming, 2020-05-28 Research into minimum income standards and reference budgets around the world is compared in this illuminating collection from leading academics in the field. From countries with long established research traditions to places where it is relatively new, contributors set out the different aims and objectives of investigations into the minimum needs and requirements of populations and the historical contexts, theoretical frameworks and methodological issues that lie behind each approach. For policymakers, practitioners and social policy and poverty academics, this essential review of learnings to date and future prospects for research is all the more relevant in light of the COVID 19 pandemic testing health and social protection systems around the globe. **Social Justice and Neoliberalism** Professor Adrian Smith, Professor Alison Stenning, Katie Willis, 2013-07-04 The continuing expansion of neoliberalism into ever more spaces and spheres of life has profound implications for social justice. Despite the number of policies designed to target social exclusion, people in many communities continue to be marginalized by economic restructuring. *Social Justice and Neoliberalism* explores the connections between neoliberalism, social justice and exclusion. The authors raise critical questions about the extent to which neoliberal programmes are able to deliver social justice in different locations around the world. The book offers grounded, theoretically oriented, empirically rich analysis that critiques neoliberalism while understanding its material impacts. It also stresses the need to extend analyses beyond the dominant spheres of capitalism to look at the ways in which communities resist and remake the economic and social order through contestation and protest but also in their everyday lives. Global in scope, this book brings together writers who examine these themes in the global South, the former communist East and the West, using the experience of marginal peoples, places and communities to challenge our conceptions of capitalism and its geographies. **Experiencing Poverty** Jonathan Bradshaw, Roy Sainsbury, 2018-02-05 This title was first published in 2000. Marking the centenary of Seebohm Rowntree's first study of poverty in York, this volume examines the modern impact of poverty on health, nutrition, crime, gender and ethnicity. *Blessed are the Poor?* Green Laurie, 2015-07-02 Laurie Green considers a number of key biblical texts as well as recent research on poverty in the UK and asks what the Church's ministry among the poor would need to look like in order to be true to the gospel. The book ends with practical outcomes for pavement level ministry. *From Here to Sustainability* Ian Christie, 2010-09-23 For a large proportion of the electorate, national politics misses the real issues. As a result, membership of campaigning organizations has soared whilst party numbers have declined. This work distils the principles and priorities of many of the leading voluntary groups into a strong and coherent programme of political aims and actions. The problem can be measured as a sustainability gap between official policies and achievements and actual democratic participation, environmental restoration and the eradication of poverty. With examples and short case studies, the book translates the gap into practical and realistic recommendations for progress. Revival: Ethics and Social Security Reform (2001) Erik
