Nation Or No Nation:

The Mystery of the Shemitah Jonathan Cahn, 2018 The Shemitah or Sabbath year is the seventh year of the seven year agricultural cycle mandated by the Torah for the land of Israel Understanding this pattern is essential for understanding the prophecy and mysteries of the Bible that are still applicable today **Nation**, 1921 Narrowing the Nation's Power John T. Noonan Jr., 2002-08-21 Narrowing the Nation's Power is the tale of how a cohesive majority of the Supreme Court has in the last six years cut back the power of Congress and enhanced the autonomy of the fifty states The immunity from suit of the sovereign Blackstone taught is necessary to preserve the people's idea that the sovereign is a superior being Promoting the common law doctrine of sovereign immunity to constitutional status the current Supreme Court has used it to shield the states from damages for age discrimination disability discrimination and the violation of patents trademarks copyrights and fair labor standards Not just the states themselves but every state sponsored entity a state insurance scheme a state university's research lab the Idaho Potato Commission has been insulated from paying damages in tort or contract Sovereign immunity as Noonan puts it has metastasized It only hurts when you think about it Noonan's Yalewoman remarks Crippled by the states immunity Congress has been further brought to heel by the Supreme Court's recent invention of two rules The first rule Congress must establish a documentary record that a national evil exists before Congress can legislate to protect life liberty or property under the Fourteenth Amendment The second rule The response of Congress to the evil must then be both congruent and proportionate The Supreme Court determines whether these standards are met thereby making itself the master monitor of national legislation Even legislation under the Commerce Clause has been found wanting illustrated here by the story of Christy Brzonkala's attempt to redress multiple rapes at a state university by invoking the Violence Against Women Act The nation's power has been remarkably narrowed Noonan is a passionate believer in the place of persons in the law Rules he claims are a necessary framework but they must not obscure law's task of giving justice to persons His critique of Supreme Court doctrine is driven by this conviction **The Scattered Nation and Jewish Christian Magazine** Carl Schwartz, 1866 **Financial Statement and Audit of the American Legion** American Legion. Annual National Convention, 1999 **Daily Report, Foreign Radio Broadcasts** United States. Central Intelligence Agency, 1966 *A History of the Jewish Nation; From the Earliest Times to the Present Day* E. H. Palmer, S. F. Smith, 2025-08-01 Reprint of the original first published in 1875 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **Hearings Before the National Advisory Committee on Rural Poverty, Memphis, Tennessee, Feb. 2 and 3, 1967** United States. National Advisory Commission on Rural Poverty, 1967 **WOUNDED EAGLE** Frederick H. Hartmann, 2011-01-10 Two terms closely related are often used as synonyms but it is important to keep the distinction between them always in mind The meaning of national security is clear enough it means how safe are we as a nation It is not

always easy to give an accurate answer to that question but we know what we are trying to assess National strategy on the other hand refers to how we seek to be secure It frequently is the subject of great continuous and emotional debate and little about it can be taken for granted This book examines the security of the United States from the perspective of the strategy we have followed at various times Because if things are not working out right it will be because our ideas about how to be secure and what we need to do about it need adjusting In the aftermath of our wounding experience in Vietnam the second war with Iraq and the later phase of the Afghanistan War we are at a point where we seriously need to consider that we have been doing wrong Embarking on a war is always a very risky thing If a nation is attacked it has little option it must either respond with force or surrender But going to war is often a matter of choice No decision a nation can make compares in importance with this one It is not just that war inevitably brings destruction and bloodshed in its train War turns individual lives upside down For the nation as a whole it means facing the sobering fact that whatever ability you previously had to unilaterally control your national fate is now abandoned You have entered a very dicey partnership to inflict mutual destruction No matter if you have a neat set of war plans which are designed to get you in the fighting where you want to go at minimum cost Your enemy will have other plans and they will enter into and distort the equation So the most important consideration when making the decision to go to war is to be as absolutely sure as you can be that you really need to do it Is this war really necessary should be printed at the top of all congressional and White House stationery It is the prime question to which all analyses of national security must be addressed from the perspective of grand strategy It might be supposed that so solemn a decision as that of going to war would only be taken after much thought and examination both of alternatives and of the likely course of events given a range of scenarios Nothing could be farther from the actuality That is emphatically not how the United States goes to war Obviously for anyone to question whether war is really necessary or even desirable requires a cool head in a time when the discussion is highly likely to be very heated Yet if rational considerations are abandoned we get whatever comes of it good bad or worse That there are rational considerations for judging the desirability and feasibility of a war should not be doubted just because they are so often not taken seriously or fully into account We shall have much to say about what they are as we go on A second obvious but easily overlooked consideration is to have some plan for ending a war once begun When the leaders of the Japanese government decided in mid 1941 that war with the United States was inevitable they planned the Pearl Harbor attack While from America s point of view it was a sneak and unprovoked attack from a military point of view it was a brilliant initial move But the Japanese did not have the resources to invade the continental United States and subdue it So having begun well the Japanese had no real hopes of achieving the aims that had inspired the attack Unless they could count on America s nerves and will being so undermined by the Pearl Harbor attack that the United States would seek a negotiated peace If they had initially done a careful assessment of the American character and history they would have quickly realized that the United States was not likely
