

LUCY BOOMER

A NOVEL

The book cover features a stylized illustration of a dark car driving on a road at night. The car's headlights are on, illuminating the path ahead. The background shows a dark, silhouetted landscape with trees and a small building under a deep blue night sky with a bright, glowing light source, possibly the moon or a distant star. The overall mood is mysterious and atmospheric.

Russell
Hill

"One of the most wonderful road stories in recent memory ...If you thought *Rain Man* was a moving story of how a cynic can become a loving fella, this book does it even better. A great one."

Charlton. *Southbridge* Holmes Ammidown, 1874 *Family Or Freedom* Emily West, 2012-10-18 In the antebellum South the presence of free people of color was problematic to the white population Not only were they possible assistants to enslaved people and potential members of the labor force their very existence undermined popular justifications for slavery It is no surprise that by the end of the Civil War nine Southern states had enacted legal provisions for the voluntary enslavement of free blacks What is surprising to modern sensibilities and perplexing to scholars is that some individuals did petition to rescind their freedom Family or Freedom investigates the incentives for free African Americans living in the antebellum South to sacrifice their liberty for a life in bondage Author Emily West looks at the many factors influencing these dire decisions from desperate poverty to the threat of expulsion and demonstrates that the desire for family unity was the most important consideration for African Americans who submitted to voluntary enslavement The first study of its kind to examine the phenomenon throughout the South this meticulously researched volume offers the most thorough exploration of this complex issue to date **Historical Collections** Holmes Ammidown, 1874 *Lineage Book of the Charter Members of the Daughters of the American Revolution* Daughters of the American Revolution, 1918 *Historical Collections: The histories of seven towns.* Holmes Ammidown, 1877 **Family Bonds** Ted Maris-Wolf, 2015-04-20 Between 1854 and 1864 more than a hundred free African Americans in Virginia proposed to enslave themselves and in some cases their children Ted Maris Wolf explains this phenomenon as a response to state legislation that forced free African Americans to make a terrible choice leave enslaved loved ones behind for freedom elsewhere or seek a way to remain in their communities even by renouncing

legal freedom Maris Wolf paints an intimate portrait of these people whose lives liberty and use of Virginia law offer new understandings of race and place in the upper South Maris Wolf shows how free African Americans quietly challenged prevailing notions of racial restriction and exclusion weaving themselves into the social and economic fabric of their neighborhoods and claiming through unconventional or counterintuitive means certain basic rights of residency and family Employing records from nearly every Virginia county he pieces together the remarkable lives of Watkins Love Jane Payne and other African Americans who made themselves essential parts of their communities and in some cases gave up their legal freedom in order to maintain family and community ties

Silver Fox of the Rockies Daniel Tyler, Delph Carpenter, 2003 Delphus E Carpenter 1877 1951 was Colorado's commissioner of interstate streams during a time when water rights were a legal battleground for western states A complex unassuming man as rare and cunning in politics and law as the elusive silver fox of the Rocky Mountain West Carpenter boldly relied on negotiation instead of endless litigation to forge agreements among states first before federal intervention In *Silver Fox of the Rockies* Daniel Tyler tells Carpenter's story and that of the great interstate water compacts he helped create Those compacts produced in the early twentieth century have guided not only agricultural use but urban growth and development throughout much of the American West to this day In Carpenter's time most western states relied on the doctrine of prior appropriation first in time first in right which granted exclusive use of resources to those who claimed them first regardless of common needs Carpenter feared that population growth and rapid agricultural development in states sharing the same river basins would rob Colorado of its right to a fair share of water To avoid that eventuality Carpenter invoked the compact clause of the U S Constitution a clause previously used to settle boundary disputes and applied it to interstate water rights The result was a mechanism by which complex issues involving interstate water rights could be settled through negotiation without litigating them before the U S Supreme Court Carpenter believed in the preservation of states rights in order to preserve the constitutionally mandated balance between state and federal authority Today water remains critically important to the American West and the great interstate water compacts Carpenter helped engineer constitute his most enduring legacy Of particular significance is the Colorado River Compact of 1922 without which Hoover Dam could never have been built

Slavery, Fatherhood, and Paternal Duty in African American Communities over the Long Nineteenth Century Liba R. Hilde, 2020-10-01 Analyzing published and archival oral histories of formerly enslaved African Americans Liba R Hilde explores the meanings of manhood and fatherhood during and after the era of slavery demonstrating that black men and women articulated a surprisingly broad and consistent vision of paternal duty across more than a century Complicating the tendency among historians to conflate masculinity within slavery with heroic resistance Hilde emphasizes that while some enslaved men openly rebelled many chose subtle forms of resistance in the context of family and local community She explains how a significant number of enslaved men served as caretakers to their children and shaped their lives and identities From the standpoint of enslavers this was particularly threatening a man

who fed his children built up the master's property but a man who fed them notions of autonomy put cracks in the edifice of slavery. Fatherhood highlighted the agonizing contradictions of the condition of enslavement and to be an involved father was to face intractable dilemmas yet many men tried. By telling the story of the often quietly heroic efforts that enslaved men undertook to be fathers, Hilde reveals how formerly enslaved African Americans evaluated their fathers including white fathers and envisioned an honorable manhood.

Southern Honor Bertram Wyatt-Brown, 1982-09-23 A finalist for the Pulitzer Prize and the American Book Award, hailed in *The Washington Post* as a work of enormous imagination and enterprise and in *The New York Times* as an important original book, *Southern Honor* revolutionized our understanding of the antebellum South, revealing how Southern men adopted an ancient honor code that shaped their society from top to bottom. Using legal documents, letters, diaries, and newspaper columns, Wyatt Brown offers fascinating examples to illuminate the dynamics of Southern life throughout the antebellum period. He describes how Southern whites, living chiefly in small rural agrarian surroundings in which everyone knew everyone else, established the local hierarchy of kinfolk and neighbors according to their individual and familial reputation. By claiming honor and dreading shame, they controlled their slaves, ruled their households, established the social rankings of themselves, kinfolk, and neighbors, and responded ferociously against perceived threats. The shamed and shameless sometimes suffered grievously for defying community norms. Wyatt Brown further explains how a Southern elite refined the ethic: Learning gentlemanly behavior and deliberate rather than reckless resort to arms softened the cruder form which the author calls primal honor. In either case, honor required men to demonstrate their prowess and engage in fierce defense of individual, family, community, and regional reputation by duel, physical encounter, or war. Subordination of African Americans was uppermost in this Southern ethic. Any threat, whether from the slaves themselves or from outside agitation, had to be met forcefully. Slavery was the root cause of the Civil War, but according to Wyatt Brown, honor pulled the trigger. Featuring a new introduction by the author, this anniversary edition of a classic work offers readers a compelling view of Southern culture.
