## **National Traditions European Community:**

**Federalism and European Union** Michael Burgess, 2006-04-10 One of the most frequent criticisms levelled at the European Community is the discrepancy between federalist rhetoric and the intergovernmental response between its ideological aspirations and contemporary political reality The federalist heritage of the European Community has become discredited by contemporary political thinkers and yet it still forms an important part of the community's ideological foundations Within this book the contrasting theories of Spinelli and Monnet are subjected to rigorous criticism examining the benefits and pitfalls of their proposals for a unified Europe and the probability of the gap between theory and actuality ever being bridged in the future *The European Union and Culture* Annabelle Littoz-Monnet, 2013-07-19 The European Union and culture explains why and how the European Union has started to intervene in the cultural policy sector understood here as the public policies aimed at supporting and regulating the arts and cultural industries It is the first comprehensive and theoretically informed account of the Communitarisation process of the cultural policy sector Before 1992 no legal basis for EU intervention in the field of culture appeared in the Treaties Member states were in any case reluctant to share their competences in a policy sector considered to be an area of national sovereignty In such circumstances how was the Communitarisation of the policy sector ever possible Who were the policy actors that played a role in this process What were their motives And why were certain actors more influential than others This book will be of great use to all researchers and students of European integration and European public policy Uniformity of Customs Administration in the European Union Kathrin Limbach, 2015-11-19 Uniform customs administration is of great importance for the EU and the competitiveness of EU businesses in global trade However the EU's so called executive federalism raises the potential for the non uniform application of EU customs law This problem has already arisen in the European Communities Selected Customs Matters WTO dispute settlement Therefore the central research question of this book concerns the challenge presented to executive federalism in the EU Customs Union by the WTO It also examines those safeguard measures for uniform customs administration which are in operation Valuable empirical analysis of the decision making procedures and practices of the national customs authorities allows for the fullest understanding of the operation of the customs administration An important feature of the exploration is its analysis of the reform of EU customs law and of the effectiveness of the European Union's strategies to enhance uniform customs administration That analysis helps to identify potential weak points in the decentralised administration of EU customs law and suggests ways in which it might be improved Scholarly rigorous and timely this important study will be required reading for all scholars of EU customs law **Integration of Cultural Considerations in European Union Law and Policies** Evangelia Psychogiopoulou, 2008 Drawing on a series of EC policy areas that possess a cultural component this book offers an encompassing and in depth analysis of the integration of cultural considerations in EC law and action assessing the impact of Article 151 4 EC in the process *Citizenship, identity and*

*immigration in the European Union* Theodora Kostakopoulou, 2024-07-30 European citizenship identity and immigration are constitutive issues facing the European polity and have important consequences for domestic political systems There has been a great deal published about citizenship within the setting of the nation state and comparative immigration policies but relatively little has been written on their theorisation in a post national post statist context such as the EU and on alternative European institutional designs Now available in paperback this volume blends normative political theory with European integration and develops an original theoretical framework for European Union citizenship identity and immigration as well as a set of policy proposals for institutional reform Challenging the conventionally held views in these areas the author argues that a constructive model of European citizenship and identity is vital to the construction of a democratic heterogeneous and inclusive European polity The book will appeal to academics and political actors concerned with issues of European governance as well as to undergraduate and postgraduate students of European politics European integration European Union Law political theory and sociology

**The Competence of the European Union in Copyright Lawmaking** Ana Ramalho, 2016-03-08 This book inquires into the competence of the EU to legislate in the field of copyright and uses content analysis techniques to demonstrate the existence of a normative gap in copyright lawmaking To address that gap it proposes the creation of benchmarks of legislative activity reasoning that EU secondary legislation such as directives and regulations should be based on higher sources of law It investigates two such possible sources the activity of the EU Court of Justice in the pre legislative era and the EU treaties From these sources the author establishes concrete benchmarks of legislative activity which she then tests by applying them to current EU copyright legislation This provides examples of good and bad practices in copyright lawmaking and also shows how the benchmarks could be implemented in copyright legislation Finally the author offers some recommendations in this regard

**The Ecumenical Movement and the Making of the European Community** Lucian Leuştean, 2014 A study that assesses the political history of religious dialogue in the European Community detailing close relations between churchmen and high ranking officials in European institutions immediately after the 1950 Schuman Declaration

**The European Union as a Global Cultural Power** Mafalda Dâmaso, 2025-05-19 Although culture is increasingly recognised as a relevant focus of scholarly analysis the European Union EU has not yet been examined as a global cultural power Addressing this gap this book offers a comprehensive overview of the multiple arenas through which the EU has emerged as a major cultural actor beyond its borders Focusing on Culture in Foreign Policy and Development as well as Media and Trade the book gathers an international team of experts to provide a comprehensive analysis of the EU s multifaceted cultural action across various policy fields and regions The book draws together discussions in cultural studies cultural policy international relations media studies and law to ask the following questions What characterises EU cultural and media policies and programmes beyond its borders What are the assumptions and the goals that underlie such policies and programmes Suggesting that the EU is

beginning to emerge as an enabling power that supports cultural diversity around the world the volume also reflects on the global role of the EU and contribute to debates regarding the liberal international order by taking a new angle

