National Parks And Other Wild Places Of Canada:

The National Parks and Other Wild Places of Canada Blake Maybank, Peter Mertz, 2001 Useful travel information about the national parks in Canada

The National Parks and Other Wild Places of Canada Blake Maybank, Peter Mertz, 2001-09 The National Parks and Other Wild Places of Canada is a prestigious souvenir for visitors to Canada and a spectacular visual introduction to the country for anyone with an interest in wildlife and wild places From barren Arctic tundra and rugged mountain ranges to golden prairie and evergreen forest this evocative yet practical exploration of Canada's parks and wilderness areas brings to life the vast landscapes and natural splendour of this the world's second largest country With 320 magnificent photographs all the major parks of the country are described Colour maps show each area's main features and visitor information panels provide fully up to date details on access accommodation and activities including hiking rafting birdwatching and fishing

National Geographic Guide to the National Parks of Canada National Geographic, 2017 An illustrated region by region guide to the national parks of Canada offering sample itineraries and site by site tours and providing historical information location and activity descriptions tips for travelers maps and lodging information with addresses phone numbers and price ranges

The National Parks and Other Wild Places of Britain and Ireland Jonathan Elphick, David Tipling, 2002 This book covers the national parks and other wild places in Britain and Ireland

Algonquin Park Jan Rinik, Martin Rinik, 2014-05-05 Most visitors to Algonquin Provincial Park experience its beauty during the summer months This book shows readers the diversity of wildlife and striking landscapes that appear throughout fall winter and spring Images and text together create a compellingly beautiful portrait of Algonquin Park capturing the wildlife forests lakes plants flowers and even mushrooms that illustrate the incredible diversity of the park through all seasons Talented painters illustrators and photographers Jan and Martin Rinik have spent years creating the rich range of visuals contained in this book More than 200 colour illustrations grace these pages along with 125 photographs of the park in all four seasons With training as a biologist Martin Rinik contributes authoritative information on the many species found in the park The result is a stunning and informative portrait one of the most diverse natural habitats in the world

Parks and Protected Areas in Canada Philip Dearden, Rick Rollins, 2009 Bringing together a list of outstanding scholars and officials from the academic world Canada's public service and non governmental organizations Parks and Protected Areas in Canada gives students a comprehensive look at Canadian park management and planning This text's carefully constructed framework dividing content by theoretical approaches and their applications case studies and themes such as the role of Aboriginal peoples in policy development crafts an in depth view of the contemporary issues relating to parks and protected space management in Canada today

Cities and Natural Process Michael Hough, 2004 An updated and revised discussion of the fundamental conflict in the perception of nature and an expression of the essential need for an environmental view when approaching urban design

Man's Impact on the Western Canadian Landscape J.G.

