sounded using these generally weird phrases instead of just speaking in plain English Sudakow says I wanted to call attention to the way we were all communicating and see if we could change it Ironically not only did his experiment not deter their use of any of the expressions on his whiteboard Sudakow found that his colleagues put up with the hazing with seemingly far too much enjoyment and also began to actually if not enthusiastically add additional phrases to his whiteboard taking great pride in their contributions That whiteboard became the premise for his new book *Picking the Low Hanging Fruit and Other Stupid Stuff We Say in the Corporate World* a humorous corporate glossary that sheds an irreverent light on the weird things we say in the corporate world every day
