The Formation of Latin American Nations Thomas Ward, 2018-10-25 This pioneering work brings the pre-Columbian and colonial history of Latin America home rather than starting out in Spain and following Columbus and the conquistadores as they discover New World peoples The Formation of Latin American Nations begins with the Mesoamerican and South American nations as they were before the advent of European colonialism and only then moves on to the sixteenth century Spanish arrival and its impact To form a clearer picture of precolonial Latin America Thomas Ward reads between the lines in the Chronicles of the Indies filling in the blanks

with information derived from archaeology anthropology genetics and common sense logic Although he finds fascinating points of comparison among the Kiche Maya in Central America the polities se or os of Colombia and the Chim of the northern Peruvian coast Ward focuses on two of the best known peoples the Nahua Aztec of Central Mexico and the Inka of the Andes His study privileges indigenous identified authors such as Diego Mu oz Camargo Fernando de Alva Ixtlilx chitl Inca Garcilaso de la Vega and Felipe Guaman Poma de Ayala while it also consults Spanish chroniclers like Hern n Cort s Bernal Diaz del Castillo Pedro Cieza de Le n and Bartolom de las Casas The nation forming processes that Ward theorizes feature two forms of cultural appropriation the horizontal in which nations appropriate people and customs from adjacent cultures and the vertical in which nations dig into their own past to fortify their concept of exceptionality In defining these processes Ward eschews the most common measure race instead opting for the Nahua altepetl the Inka panaka and the Kiche amaq His work thus approaches the nation both as the indigenous people conceptualized it and with terminology that would have been familiar to them before and after contact with the Spanish The result is a truly decolonial account of the formation and organization of Latin American nations one that puts the indigenous perspective at its center The Great Divergence

colourfully written letters of Anglo Irish Sir Henry Dobbs which form the backbone of this book reveal his importance in the development of the modern Middle East An influential civil servant and Britain s longest serving High Commissioner in Iraq at a time when the British empire was facing increasing challenges to its once dominant position he describes the difficulties of governing first in India then in the formerly Ottoman Mesopotamia during WW1 Here Dobbs had to devise administrative systems while often at odds with his superior Sir Percy Cox In the discussions that followed the Third Afghan War Dobbs manoeuvred between the different views in London and Delhi with great dexterity to negotiate alone with the Amir of Afghanistan the enduring 1921 Anglo Afghan treaty Having accepted from the League of Nations the responsibility for taking the newly created Iraq to sustainable independence in the aftermath of WW1 the cash strapped British government came under great domestic pressure to abandon it Key to British support continuing was Iraqi acceptance of the controversial 1922

treaty with Britain This Dobbs achieved by disregarding the unhelpful approach recommended by London and risking his career he pressed on with his own wholly unauthorised tactics In other initiatives Dobbs ensured that Mosul province remained within Iraq Dobbs consistently pressed for Iraq s early independence granted in 1932 the first territory in the former Ottoman Empire to gain it An early advocate of self determination Dobbs was frequently at odds with the more traditional imperial approach of his superiors He always endeavoured to balance the aspirations and needs of overseas communities for whom he was responsible with the interests of Britain which he represented