**The Law of the European Union and the European Communities** Pieter Jan Kuijper, Fabian Amtenbrink, Deirdre Curtin, Bruno De Witte, Alison McDonnell, 2018-09-28 The Law of the European Union is a complete reference work on all aspects of the law of the European Union including the institutional framework the Internal Market Economic and Monetary Union and external policy and action Completely revised and updated with many newly written chapters this fifth edition of the most thorough resource in its field provides the most comprehensive and systematic account available of the law of the European Union EU Written by a new team of experts in their respective areas of European law its coverage incorporates and embraces many current controversial and emerging issues and provides detailed attention to historical development and legislative history of EU law Topics that are constantly debated in European legal analysis and practice are touched on in ways that are both fundamental and enlightening including the following powers and functions of the EU law institutions and relationship among them the principles of equality loyalty subsidiarity and proportionality free movement of persons goods services and capital mechanisms of constitutional change treaty revisions accession treaties withdrawal agreements budgetary principles and procedures State aid rules effect of Union law in national legal systems coexistence of EU European Convention of Human Rights ECHR and national fundamental rights law migration and asylum law liability of Member States for damage suffered by individuals competition law cartels abuse of dominant position merger control social policy equal pay and equal treatment environmental policy consumer protection public health cultural policy education and tourism nature of EU citizenship its acquisition and loss and law and policy of the EU s external relations The fifth edition embraces many new ongoing and emerging European legal issues As in the previous editions the presentation is notable for its attention to how the law relates to economic and political realities and how the various policy areas interact with each other and with the institutional framework The many practitioners and scholars who have relied on the predecessors of this definitive work for years will welcome this extensively revised and updated edition Those coming to the field for the first time will instantly recognize that they are in the presence of a masterwork that can always be turned to with profit and that helps in understanding the rationale underlying any EU law provision or principle

Research Handbook on Minority Politics in the European Union Tove H. Malloy, Balázs Vizi, 2022-11-25 This timely Research Handbook provides a multidisciplinary overview of research on ethno cultural minority issues at the supranational level of the EU It delivers a state of the art review of the EU s approaches to development and institutional implementation of minority policies from the Treaty of Rome until today

**Handbook of Quality of Life in the Enlarged European Union** Jens Alber, Tony Fahey, Chiara Saraceno, 2007-10-15 This is a comparative handbook and analysis of the social conditions and institutional contexts in the new and old member states of the enlarged EU 28

Free Trade and Cultural Diversity in International Law Jingxia Shi, 2013-04-30 This book attempts to

reconcile the concept of free trade with a key non trade social value cultural diversity in an era of economic globalisation It first shows how we can look at culture in many different ways and explains why we should care about cultural diversity The book then examines the challenges that policymakers are faced with in formulating cultural measures in the new media environment and analyses UNESCO s theories and approaches to cultural diversity This is followed by a comprehensive examination of the treatment of culture in global and regional trade agreements including the framework of the GATT WTO system the WTO s judicial practice involving cultural products and the treatment of culture under the EC EU and NAFTA This identifies the challenges trade norms encounter in dealing with cultural products The author seeks to formulate a balanced view of the challenge of protecting and promoting cultural diversity while also recognising the important goal of trade liberalisation To this end Professor Shi proposes a dual method through which the norms found in WTO agreements and in UNESCO cultural instruments may be brought into alignment the first highlighting the compatibility of cultural policy measures with trade obligations on a domestic level the second suggesting potential linkages between the WTO rules and the UNESCO Convention from the perspectives of treaty interpretation

*European Union Economic Law and Culture* Evangelia Psychogiopoulou, Sarah Schoenmaekers, 2024-05-02 This topical book provides fresh insight into the ways culture interconnects with and is treated by EU economic law and policy Contributing authors pose key questions pertaining to the nature scope and extent of the competence of the EU and its member states in the field of culture

