Glass Half-Empty, Glass Half-Full Chris Mitchell, 2005-07-21 Chris Mitchell was 20 when he was diagnosed with Asperger syndrome Both his academic success and the horrendous bullying he suffered highlight the mixed blessings of mainstream education for a child with Asperger syndrome While his eventual success is heartwarming from today s understanding of Asperger the ignorance and hostility Mitchell faced throughout his early life are shocking TES Extra for Special Needs This autobiographical account of a young man s discovery that Asperger s syndrome could explain his early problems and provide light at the end of the tunnel is both insightful and inspiring Parents of children with Asperger s syndrome and also older aspies will profit from Chris s hard won experience Dyslexia Contact This is a straightforward read full of concrete examples of how Asperger s syndrome affects the individual but at the same time acknowledging that every individual is different Having experienced first hand the vulnerability of the adolescent with Asperger s syndrome desperate to make connections with those around him but constantly being knocked back I was delighted to read about the friendships Chris Mitchell eventually establishes when he takes the brave decision to make contacts through the web and sets out on his travels I would particularly recommend this book to those with little knowledge of Asperger s syndrome especially for anyone involved in helping those with a diagnosis

of Asperger's syndrome through further education British Journal of Special Education This book is a must read for any parents of children with Asperger's syndrome and also older aspies themselves They will be able to relate to the slightly quirky writing style and profit from Chris's hard won experience These children are so individualistic and often isolated from like minds so the book will provide some solace that there are other people like them Judith Stansfield Chair North Richmondshire Community Partnership SEN ICT Consultant NASEN ICT Group BDACC Reviews and Literature Editor This book shows how one individual with very severe handicaps due to Asperger's Syndrome won through in the end and achieved despite such a poor beginning This is a book which should be read by anyone who has been diagnosed with Asperger's Syndrome or feels he or she might have this condition Dr L F Lowenstein National Association Gifted Children Newsletter This is an unusual book in that it is written by a man where most autobiographical books about autism are written by women It is both very readable and well written with a detached and honest account of his childhood family life and life prior to diagnosis He gets on well with his family and they are happy that he has written this book and happy with the book despite some implied criticism of how they brought him up Indeed it comes across as less aggressive than some accounts so it is particularly insightful for parents and other empathoticals who might find more black and white descriptions of their mistakes hurtful As with every book written by someone on the spectrum that I have seen it is a short book giving a snapshot of his difficulties and joys before and also after his diagnosis giving highlights of specific problems and pleasures Overall I think it would be a good book for someone who recognises himself in the author or as a starting point for deepening your understanding of your brother son or friend or if you are already interested in this condition to broaden your understanding of the ways that it present itself Asperger United A n especially uplifting read for a young person or adult newly diagnosed with Asperger's Syndrom It also would help those unfamiliar with Asperger's Syndrome to understand the condition much better REACH This gripping and at times astonishing story will be inspirational to all adults either facing Asperger's Syndrome personally or interacting with someone who has been diagnosed In his own imitable style Chris Mitchell describes his life before and after diagnosis with Asperger's Syndrome We follow Chris through primary and secondary school where his lack of social interaction and anger continually land him in trouble and where he is bullied for being different Only his excellent memory and specialist interests enable him to continue and pass his GCSEs and a GNVQ in Media Studies At university he is diagnosed with Asperger's Syndrome Suddenly his life makes more sense and his self awareness means his self confidence returns resulting in world travel a Masters qualification in Information and Library Management and finally acceptance Chris Mitchell is a Records Assistant at Durham County Record Office and also does public speaking on the subject of Asperger's Syndrome

Developing Circle Time Teresa Bliss, George Robinson, Barbara Maines, 1995-01-01 As a teacher who has specialized in supporting at risk students I believe the use of Circle Time can be of help bridge the academic divide The authors quite rightly emphasise the Circle Times in not an advice sympathy or therapy group and they also

write pupils who have a positive view themselves are likely to achieve more both socially and academically than those pupils whose self esteem is low Simon Wheeler Suffolk LEA Pupil Behaviour Project Officer Teresa Bliss and George Robinson explore the impact that Circle Time can have on the development of social behaviours ethics and morality Many new activities are added to the original repertoire The book includes a link between Circle Time and the teaching of the moral and spiritual curriculum a plan for a terms developmental work ways in which issues starting outside the circle can be supported within the security of an already established circle group worksheets to increase the range of activities This book is the answer to teachers who ask for more ideas to extend the Circle Time programme Fortune's Fools Dr. Marvin C.
