A Nation Unaware

The Canadian Economic Culture

Canada takes one contradiction in its teeth but has its tail bitten off by another ■ ... what we are most in need of in Canada is ideological liveliness ■ Public enterprise is indigenous to the Canadian demography ■ It is exactly because we were the losers of the American Revolution that we can now become winners of a Canadian one ■ Labour and community cannot be allowed to move freely to capital; capital must move to labour and community ■ Life, liberty and the pursuit of regional equality ... liberty, fraternity, regional equality ■ To get at the Canadian circumstance ... is above all to see the country in terms of its contradictions ■ The American-ideology-in-Canada, with all of its phantasmagoric potency, stands Canadian reality on its head ■ No nation ever grew up more absurd, and is taking so long to grow out of its absurdity ■ Something inherent to the very spirit and definition of free enterprise proved to be the ultimate folly — competition. Was there ever any point to it here? ■ There is ... nothing less provincial than the Canadian mainstream, once it unhooks itself from its colonial chastity belt ■ Canada, in its essentials, is a public enterprise country, always has been, and probably always will be ... Canadians have a genius for public enterprise ■ The efficiency is in the culture, not in the counting house ■ Giving concrete form to what is least conservative and most adventurous about us is what public enterprise in Canada is all about ■ Monopoly is the economic model. Monopoly suits us, and always has ■ Let a thousand crown corporations bloom. Let a thousand public enterprises contend. But not in the same market ■ "The price of being a Canadian" is really the price we pay for being Americans-in-Canada ■ The Canadian public enterprise culture and the redistribution culture unite into a momentous aptitude for egalitarianism.

Nation Unaware:

A Nation Unaware Herschel Hardin, 1974 Hearings United States. Congress. House, 1957 **Foreign Trade Policy** United States. Congress. House. Committee on Ways and Means, 1958 **New Beginning in US-Muslim Relations** Eugenio Lilli, 2016-06-01 This book carries out a comparative study of the US response to popular uprisings in the Middle East as an evaluation of President Barack Obama's foreign policy commitments In 2009 Obama publicly pledged a new beginning in US Muslim relations causing eager expectation of a clear shift in US foreign policy after the election of the 44th president of the United States However the achievement of such a shift was made particularly difficult by the existence of multiple and sometimes conflicting US interests in the region which influenced the Obama administration's response to the popular uprisings in five Muslim majority countries Egypt Bahrain Yemen Libya and Syria After providing a detailed analysis of the traditional features of both US foreign policy rhetoric and practice this book turns its focus to the Obama administration's response to the 2011 Arab Awakening to determine whether Obama's foreign policy has indeed brought about a new beginning in US Muslim relations *The Sport and Prey of Capitalists* Linda McQuaig, 2019-08-31 After more than a century as nation builders Canadians have spent recent decades downsizing or selling off our ambitious public enterprises and programs to private investors diminishing our ownership and control of key aspects of our economy our country and our lives Hearings United States. Congress. House. Committee on Ways and Means, 1957 From Revolution to Chaos in Haiti (1804-2019) Rhodner J Orisma, 2020-01-13 Haiti is a failing state The country is still unable to provide basic needs such as employment food housing healthcare and education to a majority of its inhabitants in over two centuries after its revolution and Independence of 1804 Relatively incompetent both the nation's government and its opposition ignore moral politics and instead focus on corruption and fighting each other Though free from French rule the country remains tied to its slave past and violent history It seems like a socioeconomic and urban consensus cannot be achieved in order to carry out sustainable solutions for the people This book *From Revolution to Chaos in Haiti 1804 2019 Urban Problems and Redevelopment Strategies* is an attempt to analyze this situation from a historical perspective First the Haitian Revolution of 1804 is displayed to show the violent and bloody struggles of outstanding leaders and warriors against colonial powers for the making of a great political and independent nation Second Haiti's decline is analyzed starting from the assassination of its first leader Jean Jacques Dessalines in 1806 to the country's bottom rank in the global stratification during the 2010's along with the impact of the catastrophic 2010 earthquake The main factors noted within this decline are linguistic agricultural urban and HIV AIDS TB healthcare issues and undercapitalization along with ideological confusions capitalism neoliberalism socialism social democracy and political instability **The Catholic William F. Buckley, Jr.** James P. MacGuire, 2014-03-18 William F Buckley Jr was a prominent conservative American political commentator who was known for his rhetorical brilliance and frequent wit In his eighty two plus years he founded National Review wrote fifty five

books thousands of columns hosted hundreds of Firing Line television shows and became recognized as the founder of the modern conservative movement The first major conference on William F Buckley Jr was convened by the Portsmouth Institute in 2009 specifically to explore the role William F Buckley Jr's Catholic faith played in the formation of his thought and work This volume of the Portsmouth Review edited by Portsmouth Institute director James MacGuire contains the proceedings of that conference with contributions by James L Buckley Peter Flanigan Father George Rutler Maggie Gallagher Kathryn Jean Lopez Roger Kimball Joseph Bottum E J Dionne Lee Edwards Clark Judge and Neal Freeman There are additional articles by Christopher Buckley and Doms Damian Kearney and Paschal Scotti O S B William F Buckley Jr though blessed with an impervious faith was not always predictable in his Catholic views He resisted reforms of Vatican II questioned many of the Church's teachings and was the first to confess that he was no theologian With all this in mind The Catholic William F Buckley Jr is an essential resource for understanding what animated and inspired one of the great public intellectuals of the second half of the 20th century

