Nation On Trial The Goldhagen Thesis And Historical Truth:

A Nation on Trial Norman G. Finkelstein, Ruth Bettina Birn, 1998-03-15 A devastating refutation of one of the most talked about and influential books of our time No Recent Work of History has generated as much interest as Daniel Jonah Goldhagen's *Hitler's Willing Executioners* Purporting to solve the mystery of the Nazi holocaust Goldhagen maintains that ordinary Germans were driven by fanatical anti-Semitism to murder the Jews An immediate national best seller the book went on to create an international sensation as the German public applauded Goldhagen's thesis Now in *A Nation on Trial* two leading critics challenge Goldhagen's findings and show that his work is not scholarship at all With compelling cumulative effect Norman G Finkelstein meticulously documents Goldhagen's distortions of secondary literature and the internal contradictions of his argument In a complementary essay Ruth Bettina Birn juxtaposes Goldhagen's text against the German archives he consulted The foremost international authority on these archives Birn conclusively demonstrates that Goldhagen systematically misrepresented their contents The definitive statement on the Goldhagen phenomenon this volume is also a cautionary tale on the corruption of scholarship by ideological zealotry Finkelstein's contribution is more than a dissection it tells us something about where we are Raul Hilberg

The "Goldhagen Effect" Geoff Eley, 2000 Scholars examine Daniel Goldhagen's legacy in the United States Europe and Israel

An Analysis of Daniel Jonah Goldhagen's *Hitler's Willing Executioners* Simon Taylor, Tom Stammers, 2017-07-05 Daniel Goldhagen's study of the Holocaust offers conclusions that run directly counter to those reached by Christopher Browning whose book *Ordinary Men* is also the subject of a Macat analysis As such the two analyses make possible some interesting critical thinking exercises focused on evaluation of the evidence used by the two historians For Goldhagen a chief reason for German actions was not the mundane good comradeship stressed by Browning but a longstanding hatred of Jews and Judaism specific to Germany that dated back well into the previous century Debating which historian is right which has made better use of the available evidence which has most successfully written objectively and which advances the most secure interpretation of contested documents forces students to think critically about one of the most important and on the surface at least incomprehensible events of the past century

Writing History, Writing Trauma Dominick LaCapra, 2014-09-03 An updated edition of a major work in trauma studies Trauma and its aftermath pose acute problems for historical representation and understanding In *Writing History Writing Trauma* Dominick LaCapra critically analyzes attempts by theorists and literary critics to come to terms with trauma and with the crucial role post-traumatic testimonies notably Holocaust testimonies assume in thought and in writing These attempts are addressed in a series of six interlocking essays that adapt psychoanalytic concepts to historical analysis while employing sociocultural and political critique to elucidate trauma and its aftereffects in culture and in people This updated edition includes a substantive new preface that reconsiders some of the issues raised in the book

Political Representation F. R. Ankersmit, 2002 Contemporary political philosophy disregards history as irrelevant to the nature of

politics and to what constitutes a political problem The author argues that this view reduces politics and political philosophy to a vapid academic game that is insensitive to both the essence and practice of politics He proposes that an indissoluble link between history and politics lies in the notion of representation

Fascism Paul Gottfried,2016-02-08 For historians Fascism offers clear and provocative insights and arguments and the very detailed notes are especially helpful Recommended Choice What does it mean to label someone a fascist Today it is equated with denouncing him or her as a Nazi But as intellectual historian Paul E Gottfried writes in this provocative yet even handed study the term s meaning has evolved over the years Gottfried examines the semantic twists and turns the term has endured since the 1930s and traces the word s polemical function within the context of present ideological struggles Like conservatism liberalism and other words whose meanings have changed with time fascism has been used arbitrarily over the years and now stands for a host of iniquities that progressives multiculturalists and libertarians oppose even if they offer no single coherent account of the historic evil they condemn Certain factors have contributed to the term s imprecise usage Gottfried writes including the equation of all fascisms with Nazism and Hitler as well as the rise of a post Marxist left that expresses predominantly cultural opposition to bourgeois society and its Christian and or national components Those who stand in the way of social change are dismissed as fascist he contends an epithet that is no longer associated with state corporatism and other features of fascism that were once essential but are now widely ignored Gottfried outlines the specific historical meaning of the term and argues that it should not be used indiscriminately to describe those who hold unpopular opinions His important study will appeal to political scientists intellectual historians and general readers interested in politics and history