Nelson,1976-01-01 Setting a new direction for Canada's national parks Panel on the Ecological Integrity of Canada's National Parks,2000 **Nature's Spectacle** John Sheail,2014-06-17 National parks have always been an emotive and iconic symbol ever since the first parks of the modern era were created in the mid nineteenth century This book based on original research delves deeply into their character and significance and the larger context in which they developed The book celebrates the deserved attractiveness of the parks as wilderness or spectacle to millions of visitors but also emphasises how there was nothing inevitable self sustaining or without cost in their magnificence and accessibility Those early parks were a powerful unifying force as national playgrounds especially as motor transport democratised their use However they also provoked bitter conflict in their dispossession of local communities and perhaps deliberate segregation of people from scenery and wildlife That first century of national parks which concluded with the significant break of the Second World War and the subsequent development of more international approaches to conservation left an uncertain legacy It was a fragile foundation from which to build what became an integral part of today s conservation movement **Taiga** Trevor Day,2006 Describes the taiga biome including climate geology geography and biodiversity The Illustrated Canadian Forestry Magazine ,1923 Planting the Anthropocene Jennifer Clary-Lemon,2019-03-15 Planting the Anthropocene is a rhetorical look into the world of industrial tree planting in Canada that engages the themes of nature culture and environmental change Bringing together the work of material ecocriticism and critical affect studies in service of a new materialist environmental rhetoric Planting the Anthropocene forwards a frame that can be used to work through complex scenes of anthropogenic labor Using the results of interviews with seasonal Canadian tree planters Jennifer Clary Lemon interrogates the complex and messy imbrication of nature culture through the inadequate terminology used to describe the actual circumstances of the planters work and lives and offers alternative ways to conceptualize them Although silvicultural workers do engage with the limiting rhetoric of efficiency and humanism they also make rhetorical choices that break down the nature culture divide and orient them on a continuum that blurs the boundaries between the given and the constructed the human and nonhuman Tree planting work is approached as a site of a deep seated materiality a continued re creation of the land s disturbance rather than a simplistic form of doing good that further separates humans from landscapes Jennifer Clary Lemon s view of nature and the Anthropocene through the lens of material rhetorical studies is thoroughly original and will be of great interest to students and scholars of rhetoric and composition especially those focused on the environment North America Kevin Hillstrom,Laurie Collier Hillstrom,2003-08-26 A concise yet thorough overview of the environmental issues problems and controversies facing the vast and diverse continent that is North America North America tells the story of this environmental awakening and the continuing problems that the continent faces It tackles the tough issues the complex problems and the political controversies of the North American environment According to some estimates one out of every nine barrels of oil used in the world every day is consumed by a North American motorist In 1996 World Wildlife Fund Canada estimated that

the country was losing wilderness to development at a rate of more than one acre every 15 seconds Today this pace of destruction has been faulted for eroding much of the continent's fabulous natural wealth and new emphasis is being placed on finding a more appropriate balance between development and conservation *Wild Places* Sarah Baxter, 2022-05-03 A guide to 25 untameable or rewilded places throughout the world with beautiful illustrations and great tips for the mindful traveller as well as commentary on conservation of these special places

Protected Areas of the World: Nearctic and neotropical, 1991 Inhabited Phillip Vannini, April Vannini, 2021-11-15 People are key elements of wild places At the same time human entanglements with wild ecologies involve extractivism the growth of resource based economies and imperial colonial expansion activities that are wreaking havoc on our planet Through an ethnographic exploration of Canada's ten UNESCO Natural World Heritage sites *Inhabited* reflects on the meanings of wildness wilderness and natural heritage As we are introduced to local inhabitants and their perspectives Phillip Vannini and April Vannini ask us to reflect on the colonial and dualist assumptions behind the received meaning of wild challenging us to reimagine wildness as relational and rooted in vitality Over the three years they spent in and around these sites they learned from Indigenous and non Indigenous peoples about their entanglements with each other and with non human animals rocks plants trees sky water and spirits The stories actions and experiences they encountered challenge conventional narratives of wild places as uninhabited by people and disconnected from culture and society While it might be tempting to dismiss the idea of wildness as outdated in the Anthropocene era *Inhabited* suggests that rethinking wildness offers a better if messier way forward Part geography and anthropology part environmental and cultural studies and part politics and ecology *Inhabited* balances a genuine love of nature's vitality with a culturally responsible understanding of its interconnectedness with more than human ways of life

The Conservation of the Wild Life of Canada Charles Gordon Hewitt, 1921 The status of wildlife and their protection in reserves and by legislation

Nature for People Carol Inskipp, 2009 Discusses the impacts of human activity on the environment and how tourism and leisure activities can be managed more sustainably to have less of an impact on the environment Provided by publisher

Ecology & Wonder in the Canadian Rocky Mountain Parks World Heritage Site Robert W. Sandford, 2010 Ecology and Wonder celebrates Western Canada's breathtaking landscape The book makes several remarkable claims The greatest cultural achievement in the mountain region of western Canada may be what has been preserved not what has been developed Protecting the spine of the Rocky Mountains will preserve crucial ecological functions Because the process of ecosystem diminishment and species loss has been slowed an ecological thermostat has been kept alive This may well be an important defence against future impacts of climate change in the Canadian West
