The American South and the Vietnam War Joseph A. Fry, 2015-06-19 To fully comprehend the Vietnam War it is essential to understand the central role that southerners played in the nation's commitment to the war in the conflict's duration and in the fighting itself President Lyndon B Johnson of Texas and Secretary of State Dean Rusk of Georgia oversaw the dramatic escalation of U S military involvement from 1965 through 1968 General William Westmoreland born and raised in South Carolina commanded U S forces during most of the Johnson presidency Widely supported by their constituents southern legislators collectively provided the most dependable support for war funding and unwavering opposition to measures designed to hasten U S withdrawal from the conflict In addition southerners served died and were awarded the Medal of Honor in numbers significantly disproportionate to their states populations In The American South and the Vietnam War Joseph A Fry demonstrates how Dixie's majority pro war stance derived from a host of distinctly regional values perspectives and interests He also considers the views of the dissenters from student protesters to legislators such as J William Fulbright Albert Gore Sr and John Sherman Cooper who worked in the corridors of power to end the conflict and civil

rights activists such as Martin Luther King Jr Muhammad Ali and Julian Bond who were among the nation's most outspoken critics of the war. Fry's innovative and masterful study draws on policy analysis and polling data as well as oral histories, transcripts and letters to illuminate not only the South's influence on foreign relations but also the personal costs of war on the home front.

Contributors discuss a broad range of themes including the weight of a changing identity in the evolution of the country's foreign policy; the fate of Canadian diplomacy as a profession; the often complicated relationship between foreign and trade policies; the impact of immigration and refugee procedures on foreign policy; and the evolving understanding of development and defence as components of Canada's foreign policy.

*War Narratives and the American National Will in War* Jeffrey J. Kubiak, 2014-07-10 With the U.S. war in Afghanistan in its twelfth year, axioms regarding the American national will in war, not being able to tolerate anything other than quick and costless adventures, have been found useless in understanding why the U.S. continues to persist in that endeavor. This book answers complex questions about modern US intervention abroad.

*History and International Relations* Howard LeRoy Malchow, 2020-03-19 This updated and enhanced second edition of History and International Relations charts the foundations, development and use of International Relations from a historian's perspective. Exploring its engagement with the history of war, peace and foreign relations, this volume provides an account of international relations from both western and non-western perspectives, its historical evolution and its contemporary practice. Examining the origin of dominant IR theories, exploring key moments in the history of war and peace that shaped the discipline and analysing the Eurocentric nature of current theory and practice, Malchow provides a full account of the relationship between history and IR from the ancient world to modern times. To bring it up to the present day and provide new ways for students to grasp the history of IR, this new edition includes an updated final chapter reflecting on the practice of IR in a post-9/11 world; new scholarship and sources in IR practice and theory published since 2015; a time line charting the evolution of International Relations as a discipline; a new glossary of terms; an expanded section on IR theory and practice in the ancient world and early Christian era; greater incorporation of IR practice and theory in non-western, ancient, medieval and modern worlds. History and International Relations is essential reading for anyone looking to understand international relations, diplomacy and times of war and peace in a historical context.
