*National Labor Movements in the Postwar World* Everett Malcolm Kassalow, 1963      **National Labor Movements in the Postwar World. Ed. by Everett M. Kassalow. [Forew. by Ralph N. Campbell].**, 1963      *American Labor Dynamics in the Light of Post-war Developments* Jacob Benjamin Salutsky Hardman, 1928 These studies were guided by the provisional officers and Advisory board of the American labor problem associates cf Editor s foreword      *The Labor Movement in the United States, 1860-1895* Norman Ware, 1929 Selected bibliography p 393 397      *Political Oppositions in Western Democracies* Robert A. Dahl, 1966-03-11 The idea that the opposition has a right to organize and to appeal for votes against the government in elections and in parliament is one of the most important milestones in the development of democratic institutions Mr Dahl and nine collaborators analyze the role of the opposition in Austria Belgium France Germany Great Britain Italy the Netherlands Norway Sweden and the United States In introductory and concluding chapters Dahl compares the patterns of opposition in these countries and makes predictions for the future He carries forward on the basis of this evidence the theory of a pluralistic society he has explored in earlier books such as *Who Governs* Mr Dahl is Sterling Professor of Political Science at Yale University His collaborators are Samuel Barnes Hans Daalder Frederick Engelmann Alfred Grosser Otto Kirchheimer Val R Lorwin Allen Potter Stein Rokkan and Nils Stjernquist This stately volume is distinguished by several unusual features First it straightforwardly focuses on a crucial issue of Comparative Politics without being vitiated by the familiar behaviorist semantics and jargon Secondly contrary to the ubiquitous trend in this country flooded by discussion more journalistic than scientific on the emergent states it centers on constitutional democracy in Western Europe a region which for a decade and more had been badly neglected by the rampant computerizers Thirdly for the ten countries under discussion Professor Dahl was fortunate to enlist the services of genuine experts the majority of whom are specialists in their field On the whole the volume is one of the major contributions to Comparative Politics that have appeared in this country for some time The study of the issue as such as well as of the individual reviews is highly rewarding Karl Loewenstein *The Annals*      **Post-war Economic Policy and Planning** United States. Congress. House. Special Committee on Post-War Economic Policy and Planning, 1945      *Labor's Outcasts* Andrew J. Hazelton, 2022-09-13 In the mid twentieth century corporations consolidated control over agriculture on the backs of Mexican migrant laborers through a guestworker system called the Bracero Program The National Agricultural Workers Union NAWU attempted to organize these workers but met with utter indifference from the AFL CIO Andrew J Hazelton examines the NAWU s opposition to the Bracero Program against the backdrop of Mexican migration and the transformation of North American agriculture His analysis details growers abuse of the program to undercut organizing efforts the NAWU s subsequent mobilization of reformers concerned by those abuses and grower opposition to any restrictions on worker control Though the union s organizing efforts failed it nonetheless created effective strategies for pressuring growers and defending workers

rights These strategies contributed to the abandonment of the Bracero Program in 1964 and set the stage for victories by the United Farm Workers and other movements in the years to come *National Labor Movements in the Postwar World*, 1963