*The Question of Competence in the European Union* Loïc Azoulay, 2014-02-20 The classic debate surrounding the prolific role of the European Union in defining spheres of competence and power relationships has long divided scholarly opinion However in recent years the long standing acquiescence to the broad powers of the Union has given way to the emerging perception of a competence problem in Europe For a long period it was taken for granted that the European Community could act whenever its action was justified on the basis of the widely interpreted objectives of the Treaties However this context has since changed There is a widespread perception of a competence problem in Europe and the overabundance of provisions limiting the Union s competences is one of the most obvious marks left by the Lisbon Treaty This book discusses the extent to which the parameters of power throughout the Union and its Member States have been recast by the recent implementation of the Lisbon Treaty and doctrines developed by the European Court of Justice Comprised of contributions from a vast array of leading practitioners and academics in the field of EU Law this volume assesses the debate surrounding the political identity of the European Union and further illustrates the relevance of the Federal theory of sharing competences for the development of EU Law Finally the question of new potential limits to Union s competence is addressed If anything this broad reflection on the notion of competence in the EU law context is a way of opening up the question of the nature and contours of the political identity of the European Union

*Cultural Diplomacy and International Cultural Relations: Volume I* Oliver Bennett, 2020-05-21 This book is the first in a dedicated series that explores questions of cultural diplomacy and

international cultural relations Drawing on a broad range of disciplinary perspectives it throws new light on the function and operation of policies that seek to change attitudes values and behaviours across national boundaries and in diverse geocultural contexts The specific policies explored relate to ways in which sites of past violence and atrocity are deployed in strategies of soft power to the contribution of culture to EU enlargement to the use of the Russian language as a soft power resource to the singularities of the Indian cultural diplomacy to cultural diplomacy as elite legitimation to the role of diaspora relations in European cultural diplomacy to the use of film in post war cultural diplomacy and to the role assigned to culture in the Canada EU Comprehensive Economic Trade Agreement Scholars interested in how cultural and foreign policy intersect in widely differing national contexts will find this book an invaluable resource It was originally published as a special issue of the International Journal of Cultural Policy

**Perceptions of the European Union in New Member States** Gabriella Ilonszki, 2013-10-31 The book explores the views of elites alongside those of the wider population in the European Union The chapters place the new member states and the potential candidate Serbia on the map of Europe in this context for the first time The volume s comparative method goes beyond the standard old member states versus new member states divide It assesses regional differences within Central Europe and evaluates the problem of European and national identity formation perception of external threats to the EU including Russia differences between economic and political elite views about the integration process and the connection between national performance and public opinion about Europe Even though in each country positive views are dominant about the integration process heterogeneous views prevail behind the image of a unifying Europe The book s major contribution is that it makes the new member states more visible and provides hard evidence while remaining theoretically driven Furthermore it covers the most important topics that emerge in studies concerning European integration The book is intended for those interested in European integration in general but Central and Eastern European comparativists will find it particularly useful This book was published as a special issue of Europe Asia Studies

**European Union Law** Damian Chalmers, Gareth Davies, Giorgio Monti, 2014-06-19 This market leading text combines clear explanation expert analysis and a wide range of materials to make it required reading

**The European Union and the Culture Industries** David Ward, 2016-02-17 This edited collection brings together leading academics in their respective fields to examine the European Union s impact on media and public policy It provides an analysis of the broader areas of EU policy and links these together to give a greater appreciation of the nuances and scope of EU regulatory initiatives and their impact on the member states Under a broad public interest perspective the authors provide an assessment of the success of EU policy in protecting the public interest in the culture industries and respecting certain normative principles and balancing these with market dynamics

Theorising National Cinema Valentina Vitali, Paul Willemsen, 2019-07-25 Why do we think of clusters of films as national cinema Why has the relationship between the nation and film become so widely and uncritically accepted Theorising National Cinema is a major contribution to work on national

cinema by many of the leading scholars in the field It addresses the knotty and complex relationship between cinema and national identity showing that the nationality of a cinema production company and the films that its made have not always been seen as pertinent The volume begins by reviewing and rethinking the concept of national cinema in an age of globalisation and it goes on to chart the parallel developments of national film industries and the idea of a nation state in countries as diverse as Japan South Korea Russia France and Italy The issues of a national cinema for nation states of contested status with disputed borders or displaced peoples is discussed in relation to film making in Taiwan Ireland and Palestine The contributors also consider the future of national cinema in an age of trans national cultural flows exploring issues of national identity and cinema in Latin America Asia the Middle East India Africa and Europe Theorising National Cinema also includes a valuable bibliography of works on national cinema

**The European Union: How Democratic Is It?** Svein S Andersen, Kjell A Eliassen, 1996-02-27 Taking as its starting point the major issues of democracy which are the ongoing concerns of every liberal Western political system this volume offers a wide ranging review of democracy in the European Union It treats the EU as a new type of political system within the tradition of parliamentary democracies a system which is neither federal nor intergovernmental and which consequently has unique problems of how to handle democratic requirements Part One deals with the two major challenges of interest articulation in the EU political parties and lobbying The second part discusses how democracy becomes the key element in the linkage between the EU and its member states focusing on France Italy and Belgium where the r
