Nation And Economic Growth The Philippines And Thailand:

THE NATION AND ECONOMIC GROWTH 田口英一, 1999 *Philippine Politics and Society in the Twentieth Century*

Eva-Lotta Hedman, John Sidel, 2005-11-29 The only book length study to cover the Philippines after Marcos's downfall this key title thematically explores issues affecting this fascinating country throughout the last century Appealing to both the academic and non academic reader topics covered include national level electoral politics economic growth the Philippine Chinese law and order opposition the Left local and ethnic politics *Land and Loyalty* Tomas Larsson, 2012-06-01 Domestic and international development strategies often focus on private ownership as a crucial anchor for long term investment the security of property rights provides a foundation for capitalist expansion In recent years Thailand's policies have been hailed as a prime example of how granting formal land rights to poor farmers in low income countries can result in economic benefits But the country provides a puzzle Thailand faced major security threats from colonial powers in the nineteenth century and from communism in the twentieth century yet only in the latter case did the government respond with pro development tactics In *Land and Loyalty* Tomas Larsson argues that institutional underdevelopment may prove under certain circumstances a strategic advantage rather than a weakness and that external threats play an important role in shaping the development of property regimes Security concerns he finds often guide economic policy The domestic legacies legal and socioeconomic resulting from state responses to the outside world shape and limit the strategies available to politicians While Larsson's extensive archival research findings are drawn from Thai sources he situates the experiences of Thailand in comparative perspective by contrasting them with the trajectory of property rights in Japan Burma and the Philippines

Philippine Politics Lynn White III, 2014-12-17 Philippine political history especially in the twentieth century challenges the image of democratic evolution as serving the people and does so in ways that reveal inadequately explored aspects of many democracies In the first decades of the twenty first century the Philippines has nonetheless shown gradual socioeconomic progress This book provides an interpretive overview of Philippine politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political policies It analyses whether regional and local politics have more importance than national politics in the Philippines Discussing cultural traditions of patronism it also examines how clan feuds localize the state and create strong local policies These conflicts in turn make regional and family run polities collectively stronger than the central state institution The book goes on to explore elections in the Philippines and in particular the ways in which politicians win democratic elections the institutionalized role of public money in this process and the role that media plays Offering a new interpretive overview of Philippine progress over many decades the author notes recent economic and political changes during the current century while also trying to advance ideas that might prove useful to Filipinos Presenting an in depth analysis of the problems and possibilities of politics and society in the Philippines the book will be of interest to those researching Southeast Asian Politics Political History and Asian Society and

Culture *State Structure, Policy Formation, and Economic Development in Southeast Asia* Antoinette R. Raquiza, 2013-06-17 Why do some small developing countries industrialize and others don't? What factors account for different economic performance among states that are vulnerable to external shocks: crony capitalism and political instability? This book argues that the answer lies in the structuring of state power specifically the way different sets of governing elites political leaders and economic technocrats are embedded in political organisations and state institutions and the way these elites relate to each other in the economic development policy process. Conducting a comparative historical analysis of Thailand and the Philippines the book argues that the institutional settings of governing elites influence economic outcomes. In Thailand political power traditionally connects to state institutions in ways that has limited the impact of political turnovers and global downturns conducive to long term industrial activities. In contrast Philippine state power derives from family networks that merge social and political power suited to fast moving short term commercial interests. In focusing on this political and institutional story the author analyses the current development dilemmas of countries weighed down by historical legacies of unstable regimes dependency and social conflict and how they are likely to develop in the future.

Civil Society and Corruption Michael Johnston, 2005 Strong civil societies play a major role in controlling corruption in many societies and reformers agree that citizens both individual and organized should be involved in reform. But accomplishing that goal has proven difficult. Some civil societies are weak divided and impoverished. In others undemocratic regimes dominate through intimidation. And in still others development difficulties international debt and misguided aid efforts stop reform before it can begin. Too often anti corruption campaigns do not engage social values or attack corruption as people experience it every day. This volume based on a yearlong series of events sponsored by Colgate University's Center for Ethics and World Societies analyzes civil society and corruption from several perspectives and in several parts of the world. One section considers corruption as a fact of everyday life a second analyzes techniques and incentives involved in mobilizing civil society and a third provides a unique guide to information resources on corruption and reform. **Studies in**