Disciplining the Holocaust Karyn Ball,2008-10-23 Disciplining the Holocaust examines critics efforts to defend a rigorous and morally appropriate image of the Holocaust Rather than limiting herself to polemics about the proper approach to traumatic history Karyn Ball explores recent trends in intellectual history that govern a contemporary ethics of scholarship about the Holocaust She examines the scholarly reception of Goldhagen s Hitler s Willing Executioners the debates culminating in Eisenman s Memorial to the Murdered Jews of Europe in Berlin Lyotard s response to negations of testimony about the gas chambers psychoanalytically informed frameworks for the critical study of traumatic history and a conference on feminist approaches to the Holocaust and genocide Ball s book bridges the gap between psychoanalysis and Foucault s understanding of disciplinary power in order to highlight the social implications of traumatic history

more attention has been paid to the intersection between history and law that accompanies historians entry into the courtroom Very little however has been written about this intersection with a focus on a single case study Based on original research in several German archives and first hand interviews Turner addresses these connections through a study of West Germany s most famous trial and the monumental work of history produced from the engagement of historical expertise in court *Understanding Willing Participants, Volume 1* Nestar Russell,2018-09-17 Horrified by the Holocaust social psychologist Stanley Milgram wondered if he could recreate the Holocaust in the laboratory setting Unabated for more than half a century his in famous results have continued to intrigue scholars Based on unpublished archival data from Milgram s personal collection volume one of this two volume set introduces readers to a behind the scenes account showing how during Milgram s unpublished pilot studies he step by step invented his official experimental procedure how he gradually learnt to transform most ordinary people into willing inflictors of harm Volume two then illustrates how certain innovators within the Nazi regime used the very same Milgram like learning techniques that with increasing effectiveness gradually enabled them to also transform most ordinary people into increasingly capable executioners of other men women and children Volume two effectively attempts to capture how step by step these Nazi innovators attempted to transform the F hrer s wish of a Jewish free Europe into a frightening reality By the books end the reader will gain an insight into how the seemingly undoable can become increasingly doable **The Totalitarian Experiment in Twentieth-century Europe** David D. Control Theories of Crime and Delinquency Chester L. Britt, Michael R. Gottfredson, 2017-11-30 For the past twenty to thirty years control theories of crime have been at the center of theoretical development in criminology Key to the control theory perspective is the notion that crime is an inherently individual act and its explanation requires that we focus on the characteristics of individuals who commit crimes Consequently control theory focuses on such issues as self control and social control The contributions to this volume explicate and extend the application of control theory It is divided into three general areas Part 1 focuses on key assumptions and components of control theories Contributors discuss the notion of learning or socialization in the context of control theory and the effects that families peers and the criminal justice system have on self control social ties and criminal behavior Part 2 applies control theory to areas typically assumed to be out of the domain of self control theory and social control theory such as gender differences in crime domestic violence and group crime Considering control theory's emphasis on explaining individual criminal acts these chapters suggest an interesting area of development by highlighting the possibility that differences in crime across or within groups may begin with individual characteristics and then making inferences about groups and group processes Part 3 approaches the explanation of crime cross nationally and at the macro level Although the authors take different approaches they all illustrate that a theory of crime does not require culture specific elements in order to be a valid cross cultural explanation Contributors to this volume include Robert Agnew Todd Armstrong Leana Allen Bouffard Augustine Brannigan Chester Britt Barbara Costello Maja Dekovic Matt DeLisi Michael Gottfredson Henriette Haas Kelly H Hardwick Travis Hirschi Marianne Junger Martin Killias Helen Mederer Kevin Thompson and Alexander Vazsonyi