Governance Through Social Learning Gilles Paquet, 1999 Governance connotes the way an organization an economy or a social system coordinates and steers itself Some insist that governing is strictly a top down process guided by authority and coercion while others emphasize that it emerges bottom up through the workings of the free market This book rejects these simplistic views in favour of a more distributed view of governance based on a mix of coercion quid pro quo market exchange and reciprocity on a division of labour among the private public and civic sectors and on the co evolution of these different integration mechanisms This book is for both practitioners confronted with governance issues and for citizens trying to make sense of the world around them Published in English

Capitalism after Postmodernism Hall Thomas Wilson, 2002-05-01 This book addresses a number of interrelated issues in the old and new political economy The focus on globalization is generally taking the mind off questions of debt and indebtedness Capital now has such a decided institutional edge that its legitimacy in capitalist democracies is under threat Present developments seriously jeopardize the balance between capital public and social institutions on which the progress and welfare of the developing world and the capitalist democracies depend Going back to Marx Weber and Habermas Wilson concludes that against the backdrop of Weberian pessimism social intellectuals still have to rise to the occasion rather than assisting in the massive and consequently self confirming prophecy that contemporary postmodernism now threatens to become

Bureaucratic Representation Hall Thomas Wilson, 2021-11-22 This text discusses the central role of bureaucratic representation as a key vehicle for representing the general interests of most citizens in a way that is consistently superior to electoral systems in representative democracies particularly large states Though formal elections remain indispensable bureaucracies in the capital public and social sectors have used their superior expertise and continuity combined with social policies like affirmative action and equal pay to achieve responsible discretion and creative implementation

The Political Culture of Planning J Barry Cullingworth, J. Barry Cullingworth, 2002-09-26 *The Political Culture of Planning* is written for two quite distinct readerships The main body of the book synthesizes a mass of information to provide an overview of a complex and amorphous field This material is designed to meet the needs of students who require a succinct account of the American system of land use planning These readers can ignore the notes For those who are embarking upon a much wider and deeper study of land use planning in the US the notes are crucial they provide the guideposts to an immensely rich literature The first four parts of the text present the main issues of land use planning in the US Part 1 assesses the US zoning system The introductory chapter discusses the meaning of zoning and its difference from planning the primacy of local governments the constitutional framework and the role of the courts Chapter two provides the historical background to zoning and an outline of the classic Euclid case Chapter three discusses the objectives and nature of zoning and the use which local governments have made of its inherently inflexible character Chapter four acts as a corrective to this view describing how lawyers and planners have shown remarkable ingenuity in adapting zoning to the demands of a changing society Part 2 deals with the perennial issues of discrimination financing infrastructure for new development and the process for negotiating zoning matters Part 3 presents a discussion of two overlapping issues of increasing significance aesthetics and historic preservation Part 4 focusses on the main issue facing land use planners attempting to channel the forces of development into spatial forms held to be socially desirable Part 5 consists of a series of broad ranging essays which discuss land use planning in the US its institutional and cultural framework and the reasons for its particular character Part 6 discusses the limited possibilities for land use reform in the US drawing on the author's considerable experience in both Britain and Canada in order to interpret the limitations and potentialities of land use planning in the US

dealing with that crisis **Religion, Identity and Human Security** Giorgio Shani, 2014-04-03 Religion Identity and Human Security seeks to demonstrate that a major source of human insecurity comes from the failure of states around the world to recognize the increasing cultural diversity of their populations which has resulted from globalization Shani begins by setting out the theoretical foundations dealing with the transformative effects of globalization on identity violence and security The second part of the volume then draws on different cases of sites of human insecurity around the globe to develop these ideas examining themes such as securitization of religious symbols retreat from multiculturalism rise of exclusivist ethno religious identities post 9 11 state religion colonization and the racialization of migration Highlighting that religion can be a source of both human security and insecurity in a globalizing world Shani offers a critical human security paradigm that seeks to de secularize the individual by recognizing the culturally contested and embedded nature of human identities The work argues that religion serves an important role in re embedding individuals deracinated from their communities by neo liberal globalization and will be of interest to students of International Relations Security Studies and Religion and Politics
